Women Politicians And The Media:

Women Politicians and the Media Maria Braden,1996 All American politicians face the glare of media coverage but for women seeking or holding high public office the scrutiny by newspapers and television can be both withering and damaging a fact that has changed little over the decades despite the emergence of more women in politics and more women in the news media Maria Braden s pioneering study takes a sweeping look at how the media have influenced and skewed public perceptions of women seeking governorships and national office over the past eighty years from Jeannette Rankin the first woman elected to the U S House through the disastrous vice presidential bid of Geraldine Ferraro Throughout the decades Braden traces a persistent double standard in media coverage of women s political campaigns Her personal interviews with recent women politicians including Margaret Chase Smith Bella Abzug Kay Bailey Hutchison Nancy Kassebaum and Ann Richards reveal their agonizing struggles to get across to the public the message that they are competent candidates capable of holding high office and shaping our nation s course

Women Politicians and the Media Maria Braden,2021-09-15 All American politicians face the glare of media coverage both in running for office and in representing their constituents if elected But for women seeking or holding high public office as Maria Braden demonstrates the scrutiny by newspapers and television can be both withering and damaging a fact that has changed little over the decades despite the emergence of more women in politics and more women in the news media Particularly disturbing is the fact that the increase in the number of women reporters appears to have had little effect on the way women candidates are portrayed in the media Some women reporters in fact seem intent on proving that they can be just as tough on women candidates as their male counterparts thus perpetuating the misrepresentations of the past Braden examines the political fortunes of Jeannette Rankin the first woman elected to the U S House those of the congressional glamour girls of the 1940s Clare Boothe Luce and Helen Gahagan Douglas the long Senate career of Margaret Chase Smith the political struggles of diverse women of more recent decades including Bella Abzug Elizabeth Holtzman Nancy Kassebaum Barbara Jordan Dianne Feinstein and Ann Richards and the disastrous vice presidential bid of Geraldine Ferraro Braden traces a persistent double standard in media coverage of women s political campaigns through the past eighty years Journalists dwell on the candidates novelty in public office and describe them in ways that stereotype and trivialize them Especially demeaning are comments on women s appearance personality and family connections comments of a sort that would rarely be made about men candidates Are they too pretty or too plain What do their clothes say about them Are they feminine enough or too masculine Are they still just ordinary housewives or are they neglecting their families by heading for Washington or the state house Braden s study is based on both media accounts and the revealing personal interviews she conducted with a broad range of recent women politicians including Margaret Chase Smith Bella Abzug Kay Bailey Hutchison Nancy Kassebaum and Ann Richards All describe agonizing struggles to get across to the public the message that they are serious and competent candidates

capable of holding high office and shaping our nation's course *Women in Politics and Media* Maria Raicheva-Stover, Elza Ibroscheva, 2014-09-25 Although women constitute half of the world's population their participation in the political sphere remains problematic While existing research on women politicians from the United States the United Kingdom and Canada sheds light on the challenges and opportunities they face we still have a very limited understanding of women's political participation in emerging democracies *Women in Politics and Media Perspectives From Nations in Transition* is the first collection to de Westernize the scholarship on women politics and media by 1 highlighting the latest research on countries and regions that have not been the usual suspects 2 featuring a diverse group of scholars many of non Western origin 3 giving voice through personal interviews to politically active women thus providing the reader with a rare insight into women's agency in the political structures of emerging democracies Each chapter examines the complex women politics and media dynamic in a particular nation state taking into consideration the specific political historic and social context With 23 case studies and interviews from Latin America sub Saharan Africa the Middle East and North Africa Central and Eastern Europe Asia Russia and the former Soviet republics this volume will be of interest to students media scholars and policy makers from developed and emerging democracies **Women Political Leaders and the Media** D. Campus, 2013-01-21 This book analyzes how the media covers women leaders and reinforces gendered evaluations of their candidacies and performance It deals with current transformations in political communication that may change the nature and scope of leadership in contemporary democracies with implications for relations between female leaders media and citizens **Women and Media** Karen Ross, Carolyn M. Byerly, 2008-06-09 Comprised of original research in diverse genres and medias *Women and Media International Perspectives* brings together eight international scholars to explore key issues of the gender media relation Provides important insights into how gender is implicated in media industries Address key issues of the gender media relation from an analysis of news media's coverage of women politicians to the marketing of girl power to strategizing for equality in newsrooms Highlights the theme that media have the potential both to reinforce the status quo in power arrangements in society but also to contribute to new more egalitarian ones Includes an introduction by the editors that carefully maps the contours of the international struggle between feminists and the media section overviews bibliographies key terms and discussion questions *Women, Politics, Media* Karen Ross, 2002 In particular the strategies which women employ to gain some control over the ways in which they are presented and reported on by journalists are discussed making explicit the tension between publicity and privacy but also making clear that women are not irrevocably positioned as victim The critique offered here also factors in the ways in which political parties themselves their elites as well as their rank and file are seriously implicated in supporting processes which attempt to undermine the potency and potential of women's political contribution through a variety of covert and overt mechanisms This is an important book as it integrates the debates about women media and politics in ways which give equal voice to the embodied political woman and her views as

well as discussing the representational image of women politician as the subject and object of research on mediated discourse

BOOK JACKET *Women on the Run* Danny Hayes, Jennifer L. Lawless, 2016-05-03 The book argues that contrary to conventional wisdom the candidate's sex plays a minimal role in the majority of US elections *Women Political Leaders and the Media* D. Campus, 2013-01-21 This book analyzes how the media covers women leaders and reinforces gendered evaluations of their candidacies and performance It deals with current transformations in political communication that may change the nature and scope of leadership in contemporary democracies with implications for relations between female leaders media and citizens *Discourse, Politics and Women as Global Leaders* John Wilson, Diana Boxer, 2015-10-15

Discourse Politics and Women as Global Leaders focuses on the discourse practices of women in global political leadership It provides a series of discursive studies of women in positions of political leadership Political leadership is defined as achieving a senior position within a political organization and will often indicate a senior role in government or opposition The volume draws on a diverse collection of studies from across the globe reflecting a variety of cultures and distinct polities The primary aim is to consider in what way's discursive practice underpins reflects or is appropriated in terms of women's political success and achievements within politics The chapters employ differing theoretical approaches all bound by the discursive insights they provide and in terms of their contribution to understanding the role of language and discourse in the construction of gendered identities within political contexts *Women in Canadian Politics* Kathy Megyery, 1991-01-01

Women are the most under represented social group in the elected assemblies of the world Women everywhere constitute more than one half of the population and rarely are more than a handful of the political elite The studies in this volume examine women's involvement in political parties both past and present Empirical studies identify the roles Canadian women play in parties the opportunities and barriers they face and their progress toward greater representation in the political process The questions addressed in this volume include What are the major barriers to women's entry into federal politics Janine Brodie Do large numbers of women remain confined to pink collar work at the expense of executive positions Sylvia Bashevkin What is the impact of the candidate selection process on the election of women to the House of Commons Lynda Erickson How does incumbency affect the number of women elected to federal office Lisa Young What is the influence of media coverage on women in politics Gertrude Robinson and Armande Saint Jean The authors agree that the under representation of women in politics undermines the democratic credibility of our governing institutions Nonetheless they are cautiously optimistic regarding the prospects for the third generation of women entering politics
