World Economic And Social Survey 2013 Sustainable Development Challenges:

Sustainable development challenges Department of Economic and Social Affairs United Nations,2013 **World Economic and Social Survey 2013** United Nations. Department of Economic and Social Affairs,2013 This volume contributes to the deliberations on addressing sustainable development challenges with a focus on three important cross sectoral issues identified for action and follow up at the 2012 United Nations Conference on Sustainable Development sustainable cities food security and energy transformation page four of cover *Sustainable Development - Challenges and Progress* Dr.Sukanta Sarkar, Dr.Rajib Malik,2014 **Social Inequality as a Global Challenge** Medani P. Bhandari,Shvindina Hanna,2022-09-01 This book discusses the factors behind the inequalities embedded within our social economic and political systems Social inequalities are especially seen in the service sectors in the differences of access to healthcare education social protection housing systems childcare elderly care etc Cultural inequality which segregates people from the mainstream based on recognition problems with a specific groups social status language religion customs and norms is another widespread issue This book tries to present an accurate picture of these issues with cases studies from various countries Mostly when we talk about inequality the focus is on economic inequality however much inequality persists especially discrimination due to gender age origin ethnicity disability sexual orientation class and religion To end this situation there is a need for social economic and political reform Until or unless the marginalized groups are empowered the inequality issue cannot be solved or even minimized On the basis of various case studies this book encourages us to rethink societal development through the lens of growing inequalities and disparities The book presents new insights for evaluating the progress on social development The book highlights the current challenges of social inequality In combination this collection of edited papers gives an integrated understanding of the question of why is society unequal This book is aimed at those stakeholders who want to make or contribute to change and build an undivided socially inclusive society and to those who want to contribute to empowering society in the Twenty First century IR James M. Scott,Ralph G. Carter,A. Cooper Drury,2020-12-17 Why is it so difficult to achieve peace and cooperation in world politics How do countries get what they want Do rules and norms matter in the international arena IR Seeking Security Prosperity and Quality of Life in a Changing World invites students to participate in these debates by providing a clear introduction to not just what happens but why and how it happens Assuming no prior knowledge about international relations award winning teachers and scholars James M Scott Ralph G Carter and A Cooper Drury meet students where they are and provides them with a framework to make sense of the complicated events and interactions of world politics Thoroughly updated the Fourth Edition provides insights into the changing nature of power in the global system and the greatest challenges to international order including the populist backlash against globalization Russian assertiveness and China s growing influence cyberwarfare COVID 19 and climate change This title is accompanied by a complete teaching and learning package Digital Option Courseware SAGE Vantage is

New Urban Worlds AbdouMaliq Simone,Edgar Pieterse,2018-03-15 It is well known that the world is transitioning to an irrevocable urban future whose epicentre has moved into the cities of Asia and Africa What is less clear is how this will be managed and deployed as a multi polar world system is being born The full implications of this challenge cry out to be understood because city building and retrofitting cannot but be an undertaking entangled in profound societal and cultural shifts In this highly original account renowned urban sociologists AbdouMaliq Simone and Edgar Pieterse offer a call for action based fundamentally on the detail of people's lives Urban regions are replete with residents who are compelled to come up with innovative ways to maintain or extend livelihoods whose makeshift character is rarely institutionalized into a fixed set of practices locales or organizational forms This novel analytical approach reveals a more complex relationship between people the state and other agents than has previously been understood As the authors argue we need adequate concepts and practices to grasp the composition and intricacy of these shifting efforts to make visible new political possibilities for action and social justice in cities across Asia and Africa

China's Urban Revolution Austin Williams,2017-10-19 By 2025 China will have built fifteen new supercities each with 25 million inhabitants It will have created 250 Eco cities as well clean green car free people friendly high tech urban centres From the edge of an impending eco catastrophe we are arguably witnessing history's greatest environmental turnaround an urban experiment that may provide valuable lessons for cities worldwide Whether or not we choose to believe the hype there is little doubt that this is an experiment that needs unpicking understanding and learning from Austin Williams The Architectural Review's China correspondent explores the progress and perils of China's vast eco city program describing the complexities which emerge in the race to balance the environment with industrialisation quality with quantity and the liberty of the individual with the authority of the Chinese state Lifting the lid on the economic and social realities of the Chinese blueprint for eco modernisation Williams tells the story of China's rise and reveals the pragmatic political and economic motives that lurk behind the successes and failures of its eco cities Will these new kinds of urban developments be good humane healthy places Can China find a third way in which humanity nature economic growth and sustainability are reconciled And what

lessons can we learn for our own vision of the urban future This is a timely and readable account which explores a range of themes environmental political cultural and architectural to show how the eco city program sheds fascinating light on contemporary Chinese society and provides a lens through which to view the politics of sustainability closer to home

Sustainable Rural Development Perspective and Global Challenges Orhan Özçatalbaş,2023-03-29 Agriculture is vitally important to humanity Climate change environmental pollution global warming and the COVID 19 pandemic have highlighted the importance of food safety and food security This book discusses sustainable agriculture and its importance in combatting the adverse effects of climate change and meeting the world s food demand And essentially the technologies to be used for CE to prevent climate change should be common property of humanity This may be a new paradigm but the real issue is the future of the earth and ensuring the continuity of sustainable life It is a fact that the creation of such a culture of sharing will serve all the SDGs put forward by the UN

The SAGE Handbook of New Urban Studies John Hannigan,Greg Richards,2017-05-01 The last two decades have been an exciting and richly productive period for debate and academic research on the city The SAGE Handbook of New Urban Studies offers comprehensive coverage of this modern re thinking of urban theory both gathering together the best of what has been achieved so far and signalling the way to future theoretical insights and empirically grounded research Featuring many of the top international names in the field the handbook is divided into nine key sections SECTION 1 THE GLOBALIZED CITY SECTION 2 URBAN ENTREPRENEURIALISM BRANDING GOVERNANCE SECTION 3 MARGINALITY RISK AND RESILIENCE SECTION 4 SUBURBS AND SUBURBANIZATION STRATIFICATION SPRAWL SUSTAINABILITY SECTION 5 DISTINCTIVE AND VISIBLE CITIES SECTION 6 CREATIVE CITIES SECTION 7 URBANIZATION URBANITY AND URBAN LIFESTYLES SECTION 8 NEW DIRECTIONS IN URBAN THEORY SECTION 9 URBAN FUTURES This is a central resource for researchers and students of Sociology Cultural Geography and Urban Studies

Smart City - Future City? Chirine Etezadzadeh,2015-09-24 The concept of a livable smart city presented in this book highlights the relevance of the functionality and integrated resilience of viable cities of the future It critically examines the progressive digitalization that is taking place and identifies the revolutionized energy sector as the basis of urban life The

concept is based on people and their natural environment resulting in a broader definition of sustainability and an expanded product theory Smart City 2.0 offers its residents many opportunities and is an attractive future market for innovative products and services However it presents numerous challenges for stakeholders and product developers

The Oxford Handbook of Environmental Political Theory Teena Gabrielson, Cheryl Hall, John M. Meyer, David Schlosberg, 2016-01-07

Set at the intersection of political theory and environmental politics yet with broad engagement across the environmental social sciences and humanities The Oxford Handbook of Environmental Political Theory defines illustrates and challenges the field of environmental political theory EPT Featuring contributions from distinguished political scientists working in this field this volume addresses canonical theorists and contemporary environmental problems with a diversity of theoretical approaches The initial volume focuses on EPT as a field of inquiry engaging both traditions of political thought and the academy In the second section the handbook explores conceptualizations of nature and the environment as well as the nature of political subjects communities and boundaries within our environments A third section addresses the values that motivate environmental theorists including justice responsibility rights limits and flourishing and the potential conflicts that can emerge within between and against these ideals The final section examines the primary structures that constrain or enable the achievement of environmental ends as well as theorizations of environmental movements citizenship and the potential for on going environmental action and change

South-North Dialogues on Democracy, Development and Sustainability Cristina Fróes de Borja Reis, Tatiana Berringer, 2023-05-31

This book shows how bringing together experts from the Global South and the Global North can help us to understand and combat global economic political and social inequalities For too long the world's problems have been viewed through the narrow conceptual lenses of the Global North This book lays the groundwork for a new approach a truly global approach to political economy We are currently facing multiple and overlapping international crises The current economic crisis characterized by deepening inequalities is closely intertwined with intensifying geopolitical rivalries and the environmental crisis The dialogues in this book aim to move beyond the Eurocentric tradition and bring voices from the Global South to the forefront of the debate Covering 11 key themes drawn from the United Nations Agenda 2030 the book conceptualizes democracy development and sustainability not only as strategies but also as values that are integrated into the same and continuously changing analytical process This book will be of great interest to students researchers and experts in international relations global development and international political economy and to anyone looking for new perspectives on pernicious problems
