Worldview The History Of A Concept:

Worldview David K. Naugle, 2002-07-16 Conceiving of Christianity as a worldview has been one of the most significant events in the church in the last 150 years In this new book David Naugle provides the best discussion yet of the history and contemporary use of worldview as a totalizing approach to faith and life This informative volume first locates the origin of worldview in the writings of Immanuel Kant and surveys the rapid proliferation of its use throughout the English speaking world Naugle then provides the first study ever undertaken of the insights of major Western philosophers on the subject of worldview and offers an original examination of the role this concept has played in the natural and social sciences Finally Naugle gives the concept biblical and theological grounding exploring the unique ways that worldview has been used in the Evangelical Orthodox and Catholic traditions This clear presentation of the concept of worldview will be valuable to a wide range of readers

Defining worldview, worldview the history of a concept, how the church lost her story and what she can do to get it back, Bryan Institute for Critical Thought and Practice ,2005

Sayyid Qutb's Radical Islamism and the Comparative Political Theology Dragos Stoica, 2024-12-15 Sayyid Qutb's Radical Islamism and The Comparative Political Theology argues that Sayyid Qutb's radical critique of secular modernity seen as a product of a great theft of sovereignty that usurps the monopoly of God over the entire world of creation is not idiosyncratic or incoherent but a quintessential expression and an extreme type of a specific tradition of political theology that until now has been exclusively the province of the Western thought Dragos Stoica claims that Sayyid Qutb's political theology of Hakimiyyah God's Sovereignty is better understood by integrating it in a wider context of the antimodern political theology Thus throughout this book he compares Qutb's critique of modernity with the Pakistani Islamist thinker Abu al A la Mawdudi 1903 1979 the Spanish Catholic counter revolutionary political theologian Juan Donoso Corte's 1809 1853 as well as the Protestant political theologians Abraham Kuyper 1837 1920 and Rousas J Rushdoony 1916 2001 This book employs a family resemblance cross cultural comparative method and applies a cross disciplinary analytical model that combines comparative political theology with critical discourse analysis Employing these analytical instruments this book compares Qutb and his counterparts via the category of anti modern political theology more precisely through a set of shared antitheses organized around the master concept of God's Sovereignty The ultimate objective is to augment the understanding of the Qutbian critique of secular modernity as an essential dimension of anti modern political theology Thus by recasting Sayyid Qutb as an essential Muslim political theologian of God's Sovereignty placed within a larger cross cultural paradigm this book contributes as well to the necessary process of decolonization of political theology

The Metaphysics of Historical Jesus Research Jonathan Rowlands, 2015-10-15 In this book Rowlands interrogates the theological and philosophical foundations of the Quest for the historical Jesus from Reimarus to the present day culminating in a call for greater metaphysical transparency and diversity in the discipline This multidisciplinary approach to historical Jesus research drawing on historiography sociology philosophy

and theology makes a significant and original contribution to the field Part I outlines the implicit role of metaphysical presuppositions in historical methodology by examining the concept of an historiographical worldview Part II provides an overview of the Quest for the historical Jesus demonstrating that the disparate historiographical worldviews operative in the Quest evidence a particular shared characteristic in that they might accurately be described as secular Rowlands study concludes with a call for a greater plurality and openness regarding the philosophical and theological presuppositions at work in historical Jesus research The Metaphysics of Historical Jesus Research is of interest to students and scholars working on New Testament studies and historical Jesus research *The Nature of Confession* George A. Lindbeck, 1996-01-01 Voted one of Christianity Today's 1997 Books of the Year Ours is an age of profound cultural change in which new categories and alliances are bound to arise In theology the liberal strategy has lost support having degenerated into mere anthropology and succumbed to the political agendas of its proponents And while the evangelical movement appears to be gaining ground it is simultaneously suffering an acute identity crisis Currently the postliberal or Yale school movement has found a strong resonance in some mainline denominational circles Its emphasis on the biblical text and Jesus Christ through which all other reality needs to be construed may turn out to be the most significant theological realignment in more than a century Are we witnessing a paradigm shift Can evangelicals and postliberals make common confession Might they even combine forces to reinvigorate the church its theology and its mission for a new era In this groundbreaking book creative evangelical and postliberal thinkers explore exactly how they agree and disagree along a range of issues from epistemology and theological method to doctrinal concerns Evangelical contributors include such significant theologians as Alister McGrath and Gabriel Fackre Postliberal contributors include George Lindbeck a founding father of postliberalism and George Hunsinger the former student and major interpreter of the late Hans Frei another founder of postliberalism In *The Nature of Confession* we are presented with the beginnings of a robust discussion of real importance to both the academy and the church *Bridging the Gap* Gerald A. Klingbeil, 2007 This volume is intended to introduce university and seminary students and scholars to the neglected field of ritual studies particularly within the larger context of biblical and theological studies At the same time the author hopes to further the discussion by interacting with numerous scholars in the field providing an extensive bibliography of relevant works Klingbeil defines the basic terms used in ritual studies and explains the concepts involved in interpreting biblical ritual He offers a broad history of the study of biblical ritual beginning with the critiques of ritual found in the Old Testament prophetic books and surveying attitudes toward ritual down to modern times Drawing on the fields of anthropology and sociology as well as his decade of work in the field Klingbeil presents a comprehensive reading strategy for biblical ritual texts In addition he explores connections between ritual studies and theological research This ground breaking study promises to generate discussion about biblical ritual and provides an excellent introduction to this growing field of study for students and scholars **A Critical Realist's Theological Method** Douglas W. Kennard, 2013-02-21 A Critical

Realist s Theological Method explores a systematic theology method grounded in critical realism in the wake of Alister McGrath Imre Lakatos Nancey Murphy N T Wright and Dale Allison Kennard surveys philosophical and traditional theological approaches for contributions and limitations in order to set out a method for theology and science Kennard extends this method to a Thiselton Ricoeur hermeneutic that can fund insightful exegesis and Biblical theology in the wake of Ladd Dunn Vos and Goldingay This Biblical theology method is illustrated by wisdom literature the traditional reef of the discipline and then developed for the contributions toward systematic theology as Gabler had originally envisioned With contextualized Scripture sourcing most of the content for systematic theology the trajectory is shown in the subtitle Returning the Bible and Biblical Theology to be the Framer for Theology and Science The method is exemplified in exegesis of creation texts which frame possibilities for science Likewise Biblical theology frames a bio ethics integration of psychology and theology setting out a transactional model for psychological recovery with University of Chicago professor Paul Holmes A theology for peer review and work is also framed

Transforming Worldviews Paul G. Hiebert,2008-05-01 In the past changes in behavior and in belief have been leading indicators for missionaries that Christian conversion had occurred But these alone or even together are insufficient for a gospel understanding of conversion For effective biblical mission Paul G Hiebert argues we must add a third element a change in worldview Here he offers a comprehensive study of worldview its philosophy its history its characteristics and the means for understanding it He then provides a detailed analysis of several worldviews that missionaries must engage today addressing the impact of each on Christianity and mission A biblical worldview is outlined for comparison Finally Hiebert argues for gospel ministry that seeks to transform people s worldviews and offers suggestions for how to do so

Hofer,2022-10-11 This book allows us to accompany C S Lewis on his intellectual and spiritual journey from atheism to pantheism and eventually to Christianity It analyzes key elements of Lewis s Christian worldview and identifies challenges leveled against it from alternative worldviews It examines Lewis s apologetic methodology highlighting how it was shaped by his worldview and provides an analysis of Lewis s specific responses to a number of objections The project also serves as a comparative analysis of worldviews particularly as they relate to truth claims of the Christian faith The notion of worldview is critical to the formulation of views One s worldview determines how reality is perceived It s characterized as a set of glasses

through which we view our surroundings and interpret experiences It accounts for the perspective we bring to every event in life and helps explain why different people see things differently when looking at the same data The same evidence may lead one person to reject a particular conclusion while moving another to embrace what the other rejected Lewis s major works are explored at length in this book Although much has been written about Lewis Hofer s examination of the influence of worldview on his work is unique **Reading Lamentations Intertextually** Heath A. to God, Revised Edition Rick Ostrander, 2012-08-14 A brief introduction to the unique purpose and nature of a Christian college education for students their parents teachers and others The new edition expands the discussion of Christian worldview beyond intellectual analysis to include actions and attitudes Sections on the Christian mind redemption and cultural engagement have been revised to incorporate the recent insights of Christian thinkers such as Andy Crouch James Davison Hunter Gabe Lyons Mark Noll and James K A Smith *Secularism and the Pursuit of Transcendence, Volume I*

Stanley E. Porter, Wendy J. Porter, 2025-02-20 We live in a secular age or so we have been told Nevertheless the Christian church strongly believes that we still experience and in fact are surrounded by acts of transcendence encounters with God that often defy imagination and explanation And yet we do try to explain such phenomena whether theologically experientially biblically historically philosophically literarily or even or especially artistically These two volumes are more than just papers from a major conference on secularism and the pursuit of transcendence held at McMaster Divinity College in Hamilton Ontario They contain genuine attempts by people deeply engaged with their secular surroundings to explain what we mean by transcendence Transcendence has been a longstanding topic among the best thinkers of this and previous ages and the same is true for these volumes which include contributions by Charles Taylor Robert Wuthnow Merold Westphal and Christina Gschwandtner but also by a wide range of others who address the question from divergent vantage points The responses vary as much as the orientations of those involved in the pursuit of defining not only what it means to live in our secular age but to be involved in the pursuit of transcendence or even to perceive the Transcendent s pursuit of us
