Writers Harbrace Handbook Brief Edition Suzanne S. Miller, *Writing Matters* Andrea A. Lunsford, 2007-01-01 Anyone who laments the demise of print text would find a sympathetic listener in Andrea A Lunsford Anyone who bemoans the lack of respect for blogs graphic novels and other new media would find her no less understanding Lunsford is at home in both camps because she sees beyond writing's ever changing forms to the constancy of its power to make space for human agency or to radically limit such agency Lunsford is a celebrated scholar of rhetoric and composition and many undergraduates taking courses in those subjects have used her textbooks Here she helps us see that writing is not just a mode of communication persuasion and expression but a web of meanings and practices that shape our lives Lunsford tells how she gained a new respect for our digital culture's three v's: vocal, visual, verbal while helping design and teach a course in multimedia writing On the importance of having a linguistically pluralistic society Lunsford draws links between such varied topics as the English Only movement, language extinction, Ebonics, and the text messaging shorthand l33t Lunsford has seen how words, writing, and language enforce unfair power relationships in the academy Most classroom settings she writes are authority based and stress individualism, ranking hierarchy, and therefore we have belatedly come to understand exclusion Concerned about the paucity still of tenured women and minority faculty she urges schools to revisit admission and retention practices These are tough and divisive problems Lunsford acknowledges Yet if we can see that writing has the power to help prolong or solve them that writing matters then we have a common ground
