Women Saints Lives In Old English Prose Library Of Medieval Women:

Women Saints Lives in Old English Prose Leslie A. Donovan, 1999 Translations of eight saints lives giving an insight into women's religious culture in Anglo Saxon England Devout virtuous and independent the heroines of Old English saints lives one of the most popular literary genres of the middle ages provided exemplars of personal and public inspiration for medieval Christians The eight lives translated here are the earliest known vernacular accounts of the biographies of thelthryth Agatha Agnes Cecilia Eugenia Euphrosyne Lucy and Mary of Egypt They depict women escaping unwanted marriages communicating with male relatives acquiring an education living autonomously as hermits and achieving positions of leadership such lives document not only the importance of spiritual faith to early Christian women but also testify to how these women and their audience employed faith as a tool for empowerment Each life is preceded by a brief description of the saint's cult from its early Christian origins to its presence in Anglo Saxon culture The translation is accompanied by an introduction establishing the general background for the genre the conventions of women saints lives and women's religious culture in Anglo Saxon England and an interpretive essay exploring the relationships between explicit presentations of the female body and the strength of spiritual authority as exhibited in these texts completes the volume LESLIE A DONOVAN is Associate Professor at the University of New Mexico *The Literary Subversions of Medieval Women* Jane

Chance, 2007-08-06 This study of medieval women as postcolonial writers defines the literary strategies of subversion by which they authorized their alterity within the dominant tradition To dismantle a colonizing culture they made public the private feminine space allocated by gender difference they constructed unhomely spaces They inverted gender roles of characters to valorize the female they created alternate idealized feminist societies and cultures or utopias through fantasy and they legitimized female triviality the homely female space to provide autonomy While these methodologies often overlapped in practice they illustrate how cultures impinge on languages to create what Deleuze and Guattari have identified as a minor literature specifically for women as displaced Women writers discussed include Hrotsvit of Gandersheim Hildegard of Bingen Marie de France Marguerite Porete Catherine of Siena Margery Kempe Julian of Norwich and Christine de Pizan

Writing Women Saints in Anglo-Saxon England Paul E. Szarmach, 2013-01-01 The twelve essays in this collection advance the contemporary study of the women saints of Anglo Saxon England by challenging received wisdom and offering alternative methodologies The work embraces a number of different scholarly approaches from codicological study to feminist theory While some contributions are dedicated to the description and reconstruction of female lives of saints and their cults others explore the broader ideological and cultural investments of the literature The volume concentrates on four major areas the female saint in the Old English Martyrology genre including hagiography and homelitic writing motherhood and chastity and differing perspectives on lives of virgin martyrs The essays reveal how saints lives that exist on the apparent margins of orthodoxy actually demonstrate a successful literary challenge extending the idea of a holy life Medieval

Women's Writing Diane Watt, 2007-10-22 Medieval Women's Writing is a major new contribution to our understanding of women's writing in England 1100-1500. The most comprehensive account to date, it includes writings in Latin and French as well as English and works for as well as by women. Marie de France, Clemence of Barking, Julian of Norwich, Margery Kempe and the Paston women are discussed alongside the Old English lives of women saints. The Life of Christina of Markyate, the St Albans Psalter and the legends of women saints by Osborn Bokenham. Medieval Women's Writing addresses these key questions: Who were the first women authors in the English canon? What do we mean by women's writing in the Middle Ages? What do we mean by authorship? How can studying medieval writing contribute to our understanding of women's literary history? Diane Watt argues that female patrons, audiences, readers and even subjects contributed to the production of texts and their meanings, whether written by men or women. Only an understanding of textual production as collaborative enables us to grasp fully women's engagement with literary culture. This radical rethinking of early women's literary history has major implications for all scholars working on medieval literature, on ideas of authorship and on women's writing in later periods. The book will become standard reading for all students of these debates. *Saint Bride and Her Book* Saint Bridget (of Sweden), Julia Bolton Holloway, 2000. First published in 1992. Late-Medieval German Women's Poetry Albrecht Classen, 2004. A considerable collection of German women's poetry in translation, results of ingenious archival research.

Early Medieval English Life Courses, 2021-11-22 How did the life course with all its biological, social and cultural aspects influence the lives, writings and art of the inhabitants of early medieval England? This volume explores how phases of human life such as childhood, puberty and old age were identified, characterized and related in contemporary sources, as well as how nonhuman life courses were constructed. The multi-disciplinary contributions range from analyses of age vocabulary to studies of medicine, name-giving practices, theology, Old English poetry and material culture. Combined, these cultural-historical perspectives reveal how the concept and experience of the life course shaped attitudes in early medieval England. Contributors are Jo Appleby, Debby Banham, Darren Barber, Caroline R. Batten, James Chetwood, Katherine Cross, Amy Faulkner, Jacqueline Fay, Elaine Flowers, Daria Izdebska, Gale R. Owen, Crocker Thijs, Porck and Harriet Soper. **The Year's Work in Medievalism, 2005 and 2006** Gwendolyn Morgan, 2007-07-01. The Year's Work in Medievalism 2005-2006 is based upon but not restricted to the proceedings of the International Conference on Medievalism for those years. The International Conference on Medievalism is organized by Gwendolyn Morgan for the International Society for the Study of Medievalism and for the subject volume Karl Fugelso of Towson University 2005 and Claire Simmons of Ohio State University 2006. This first volume of this double issue focuses on medievalism as a means of exploring gender issues and identity, while the second examines the juxtaposition of modern to medieval society as a means of curing present ills. **The Third Gender and Aelfric's Lives of Saints** Rhonda L. McDaniel, 2018-03-31. In *The Third Gender* McDaniel addresses the idea of the third gender in early hagiography and Latin treatises on virginity and then examines Aelfric's treatment of gender in his

translations of Latin monastic Lives for his non monastic audiences She first investigates patristic ideas about a third gender by describing this concept within the theoretical frameworks of monasticism and then turns to creating a historical and theological cultural context within which to locate an interpretation of Aelfric's portrayals of male and female saints The Life of Saint Eufrosine ,2021-03-01 As a young woman from a wealthy family Eufrosine was expected to marry a nobleman Instead she wanted to serve God So she cut her hair dressed as a man and traveled to a monastery becoming a monk named Emerald Adapted from a Latin source this saint's life dates to about 1200 CE Devout yet erotic lyrical yet didactic it blends hagiography with romance and epic in order to engage and inspire a broad audience The tale invites readers to rethink preconceived notions of the Middle Ages the relation between spiritual and secular values and ideas about the history of sexuality identity and family Only fragments of the poem have been previously translated This edition includes the first full translation alongside the Old French original as well as a glossary and other supporting material
