Practitioner's Handbook on International Arbitration and Mediation - Third Edition Richard Chernick,Daniel M. Kolkey,Barbara Reeves Neal,2012-04-01 The Practitioner's Handbook on International Arbitration and Mediation 3rd Edition is a unique work with each chapter written by a well known practitioner and expert in the field It covers each step of the international arbitration and mediation process and offers separate chapters that summarize the laws of leading arbitral venues This Handbook is intended to make the reader into a better practitioner or arbitrator mediator Moreover each chapter has been written to provide practical advice and guidance Unlike many works with multiple authors this work is not simply a collection of essays on a general subject This book is a unified work with cross references among the chapters and a consistent format throughout The Practitioner's Handbook is divided into three parts Part One describes in detail each step of the international arbitration process and offers tips Part Two deals with each step and facet of an international mediation Each of these chapters is filled with Practitioners Expert Commentary Part Three summarizes the laws of leading arbitral jurisdictions like Hong Kong England Switzerland and France These chapters give you detailed guidance on the laws governing international arbitration in that particular jurisdiction As a result the chapters in Part Three are a bit more technical as the authors realized that the reader would need citations to and commentary on the local arbitration statutes and rules The CD ROM that accompanies this Work contains relevant original source material that is germane to the text A review of the table of contents

of the material contained on the CD ROM will acquaint you with the range of material covered

Czerny,Peter Forsyth,2016-12-14

Over the past several decades commercial air traffic has been growing at a far greater rate than airport capacity causing airports to become increasingly congested How can we accommodate this increased traffic and at the same time alleviate traffic delays resulting from congestion The response outside the US has been to set a maximum number of slots and use administrative procedures to allocate these among competing airlines with the most important consideration being grandfather rights to existing carriers The United States on the other hand has used administrative procedures to allocate slots at only four airports In all other cases flights have been handled on a first come first served basis with aircraft queuing for the privilege of landing or taking off from a congested airport While recognizing the advantages of slot systems in lessening delays economists have criticized both approaches as being sub optimal and have advocated procedures such as slot auctions peak load pricing and slot trading to better utilize congested airports Edited by an international team of air transport economists and drawing on an impressive list of contributors *Airport Slots* provides an extremely comprehensive treatment of the subject It considers the methods currently used to allocate slots and applies economic analysis to each The book then explains various schemes to increase public welfare by taxing or pricing congestion and describes alternate slot allocation schemes most notably slot auctions In addition *Airport Slots* outlines the complexities involved in slot allocation methods including the requirement for multiple slots a take off slot at London Heathrow is useless unless there is a landing slot available at Frankfurt for a London Frankfurt flight Finally the book explores the economic pitfalls of slot allocation schemes for example controls may not be required if external delay costs are internalized by a dominant carrier at its hub *Airport Slots* provides a valuable contribution to the debate on how best to limit airport congestion The book s comprehensive treatment of the subject matter provides the reader with a one stop volume to explore airport congestion and slot allocation schemes offering valuable insights to academics and practitioners alike
