World 30 Global Prosperity And How To Achieve It:

The Infrastructured State Colin Turner, 2020-02-28 At the core of the logic of this book is that states engage in infrastructuring as a means of securing and enhancing their territoriality By positioning infrastructure as a system there is a presumption that all infrastructures exhibit some degree of mutual dependence As such a National Infrastructure System NIS is not simply about conventional conceptions of infrastructure based on those that support economic activity i e energy transport and information but also about broader hard and soft structures that both enable and are supported by the aforementioned economic infrastructures Consequently this book offers an ambitious holistic view on the form of NIS arguing that the infrastructural mandate requires a conception of the state that encapsulates themes from both the competition and the welfare states in infrastructure provision

World 3.0 Pankaj Ghemawat, 2011-04-26 Since the financial crisis of 2008 many of us have had to reexamine our beliefs about markets and globalization How integrated should economies really be How much regulation is right Many people fuse these two dimensions of choice into one either favoring both globalization and deregulation or opposing both of them It doesn't have to be that way In World 3.0 award winning author and economist Pankaj Ghemawat reveals the folly in both of these responses He calls for a third worldview one in which both regulation and cross border integration coexist and complement one another Ghemawat starts by exposing common assumptions about globalization to hard data proving that the world is not nearly as globalized as we think And he explains why the potential gains from further integration are much larger than even pro globalizers tend to believe He then tackles market failures and fears job losses environmental degradation macroeconomic volatility and trade and capital imbalances that opponents of globalization often invoke Drawing on compelling data he shows that increased globalization can actually alleviate some of these problems Finally Ghemawat describes how a wide range of players businesses policy makers citizens media can help open up flows of ideas people and goods across borders but in ways that maximize the benefits and minimize the potential side effects World 3.0 dispels powerfully entrenched but incorrect assumptions about globalization Provocative and bold this new book explains how people around the world can secure their collective prosperity through new approaches to cross border integration Ghemawat's thinking will surprise and move you no matter where you stand on globalization

Global Meets Digital Vinod Jain, 2023-06-02 The world today is at the intersection of two megatrends Globalization and Digitalization a business revolution unfolding in real time Global Meets Digital captures the many nuances of this revolution succinctly including its impact on our lives and business An immediate implication of this revolution is that the economic principles that underpinned business and strategy for hundreds of years such as diminishing returns to scale and resource scarcity are no longer valid for a large and growing number of products and services The book will challenge you to think differently not just about digital products but also about physical products In the global digital world products are of three kinds physical digital and smart machines products that are both physical and digital and connected to the internet a

distinction missed by most books on strategy and global business The economics of each kind of products is distinct from that of the others which has strategic implications for all kinds of businesses implications such as how to compete and how to create and capture value With several mini case studies and over 100 company examples the book covers themes and cutting edge issues like the paradox of globalization digital disruption disruptive business models exponential technologies Internet of Things competition in digital markets winner take all market dynamics Industry 4.0 how to innovate strategizing for the New Normal and value creation and value capture in both B2C and B2B contexts The book derives its underpinnings from the practice of global and digital business while theory remains in the background Intended specifically for an executive professional audience *Global Meets Digital* should also be of value to business students and professors learning to dip their toes into a digital world Vinod Jain is an expert in global and digital strategy award winning professor Fulbright Scholar and author of an MBA textbook *Global Strategy* He taught at the Rutgers Business School Newark and New Brunswick and the Robert H Smith School of Business University of Maryland College Park At Maryland he was also the Founding Director of the federally funded Center for International Business Education and Research and Academic Director of Smith School's Executive MBA program in China Since leaving Maryland he has taught in China Denmark Finland Poland and India as a visiting or term professor His opinion pieces have appeared in *The Washington Post* *The Baltimore Sun* *Mensa Bulletin* and *Economic Times* and *Mint India*'s 1 and 2 business dailies among other media In the past he worked as a middle and senior level executive with American and British multinationals Vinod has a PhD in Strategy and International Business from the University of Maryland College Park MS in Management from UCLA and MS and BS Hons in Statistics from the Indian Statistical Institute Calcutta
