Unisa Registration 2014:

Handbook of Open Universities Around the World Sanjaya Mishra, Santosh Panda, 2025-06-27 The Handbook of Open Universities Around the World is the first collection to provide a comprehensive and critical overview of open universities internationally Over 80 open universities have been established across five continents to provide a distance orientated class inclusive and high quality education for learners left behind by existing formal systems for higher and continuing education and lifelong learning This mission has been continually reshaped by major developments in open education learning technologies and online social networking as well as by the evolution of specific concerns such as the massification of education employability financial trends artificial intelligence and development agendas on the regional national and global levels This landmark volume analyzes and reflects on the planning organization management pedagogic skilling and employability and accreditation dimensions of 47 open universities in relation to their national and institutional contexts the internationalization of education and the integration of advanced learning technologies Featuring contributions by internationally recognized scholars practitioners and educational administrators this authoritative resource provides insights into the business model finances operations instructional systems enrollment patterns learner supports quality assurance professional development and more of today s open universities Through historical trajectories institutional profiles case studies lessons learned and best practices this book provides rich analytical perspectives on the status and challenges of single mode distance learning universities as an educational phenomenon while unpacking the premise of openness itself This Handbook is primarily written for planners managers administrators instructional designers and teaching faculty at single mode distance teaching universities who are seeking to sustain their institutions in a period of rapid change government policymakers training organizations technology providers and education think tanks who are in need of authentic and research based information on technology enabled learning modeled by open universities around the world and graduate students teaching faculty and scholars who are affiliated with online and distance education learning design and technology higher education planning and management adult education and lifelong learning and education policy and future studies Chapter 54 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4 0 license Watch a stimulating discussion between the book s volume editors and Sir John Daniel and Professor Stephen Murgatroyd on YouTube Financial Inclusion and Digital Transformation Regulatory Practices in Selected SADC Countries Howard Chitimira, Tapiwa Victor Warikandwa, 2023-03-28 This book investigates the regulation and promotion of financial inclusion and provides a comparative analysis of the regulation promotion and enforcement of the relevant laws in the SADC in particular South Africa Namibia Botswana and Zimbabwe as well as the challenges of financial inclusion In turn it evaluates financial inclusion in the context of specific challenges faced by unbanked and underbanked customers who are easy targets for cyber criminals

because they tend to have lower levels of digital literacy The book presents novel discussions that identify the challenges and flaws associated with the enforcement of financial inclusion laws and related measures intended to promote financial inclusion in the SADC region This is primarily done in order to reveal the current strengths and weaknesses of financial inclusion laws in relation to certain aspects of the companies securities and financial markets in the region For example there is no common financial inclusion instrument law that is effectively and uniformly applied throughout the SADC This has impeded the enforcement authorities efforts to effectively combat financial exclusion across the region The book is likely the most comprehensive study to date on the regulation and promotion of financial inclusion in the SADC region and fills a major gap in SADC and African legal jurisprudence As such it offers a valuable asset for policymakers attorneys bankers securities share holders and other market participants who deal with financial inclusion as well as undergraduate and graduate students interested in the topic Learning Analytics in Open and Distributed Learning Paul Prinsloo, Sharon

Slade, Mohammad Khalil, 2022-05-13 This book explores and further expands on the rich history of theoretical and empirical research in open and distributed learning and addresses the impact of the data revolution and the emergence of learning analytics on this increasingly diverse form of educational delivery Following an introductory chapter that maps the book's conceptual rationale the book discusses the potential challenges and practices of learning analytics in various open and distributed contexts A concluding chapter briefly summarises the chapters before providing a tentative future research agenda for learning analytics in open and distributed environments Open and Distance Education in Asia, Africa and the

Middle East Olaf Zawacki-Richter, Adnan Qayyum, 2019-02-18 This book is open access under a CC BY 4.0 license This book describes the history structure and institutions of open and distance education in six countries China India Russia Turkey South Africa and South Korea It describes how open and distance education is evolving in a digital age to reflect the needs and circumstances of the national higher education systems in these countries It also explores the similarities and differences between how their open and distance higher education systems are managed and structured This book is the second in a series following Open and Distance Education in Australia Europe and the Americas Springer 2018 Both books compare and draw conclusions about the nature of open and distance education in the context of various national higher education systems In a digital era characterized by the growing use of online open and distance education this book will prove particularly valuable for policy makers and senior administrators who want to learn about establishing or expanding open and distance education services In addition it offers a valuable reference guide for researchers academics and students interested in understanding the different approaches to open and distance education **The X-Men Films** Claudia Bucciferro, 2016-02-09 Originally appearing as a comic book in the 1960s X-Men has been a cultural touchpoint for decades Since the release of the first film in 2000 the series has enjoyed an even greater transnational presence With each successive film the franchise has secured its place within global popular culture becoming one of the most profitable and complex

superhero series to date While much of the research that has been published on the X Men focuses on the comics the movies constitute their own cultural text and deserve special attention In *The X Men Films A Cultural Analysis* Claudia Bucciferro has assembled a collection of essays that draw from work in communication cultural studies and media studies With contributions from a diverse group of scholars the chapters analyze issues that include gender sexuality disability class and race The contributors pose intriguing questions about the franchise such as What do mutants really represent What role do women and people of color play in the narratives Why does it matter that Professor X is disabled Why is Mystique often shown naked What facilitated Wolverine's rise to prominence And how do topics regarding identity trauma and bioethics figure in the stories Exploring issues relevant for a multicultural world and connecting thematic elements from the films to political debates and social struggles the book seeks to make a thoughtful contribution to the scholarship of popular culture *The X Men Films* will appeal to media scholars and students as well as to anyone interested in the X Men series

Advancing Online Course Design and Pedagogy for the 21st Century Learning Environment Chatham, Daniel, 2021-01-08 The current learning environment is substantially different than what existed for most of the 20th century Learners and teachers today must navigate in perpetually changing contexts where education is influenced by technological advancement and obsolescence economic barriers a changing employment landscape and even international politics Studies indicate that employers seek to hire graduates with strong skills in areas coalescing around international awareness creativity communication leadership and teamwork Skills and experiences in these areas are necessary preparation for the current economy and to pursue jobs that do not exist yet while providing some insulation against the obsolescence of industries that lack these characteristics These interpersonal skills are not often the subject of students' degrees yet there are opportunities in online education to cultivate them With increased interest in new career options comes the need to reconsider how to teach subjects in the increasingly online environment *Advancing Online Course Design and Pedagogy for the 21st Century Learning Environment* is a critical reference book that navigates today's dynamic education requirements and provides examples of how online learning can foster growth in skill areas necessary for career advancement through effective course design Moreover it helps educators gain insight into online pedagogy and course design for the 21st century learner and prepares them to convert traditional courses and enhance existing online courses thereby supporting students' growth and development in the highly dynamic online learning environment Focusing on specific learning activities assessments engagement communication techniques and more this book provides a valuable resource for those seeking to upgrade teaching and learning into the online environment those that seek better employment outcomes for their students and those seeking to explore contemporary online course design strategies or examples This includes teachers instructional designers curriculum developers academicians researchers and students **Suid-Afrikaanse Hofverslae**, 2014 **ECEL 2019 18th European Conference on e-Learning** Rikke Ørngreen, Bente Meyer, Mie Buhl, 2019-11-07 *COVID-19*
