Strobel, 2017-07-05 Art history has enriched the study of material culture as a scholarly field This interdisciplinary volume enhances this literature through the contributors' engagement with gender as the conceptual locus of analysis in terms of femininity masculinity and the spaces in between Collectively these essays by art historians and museum professionals argue for a more complex understanding of the relationship between objects and subjects in gendered terms The objects under consideration range from the quotidian to the exotic including beds guns fans needle paintings prints drawings mantillas almanacs reticules silver punch bowls and collage These material goods may have been intended to enforce and affirm gendered norms however as the essays demonstrate their use by subjects frequently put normative formations of gender into

question revealing the impossibility of permanently fixing gender in relation to material goods concepts or bodies This book will appeal to art historians museum professionals women s and gender studies specialists students and all those interested in the history of objects in everyday life **Travellers in Eighteenth Century Europe** Julie Peakman,2025-01-16

Travellers in Eighteenth Century Europe is an edited collection with contributions by leading scholars brought together by a prolific author with expertise in eighteenth century culture The Grand Tour was considered a part of the education of a young gentleman Travellers included blossoming scholars poets writers and scientists Visits were made to Greece and Italy via France and Switzerland often taking in Turkey But women also traveled extensively though these accounts have been under explored The book will examine first hand accounts of the impact of foreign travel on both women and men seen through their letters travel diaries journals and their creative response in poems music and art Its originality is seen in its exploration of a comparison between the views of women and men abroad and the differences in what they deemed interesting and worthy of comment The book is especially relevant in light of the many past and current xenophobic views of the foreigner Here we more often see travellers viewing their experience of otherness and exoticism in a positive light a cultural appreciation rather than a cultural appropriation This book examines how men and women saw these new worlds opening up before them what delighted them what influenced them and their interaction with others in the light of domesticity antiquity politics work science sex and friendships Gender, Space and Illicit Economies in

Eighteenth-Century Europe Anne Montenach,2024-02-23 This book seeks to contribute a multi dimensional multi layered and gendered approach to the illicit economy in the historiography of early modern Europe Using original source material from several countries this volume concentrates on a border and transnational area approximately the Lyon Geneva Turin triangle located at the heart of European trade It focuses on three products salt cotton and silk all of which fuelled the black market between the last decades of the seventeenth century and the French Revolution This volume offers an original contribution to wider studies of smuggling illicit markets and women s economic roles by taking into account the economic life of remote mountain communities and industrious cities Showing that irregular practices were a structural characteristic of early modern economies it provides insight into the opportunities offered to women in a highly flexible economy where licit and illicit activities were intermingled in a very complex way This research monograph is aimed at a historical audience and constitutes a useful resource for students and scholars interested in gender history social and economic history urban history and French studies **Women and Achievement in Nineteenth-Century Europe** Linda L.
