Women In The Mosque A History Of Legal Thought:

Women in the Mosque Marion Katz,2014-09-23 Juxtaposing Muslim scholars debates over women s attendance in mosques with historical descriptions of women s activities within Middle Eastern and North African mosques this study shows how over the centuries legal scholars arguments have often reacted to rather than dictated Muslim women s behavior Tracing Sunni legal positions on women in mosques from the second century of the Islamic calendar to the modern period this volume connects shifts in scholarly terminology and argumentation to changing constructions of gender Over time assumptions about women s changing behavioral norms over different stages of the lifecycle gave way to a global preoccupation with sexual temptation which then became the central rationale for limits on women s mosque access At the same time travel narratives biographical dictionaries and religious polemics document patterns suggesting that women s usage of mosque space often diverged in both timing and content from the ritual models constructed by scholars This book demonstrates both the concrete social and political implications of Islamic legal discourse and the autonomy of women s mosque based activities It also examines women s mosque access as a trope in Western travelers narratives and the evolving significance of women s mosque attendance among different Islamic currents in the twentieth century WOMAN IN THE MOSQUE KATZ MARION,2015-04-30 *The Contemporary British Mosque* Abdul-Azim Ahmed,2024-03-21 Repositioning mosques as social cultural and political spaces this book provides new insights on key contemporary debates the religious identity of Britain secularisation the far right and terrorism and gender equality Exploring the story of the British mosque from house conversions to grand works of architecture and the role they play in public life Abdul Azim Ahmed details the establishment of early mosques during the era of Empire and the rapid growth in the years following the Second World War Ahmed takes a sociological approach to this study drawing on fieldwork and ethnographic case studies alongside reviews of databases and historical documents to provide perspectives on the British mosque from the congregants themselves The Muslim congregation a poorly understood and often overlooked dimension of religion in Britain is examined and issues of diversity denomination sacredness and society are explored **The Oxford Handbook of Islamic Law** Anver M. Emon,Rumee Ahmed,2018-10-25 This volume provides a comprehensive survey of the contemporary study of Islamic law and a critical analysis of its deficiencies Written by outstanding senior and emerging scholars in their fields it offers an innovative historiographical examination of the field of Islamic law and an ideal introduction to key personalities and concepts While capturing the state of contemporary Islamic legal studies by chronicling how far the field has come the Handbook also explains why certain debates recur and indicates fundamental gaps in our knowledge Each chapter presents bold new avenues for research and will help readers appreciate the contested nature of key concepts and topics in Islamic law This Handbook will be a major reference work for scholars and students of Islam and Islamic law for years to come Women and Leadership in Islamic Law David Solomon Jalajel,2016-11-10 Islamic law has traditionally prohibited women from being

prayer leaders and heads of state A small number of Muslims today are beginning to challenge this stance but they face considerable opposition from the broader Muslim community Women and Leadership in Islamic Law examines the assumption within much existing feminist scholarship that the patriarchal nature of pre Islamic and early Muslim Near Eastern Society is the primary reason for the development of Islamic legal rulings prohibiting women from leadership positions It claims that the evolution of Islamic law was a complex process shaped by numerous cultural historical political and social factors as well as scriptural sources whose importance cannot be dismissed Therefore the book critically examines a broad survey of legal works from the four canonical Sunni schools of law to determine the factors that influenced the development of the legal rulings prohibiting women from assuming various leadership roles The passages that elaborate rulings about women s leadership are presented in translation as an appendix to the research and are then subjected to a variety of critical analyses to identify the reasons influences and assumptions underlying those rulings This is the first time works of all four schools of law have been subjected to this kind of analysis for the express purpose of determining the extent to which gender attitudes have influenced and determined the rulings This book will therefore be a vital resource for students and scholars of Islamic Studies Religious Studies and Gender Studies **Women as Imams** Simonetta

Calderini,2020-12-10 There is a long and rich history of opinion centred on female prayer leadership in Islam that has occupied the minds of theologians and jurists alike It includes outright prohibition dislike permissibility under certain conditions and although rarely unrestricted sanction or even endorsement This book discusses debates drawn from scholars of the formative period of Islam who engaged with the issue of female prayer leadership Simonetta Calderini critically analyses their arguments puts them into their historical context and for the first time tracks down how they have informed current views on female imama prayer leadership In presenting the variety of opinions discussed in the past by Sunni and Shi i scholars and some of the Sufis among them the book uncovers how they are at present being used selectively depending on modern agendas and biases It also reviews the roles and types of authority of current women imams in diverse contexts spanning from Asia Africa and Europe to America The research offers readers the opportunity to gain nuanced answers to the question of female imama today that may lead to informed discussions and to change if not necessarily in practices then at the very least in attitudes This ground breaking book interrogates the cases of women who are reported to have led prayer in the past It then analyses the voices of current women imams many of whom engage with those women of the past to validate their own roles in the present and so pave the way for the future **The Oxford Handbook of Islam and Women**

Asma Afsaruddin,2023 The Oxford Handbook of Islam and Women offers authoritative contributions from well known scholars whose sophisticated and cutting edge research explores the diversity of Muslim women s lives and their accomplishments challenging common stereotypes that are particularly prevalent in the West **Routledge Handbook of Islamic Ritual and Practice** Oliver Leaman,2022-06-08 Ritual and practice are one of the most distinctive features of

religion and they are linked with its central beliefs Islam is no exception here and this Handbook covers many aspects of those beliefs and practices It describes the variety of what takes place but mainly why and what the implications of both the theory and practice have for our understanding of Islam The book includes accounts of prayer food pilgrimage mosques and the various legal and doctrinal schools that exist within Islam with the focus on how they influence practice The volume is organized in terms of texts groups practices places and others An attempt has been made to discuss the wide range of Muslim ritual and practice and provide a sound guide to this significant aspect of the religious life of one of the largest groups of believers in the world today *Amulets and Talismans of the Middle East and North Africa in Context* ,2022-04-25

In this volume amulets and talismans are studied within a broader system of meaning that shapes how they were manufactured activated and used in different networks Text material features and the environments in which these artifacts circulated are studied alongside each other resulting in an innovative approach to understand the many different functions these objects could fulfil in pre modern times Produced and used by Muslims and non Muslims alike the case studies presented here include objects that differ in size material language and shape What the articles share is an all round in depth approach that helps the reader understand the complexity of the objects discussed and will improve one s understanding of the role they played within pre modern societies Contributors are Hazem Hussein Abbas Ali Gideon Bohak Ursula Hammed Juan Campo Jean Charles Coulon Venetia Porter Marcela Garcia Probert Anne Regourd Yasmine al Saleh Karl Schaefer and Petra M Sijpesteijn

Suburban Islam Justine Howe,2018-01-02 In Suburban Islam Justine Howe explores the rise of third spaces created by educated middle class American Muslims to challenge their exclusion from the American mainstream and to enact visions for American Islam different from those they encounter in their local mosques Howe shows how third spaces have shaped not just the development of American Islam but are also reshaping the rich religious landscape of America s suburbs
