Women In The Quran Traditions And:

Women in the Qur'an, Traditions, and Interpretation Barbara Freyer Stowasser, 1994 Islamic ideas about women and their role in society spark considerable debate both in the Western world and in the Islamic world itself Despite the popular attention surrounding Middle Eastern attitudes toward women there has been little systematic study of the statements regarding women in the Qur'an Barbara Stowasser fills this void with this study on the women of Islamic sacred history Women in the Qur'an Traditions and Interpretation presents the Qur'anic revelations on female figures associated with God's prophets from Adam to Muhammad Revealed narratives and legislation are then pursued through their medieval modern and contemporary interpretations The theological exegetic sources here chosen all Sunni include the major classical works as well as for the modern period examples of modernist traditionalist and fundamentalist exegesis For Hadith materials beyond the theological tafsir Stowasser analyzes both popular narratives of the tales of the prophets genre and representative samples of the classical historical and legal Hadith A close reading of modern sources including those by lay writers shows the waning influence of these traditional materials in present day Islamic thought By telling the stories of the women of sacred history in Qur'an and interpretation this book presents an introduction to past and present Islamic paradigms of doctrine and their socio economic and political applications Stowasser establishes the link between the female figures as cultural symbols and Islamic self perceptions from the beginning to the present time Book Jacket [The Rights of Women in Islam](#) H. Jawad, 1998-06-30 It has been argued that Islam liberated Muslim women by granting them full rights as citizens Yet in reality we see that women have long been subjected to both cultural and political oppression Instances such as forced marriages are sadly common in the Muslim World as are restrictions on education and on their role in the labour force

Women from Traditional Islamic Educational Institutions in Indonesia Eka Srimulyani, 2012 Dit is de eerste Engelstalige publicatie over vrouwen in traditionele islamitische onderwijsinstellingen in Indonesië de zogenaamde pesantren Deze vrouwen spelen een belangrijke rol de genderproblematiek in de Indonesische moslimgemeenschap Deze informatieve en inzichtelijke studie dient twee groeiende onderzoeksgebieden in de studies over Indonesië de studie naar de islam en de studie naar moslimvrouwen Tevens voegt het een nieuw perspectief toe aan de bestaande Engelstalige literatuur over moslims buiten de huidige dominante context van het Midden Oosten of Sub Indische continent **Women, the Koran and International Human Rights Law** Niaz A. Shah, 2006 Religion plays a pivotal role in the way women are treated around the world socially and legally This book discusses three Islamic human rights approaches secular non compatible reconciliatory compatible and proposes a contextual interpretive approach It is argued that the current gender discriminatory statutory Islamic laws in Islamic jurisdictions based on the decontextualised interpretation of the Koran can be reformed through Ijtihad independent individual reasoning It is claimed that the original intention of the Koran was to protect the rights of women and raise their status in society not to relegate them to subordination This Koranic intention and

spirit may be recaptured through the proposed contextual interpretation which in fact means using an Islamic or insider strategy to achieve gender equality in Muslim states and greater compatibility with international human rights law It discusses the negative impact of the so called statutory Islamic laws of Pakistan on the enjoyment of women s human rights and robustly challenges their Koranic foundation While supporting the international human rights regime this book highlights the challenges to its universality feminism and cultural relativism To achieve universal application genuine voices from different cultures and groups must be accommodated It is argued that the women s human rights regime does not cover all issues of concern to women and has a weak implementation mechanism The book argues for effective implementation procedures to turn women s human rights into reality

Feminism, Tradition and Change in Contemporary Islam

Shehnaz Haqqani, 2024-10-17 The Islamic tradition has always been flexible changing over time and constantly adapting to the different societies Muslims find themselves in Few Muslims today would abide by the fatwa against the printing press under the Ottomans Moreover although Islamic law legislates for slavery and child marriage only a vanishing minority of Muslims consider these practices acceptable today and some will even argue that Islam never permitted them Yet some issues like the prohibition on female led prayer and female interfaith marriage seem curiously impervious to change Why is that Through a mixture of interviews with ordinary Muslims in Texas and critical analysis of contemporary and historical scholarship Shehnaz Haqqani demonstrates the gendered dimensions of change and negotiation in Islamic tradition She argues that a reliance on a mostly male scholarly consensus means that the tradition preserves male privilege at the expense of justice for Muslim women

The Oxford Encyclopedia of Women in World History Bonnie G. Smith, 2008 The Encyclopedia of Women in World History captures the experiences of women throughout world history in a comprehensive 4 volume work Although there has been extensive research on women in history by region no text or reference work has comprehensively covered the role women have played throughout world history The past thirty years have seen an explosion of research and effort to present the experiences and contributions of women not only in the Western world but across the globe Historians have investigated womens daily lives in virtually every region and have researched the leadership roles women have filled across time and region They have found and demonstrated that there is virtually no historical social or demographic change in which women have not been involved and by which their lives have not been affected The Oxford Encyclopedia of Women in World History benefits greatly from these efforts and experiences and illuminates how women worldwide have influenced and been influenced by these historical social and demographic changes The Encyclopedia contains over 1 250 signed articles arranged in an A Z format for ease of use The entries cover six main areas biographies geography and history comparative culture and society including adoption abortion performing arts organizations and movements such as the Egyptian Uprising and the Paris Commune womens and gender studies and topics in world history that include slave trade globalization and disease With its rich and insightful entries by leading scholars and experts this
