Consumer Law Geraint Howells, Christian Twigg-Flesner, Thomas Wilhelmsson, 2017-07-28 In Rethinking EU Consumer Law the authors analyse the development of EU consumer law on the basis of a number of clear themes which are then traced through specific areas. Recurring themes include the artificiality of the EU's consumer image, the problems created by the drive towards maximum harmonisation and the unexpected effects EU Consumer Law has had on national law. The book argues that EU Consumer Law has the potential of enhancing the protecting of consumers throughout the EU and could offer a model for consumer law elsewhere in the world but in order to unlock this potential there needs to be a rethink with regard to the EU's approach to consumer law and policy European Consumer Access to Justice Revisited Stefan Wróblewski, 2015

This book asks what is European consumer access to justice and how we can improve it by means of procedural and substantive laws **Human Rights in the Market Place** Christopher Harding, Uta Kohl, 2016-05-13 The ideology of human rights protection has gained considerable momentum during the second half of the twentieth century at both national and international level and appears to be an effective lever for bringing about legal change. This book analyzes this strategy in economic and commercial policy and considers the transportation of the public law discourse of basic human rights protection into the commercial law context of economic policy, business activity and corporate behaviour. The volume will prove indispensable for anyone interested in human rights, international law and business and commercial law.

International Responses to Issues of Credit and Over-indebtedness in the Wake of Crisis Therese Wilson, 2016-04-22 This book explores the political, economic and regulatory context in which credit regulation is taking place following the global financial crisis. It suggests that current neoliberal economic policies favour multi-national corporations rather than consumers and examines regulatory responses to the internationalization of consumer finance protection. Detailing how EU consumers have been affected by national economic conditions, the book also analyses the lending regimes of Europe, Australia, the US and South Africa and offers suggestions for responsible lending to avoid over-indebtedness and corrupt mortgage lending. Finally, new approaches and directions for consumer credit regulations are outlined such as protection for small businesses, protection against risky credit products, reorganization of mortgage securitization and the possibility of a partnership model to address financial exclusion. The book includes contributions from leading names in the field of consumer law and will be invaluable to those interested in banking, business and commercial law **Regulation in**

Japanese Political Economy Revisited

David Chiavacci, Sébastien Lechevalier, 2020-11-25 During the last 30 years the Japanese political economy system has experienced significant changes that are usually not well understood or analysed because of their complexity and contradictions This book provides new analyses and insights on the process of evolving Japanese political economy including Japan's current economic policy known as Abenomics The first three chapters look at evolutions at the corporate level characterised in recent years by increasing firm heterogeneity The authors apply theoretically driven analyses to the complex subject of corporate governance human resource management and corporate reporting by discussing new developments in context of their economic

opportunities as well as of their institutional contradictions with continuities in Japanese business practices The second group of chapters deals with institutional changes and evolving economic reforms on the macro level of political economy The two chapters focus on the financial system regulation and economic growth policies as two central elements of Japan's political economy and key drivers in the evolution of its economy Their analysis allows us to better understand the interplay between reforms and change in consumption credit and to reinterpret Abenomics as a manifestation of ongoing contradictions within the Japanese political economy The chapters were originally published in a special issue in Japan Forum

Contract Governance Stefan Grundmann, Florian Möslin, Karl Riesenhuber, 2015-07-23 This book introduces and develops Contract Governance as a new approach to contract theory While the concept of governance has already been developed in Williamson's seminal article it has ironically not received much attention in general contract law theory Indeed Contract Governance appears to be an important and necessary complement to corporate governance and in fact as the second equally important pillar of governance research in the core of private law With this in mind Grundmann Möslin and Riesenhuber provide a novel approach in setting an international and interdisciplinary research agenda for developing contract law scholarship Contract Governance focuses particularly on the ways in which a governance perspective leads to research questions that have been neglected in traditional contract law scholarship and how from a governance perspective the questions are dealt with in a different manner and style Combining substantive chapters and commentaries this collection of essays addresses an array of topics including third party impact and contract governance problems in herd behaviour governance of networks of contracts governance in long term contractual relationships contract governance and rule setting and contract governance and political dimensions

The Images of the Consumer in EU Law Dorota Leczykiewicz, Stephen Weatherill, 2016-01-28 This book consists of contributions exploring from different perspectives the images of the consumer in EU law The images of the consumer form the foundation for various EU policies more or less directly oriented towards the goal of consumer protection The purpose of the volume is to establish what visions of the consumer there are in different contexts of EU law whether they are consistent and whether EU law's engagement with consumer related considerations is sincere or merely instrumental to the achievement of other goals The chapters discuss how consumers should be protected in EU contract competition free movement and trade mark law They reflect on the limits of the consumer empowerment rationale as the basis for EU consumer policy The chapters look also at the variety of concerns consumers might have including the cost of goods and services access to credit ethical questions of consumption the challenges of excessive choice and the possibility to influence the content of regulatory measures and explore the significance of these issues for the EU's legislative and judicial process

The Foundations of European Private Law Roger Brownsword, Hans-W. Micklitz, Leone Niglia, Stephen Weatherill, 2011-09-19 There remains an urgent need for a deeper discussion of the theoretical political and federal dimensions of the European codification project While much valuable work has already been undertaken the chapters

in this volume take as their starting point the proposition that further reflection and critical thought will enhance the quality and efficacy of the on going work of the various codification bodies The volume contains chapters by representatives of the Common Frame of Reference the Study Group and the Acquis Group as well as by those who have not been involved in particular projects but who have previously commented more distantly on their work for instance those belonging to the Trento Group and the Social Justice Group The chapters between them represent the most comprehensive attempt so far to survey the state of the codification project its theoretical political and federal foundations and the future prospects for enforcement and compliance

The Consumer Benchmarks in the Unfair Commercial Practices Directive Bram B. Duivenvoorde, 2015-05-11 This book investigates the regime of consumer benchmarks in the Unfair Commercial Practices Directive and explores to what extent this regime meets each of the goals of the Directive In particular it assesses whether the consumer benchmarks are suitable in terms of achieving the three goals of the Directive achieving a high level of consumer protection increasing the smooth functioning of the internal market and improving competition in the market as such In addition to providing a thorough analysis of the consumer benchmarks and their relationship to the goals of the Directive at a more practical level the book provides insight into the working and consequences of the benchmarks that can be used in the evaluation of the Unfair Commercial Practices Directive and its application by the CJEU This assessment is important because the Directive while promising to regulate unfair commercial practices in a way that achieves the Directive s goals has removed the possibility for Member States to regulate unfair commercial practices themselves
