**The Politics of Yahweh** John C. Nugent, 2011-11-08 John Howard Yoder is most famous for arguing in *The Politics of Jesus* that a sound reading of the New Testament demonstrates the abiding relevance of Jesus to social ethics However it is seldom acknowledged that Yoder makes essentially the same argument with regard to the Old Testament Throughout his extensive writings Yoder offers a provocative interpretation of the Old Testament that culminates in the way of Jesus and establishes the ethical ecclesiological and historiographical continuity of the entire biblical canon In *The Politics of Yahweh* presented as a prequel to *The Politics of Jesus* John C Nugent makes Yoder's complete Old Testament interpretation accessible in one place for the first time Nugent does not view Yoder's interpretation as flawless Rather Nugent moves beyond summary to offer honest critique and substantial revision His constructive proposal which stands in fundamental continuity with the work of Yoder is likely to provoke thought from theologians biblical scholars and ethicists Even at points where readers disagree with some of his and Yoder's interpretations they will be challenged to explore new perspectives and rethink common assumptions concerning the diverse and often confusing issues that arise from sustained reflection on the Old Testament

**A Comparative History of World Philosophy** Ben-Ami Scharfstein, 1998-02-27 A Comparative History of World Philosophy presents a personal yet balanced guide through what the author argues to be the three great philosophical traditions Chinese European and Indian The book breaks through the cultural barriers between these traditions proving that despite their considerable differences fundamental resemblances exist in their abstract principles Ben Ami Scharfstein argues that Western students of philosophy will profit considerably if they study Indian and Chinese philosophy from the very beginning along with their own Written with clarity and infused with an engaging narrative voice this book is organized thematically presenting in virtually every chapter characteristic views from each tradition that represent similar positions in the core areas of metaphysics and epistemology At the same time Scharfstein develops each tradition historically as the chapters unfold He presents a great variety of philosophical positions fairly avoiding the relativism and ethnocentrism that could easily plague a comparative presentation of Western and non Western philosophies

*Possibility's Parents* Margaret Seyford Hrezo, Nicholas Pappas, 2019-10-23 This book links the questions people ask about why things exist why the world is the way it is and whether and how it is possible to change their society or world with the societal myths they develop and teach to answer those questions and organize and bring order to their communal lives It also is about the need for change in western

societies current organizing concept classical Lockean liberalism Despite the attempts of numerous insightful political thinkers the myth of classical liberalism has developed so many cracks that it cannot be put back together again If not entirely failed it is at this point unsalvageable in its present form Never the thought of just one person the liberal model of individual religious political and economic freedom developed over hundreds of years starting with Martin Luther s dictum that every man should be his own priest Although classical liberalism means different things to different people at its most basic level this model sees human beings as individuals who exist prior to government and have rights over government and the social good That is the individual right always trumps the moral and social good and individuals have few obligations to one another unless they actively choose to undertake them Possibility s Parents argues that Lockean liberalism has reached the end of its logic in ways that make it unable to handle the western world s most pressing problems and that novelists whose writing includes the form and texture of myth have important insights to offer on the way forward
