The Polish Humboldtian University in the Face of Paradigmatic Change Aleksander Kobylarek, 2017-03-07 The

Polish university is based on the Humboldt model and can serve as a typical example of liberal education throughout Central and Eastern Europe This book portrays an institution resistant to change and defying all attempts at reform Currently it is attempting to retain its identity with no regard to the rapidly changing world of science culture and communication technologies that surrounds it The absolute power of the professor excessive administration and feudal subordination mean that such universities have lost touch with the local environment and have become a factory for graduates with a random education Power games and resentment have replaced the search for scientific truth which in turn means that such institutions are practically invisible in the rankings because of the lack of significant achievements This situation has led to proposal here of a redefinition of the function of the university based on a thorough analysis of needs of all its various groups of stakeholders

Social Media in South India Shriram Venkatraman, 2017-06-09 One of the first ethnographic studies to explore use of social media in the everyday lives of people in Tamil Nadu Social Media in South India provides an understanding of this subject in a region experiencing rapid transformation The influx of IT companies over the past decade into what was once a space dominated by agriculture has resulted in a complex juxtaposition between an evolving knowledge economy and the traditions of rural life While certain class tensions have emerged in response to this juxtaposition a study of social media in the region suggests that similarities have also transpired observed most clearly in the blurring of boundaries between work and life for both the old residents and the new Venkatraman explores the impact of social media at home work and school and analyses the influence of class caste age and gender on how and which social media platforms are used in different contexts These factors he argues have a significant effect on social media use suggesting that social media in South India while seeming to induce societal change actually remains bound by local traditions and practices
