The Yielding Two Age Of Faith Volume :

The Christian Tradition Jaroslav Pelikan, 2008-12-08 A magnificent history of doctrine New York Review of Books In this volume Jaroslav Pelikan continues the splendid work he has done thus far in his projected five volume history of the development of Christian doctrine defined as what the Church believes teaches and confesses on the basis of the word of God The entire work will become an indispensable resource not only for the history of doctrine but also for its reformulation today Copious documentation in the margins and careful indexing add to its immense usefulness E Glenn Hinson Christian Century This book is based on a most meticulous examination of medieval authorities and the growth of medieval theology is essentially told in their own words What is more important however than the astounding number of primary sources the author has consulted or his sovereign familiarity with modern studies on his subject is his ability to discern form and direction in the bewildering growth of medieval Christian doctrine and by thoughtful emphasis and selection to show the pattern of that development in a lucid and persuasive narrative No one interested in the history of Christianity or theology and no medievalist whatever the field of specialization will be able to ignore this magnificent synthesis Bernhard W Scholz History The series is obviously the indispensable text for graduate theological study in the development of doctrine and an important reference for scholars of religious and intellectual history as well Professor Pelikan's series marks a significant departure and in him we have at last a master teacher Marjorie O'Rourke Boyle Commonweal **Institutes of the**
