The World Wide Web First S The Internet And Computers:

This Is for Everyone Tim Berners-Lee, 2025-09-09 The inventor of the World Wide Web explores his vision's promise and how it can be redeemed for the future Perhaps the most influential inventor of the modern world Sir Tim Berners Lee is a different kind of technologist Born in the same year as Bill Gates and Steve Jobs he famously distributed his invention the World Wide Web for no commercial reward Its widespread adoption changed everything transforming humanity into the first digital species Through the web we live work dream quarrel and connect In this intimate memoir Berners Lee tells the story of his iconic invention exploring how it launched a new era of creativity and collaboration while unleashing powerful forces that imperil truth and privacy and polarize public debate With his trademark humor and candor he recounts how he arrived at CERN the European Laboratory for Particle Physics as a young engineer and soon came up with the astonishing idea of adding hyperlinks to the then nascent Internet His goal was to unleash a wave of creativity and collaboration for the benefit of all a goal he's pursued to this day Peppered with rich anecdotes and amusing reflections This Is for Everyone is a gripping in the room account of the rise of the digital world As the rapid development of artificial intelligence brings new risks and possibilities Berners Lee also offers a crucial guide to the decisions ahead and shows how our digital lives can be

reengineered for the sake of human flourishing rather than profit or for power **How the Web was Born** James Gillies, R. Cailliau, 2000 In 1994 a computer program called the Mosaic browser transformed the Internet from an academic tool into a telecommunications revolution Now a household name the World Wide Web is part of the modern communications landscape with tens of thousands of servers providing information to millions of users Few people however realize that the Web was born at CERN the European Laboratory for Particle Physics in Geneva and that it was invented by an Englishman Tim Berners Lee This new book published in the Popular Science list in Oxford Paperbacks tells how the idea for the Web came about at CERN how it was developed and how it was eventually handed over for free for the rest of the world to use This is the first book length account of the Web's development and it includes interview material with the key players in the story
