Womens Voices From West Africa An Anthology Of Songs From The Sahel:

Women's Voices from West Africa Aissata G. Sidikou, Thomas A. Hale, 2012-02-23 Aissata G Sidikou and Thomas A Hale reveal the world of women s songs and singing in West Africa This anthology collected from 17 ethnic traditions across West Africa introduces the power and beauty of the intimate expressions of African women The songs many translated here for the first time reflect all stages of the life cycle and all walks of life They entertain give comfort and encouragement and empower other women to face the challenges imposed on them by their families men and society Women s Voices from West Africa opens a new window on women s changing roles in contemporary Africa

Women's Songs from West Africa Thomas A. Hale, Aissata G. Sidikou, 2013-12-02 Exploring the origins organization subject matter and performance contexts of singers and singing Women s Songs from West Africa expands our understanding of the world of women in West Africa and their complex and subtle roles as verbal artists Covering C te d Ivoire the Gambia Mali Niger Nigeria Senegal and beyond the essays attest to the importance of women s contributions to the most widespread form of verbal art in Africa

Historical Dictionary of Women in Sub-Saharan Africa Kathleen Sheldon, 2016-03-04 African women s history is a vast topic that embraces a wide variety of societies in over 50 countries with different geographies social customs religions and historical situations Africa is a predominantly agricultural continent and a major factor in African agriculture is the central role of women as farmers It is estimated that between 65 and 80 percent of African women are engaged in cultivating food for their families and in the past that percentage was likely even higher Thus one common thread across much of the continent is women s daily work in their family plot This second edition of Historical Dictionary of Women in Sub Saharan Africa contains a chronology an introduction appendixes and an extensive bibliography The dictionary section has over 700 cross referenced entries on individual African women in history politics religion and the arts on important events organizations and publications and on topics important to women in general marriage fertility employment and to African women in particular market women child marriage queen mothers This book is an excellent access point for students researchers and anyone wanting to know more about the Women in Africa

Subversive Traditions Jonathon Repinecz, 2019-10-01 How can traditions be subversive The kinship between African traditions and novels has been under debate for the better part of a century but the conversation has stagnated because of a slowness to question the terms on which it is based orality vs writing tradition vs modernity epic vs novel These rigid binaries were in fact invented by colonialism and cemented by postcolonial identity politics Thanks to this entrenched paradigm far too much ink has been poured into the so called Great Divide between oral and writing societies and to the long lamented decline of the ways of old Given advances in social science and humanities research studies in folklore performance invented traditions colonial and postcolonial ethnography history and pop culture the moment is right to rewrite this calcified literary history This book is not another story of subverted traditions but of subversive ones West African epics like Sunjata Samori and Lat Dior offer a space from which to

think about and criticize the issues of today just as novels in European languages do Through readings of documented performances and major writers like Yambo Ouologuem and Amadou Hamp t B of Mali Ahmadou Kourouma of Ivory Coast and Aminata Sow Fall and Boubacar Boris Diop of Senegal this book conducts an entirely new analysis of West African oral epic and its relevance to contemporary world literature *Protest Arts, Gender, and Social Change* Ousseina Alidou,2024-04-23 The role of literature and popular songs in the cultural politics of Hausa society Bargaining for Women's Rights Alice J. Kang,2015-06-30 Gender relations in Muslim majority countries have been subject to intense debate in recent decades In some cases Muslim women have fought for and won new rights to political participation reproductive health and education In others their agendas have been stymied Yet missing from this discussion until now has been a systematic examination of how civil society groups mobilize to promote women s rights and how multiple components of the state negotiate such legislation In *Bargaining for Women s Rights* Alice J Kang argues that reform is more likely to happen when the struggle arises from within Focusing on how a law on gender quotas and a United Nations treaty on ending discrimination against women passed in Niger while family law reform and an African Union protocol on women s rights did not Kang shows how local women s associations are uniquely positioned to translate global concepts of democracy and human rights into concrete policy proposals And yet drawing on numerous interviews with women s rights activists as well as Islamists and politicians she reveals that the former are not the only ones who care about the regulation of gender relations Providing a solid analytic framework for understanding conflict over women s rights policies without stereotyping Muslims *Bargaining for Women s Rights* demonstrates that contrary to conventional wisdom Islam does not have a uniformly negative effect on the prospects of such legislation Female Highlife Performers in Ghana Nana Abena Amoah-Ramey,2018-07-27 This book offers a detailed analysis of the history of female musicians in the Highlife music tradition of the Republic of Ghana particularly the challenges and constraints these women faced and overcame Highlife a form of West African music infusing Ghana s traditional Akan dance rhythms and melodies with European instruments and harmonies grew in popularity throughout the 20th century and hit its peak in the 1970s and 1980s Although women played significant roles in the evolution and survival of the genre few of their contributions have been thoroughly explored or documented Despite being disregarded and ignored in many spheres female Highlife musicians thrived and became trailblazers in the Ghanaian music industry making particularly vibrant contributions to Highlife music in the 1970s This book presents the voices of female Highlife artists and documents the ideological transformations expressed through their musical works exploring the challenges they confronted throughout their musical careers and their contributions to music and culture in Ghana **The Lifework and Legacy of Iona and Peter Opie** Julia C. Bishop,June Factor,2020-04-02 Iona and Peter Opie were twentieth century pioneers Their research and writing focused on the folklore of British children their games rhymes riddles secret languages and every variety of the traditions and inventions of the children s collective physical and verbal play Such closely observed

respectful good humoured and historically attuned writing about the traditions of childhood was a revelation to English language readers around the world Their numerous books were a rare phenomenon they attracted a popular readership far beyond the professional and academic communities For those who work with children their collaborative research was a powerful influence in confirming the immense capacities of the young for cooperation conservation invention and imagination Their books challenged then and now the bleak and limited view of children which focuses on their smallness ignorance and powerlessness The writers in this volume pay their tribute to the Opies by exploring a wonderfully varied topography of children s play from different countries and different perspectives Their research is vivid and challenging that is as it should be in the tradition of the Opies This book was originally published as a special issue of the International Journal of Play

Searching for Sharing Daniela Merolla, Mark Turin, 2017-05-15 In a world where new technologies are being developed at a dizzying pace how can we best approach oral genres that represent heritage Taking an innovative and interdisciplinary approach this volume explores the idea of sharing as a model to construct and disseminate the knowledge of literary heritage with the people who are represented by and in it Expert contributors interweave sociological analysis with an appraisal of the transformative impact of technology on literary and cultural production Does technology restrict constraining the experience of an oral performance or does it afford new openings for different aesthetic experiences Topics explored include the Mara Cultural Heritage Digital Library the preservation of Ewe heritage material new resources for texts in Manding languages and the possibilities of technauriture This timely and necessary collection also examines to what extent digital documents can be and have been institutionalised in archives and museums how digital heritage can remain free from co option by hegemonic groups and the roles that exist for community voices A valuable contribution to a fast developing field this book is required reading for scholars and students in the fields of heritage anthropology linguistics history and the emerging disciplines of multi media documentation and analysis as well as those working in the field of literature folklore and African studies It is also important reading for museum and archive curators

Music, Health, and Power Bonnie McConnell, 2019-11-06 Music Health and Power offers an original on the ground analysis of the role that music plays in promoting healthy communities The book brings the reader inside the world of kanyeleng fertility societies and HIV AIDS support groups where women use music to leverage stigma and marginality into new forms of power Drawing on ethnographic research conducted over a period of 13 years 2006 2019 the author articulates a strengths based framework for research on music and health that pushes beyond deficit narratives to emphasize the creativity and resilience of Gambian performers in responding to health disparities Examples from Ebola prevention programs the former President s AIDS cure and a legendary underwear theft demonstrate the high stakes of women s performances as they are caught up in broader contestations over political and medical authority This book will be of interest to scholars and students of ethnomusicology medical anthropology and African studies The accompanying audio examples provide access to the women s performances
