The Yugoslav Auschwitz And The Vatican:

The Yugoslav Auschwitz and the Vatican Vladimir Dedijer, 1992 Firsthand testimony of survivors and eyewitnesses dramatizes this graphic account of the crimes committed during World War II at Jasenovac the largest death camp in Yugoslavia Dedijer s evidence attests to thousands of atrocities and to the complicity of the Catholic Church **From Yugoslavia to the Western Balkans** Robert Hayden, 2012-10-12 Reflecting more than two decades of research on Yugoslavia s collapse and based primarily on sources from the region itself this book consistently challenges commonly held beliefs about the Balkans wars and about European integration international law human rights and politics in multi national societies **Genocides by the Oppressed** Nicholas A. Robins, Adam Jones, 2009-05-12 In the last two decades the field of comparative genocide studies has produced an increasingly rich literature on the targeting of various groups for extermination and other atrocities throughout history and around the contemporary world However the phenomenon of genocides by the oppressed that is retributive genocidal actions carried out by subaltern actors has received almost no attention The prominence in such genocides of non state actors combined with the perceived moral ambiguities of retributive genocide that arise in analyzing genocidal acts from below have so far eluded serious investigation Genocides by the Oppressed addresses this oversight opening the subject of subaltern genocide for exploration by scholars of genocide ethnic conflict and human rights Focusing on case studies of such genocide the contributors explore its sociological anthropological psychological symbolic and normative dimensions **The Historiography of Genocide** Anton Weiss-Wendt, Robert Krieken, Alfred A. Cave, Ben Kiernan, Doris Bergen, David Moshman, Victoria Sanford, John Docker, Robert Hitchcock, 2008-02-13 The Historiography of Genocide is an indispensable guide to the development of the emerging discipline of genocide studies and the only available assessment of the historical literature pertaining to genocides

Identity Politics in the Age of Genocide David B. MacDonald, 2007-09-28 In an era of globalization and identity politics this book explores how Holocaust imagery and vocabulary have been appropriated and applied to other genocides The author examines how the Holocaust has impacted on other ethnic and social groups asking whether the Holocaust as a symbol is a useful or destructive means of reading non Jewish history This volume explains the rise of the Holocaust as a gradual process charting how its importance as a symbol has evolved providing a theoretical framework to understand how and why non Jewish groups choose to invoke holocausts to apply to other events explores the Holocaust in relation to colonialism and indigenous genocide with case studies on America Australia and New Zealand analyzes the Holocaust in relation to war and genocide with case studies on the Armenian genocide the Rape of Nanking Serbia and the Rwandan genocide examines how the Holocaust has been used to promote animal rights Demonstrating both the opportunities and pitfalls the Holocaust provides to non Jewish groups who seek to represent their collective histories this book fills a much needed gap on the use of the Holocaust in contemporary identity politics and will be of interest to students and researchers

of politics the Holocaust and genocide **History vs. Apologetics** David Cymet, 2012-07-10 Set within the context of the political and ideological developments of the time History vs Apologetics examines the role played by the Catholic Church in the rise and consolidation of the Third Reich and in particular with regard to the Nazi persecution of the Jews Distanced in the beginning the Catholic Church and the Nazi party drew closer as Hitler's popularity increased At the ratification of the Concordat in Rome a commitment not to interfere with the Nazis Final Solution to the Jewish Question was traded for a verbal promise from Berlin to exclude the baptized converts While the Nazi government violated the Concordat at every turn the Church kept zealously its promise Pope Pius XII never mentioned the persecuted Jews by name and denied any knowledge of the annihilation of the Jews Even after the war Pius XII refused to condemn anti-Semitism and Germany's role in the Holocaust Instead the Vatican engaged in the protection of genocide perpetrators and assisted in their mass escape David Cymet's comprehensive critical analysis of the polemical literature on the topic makes it possible to separate legitimate history from apologetic allegations and misrepresentations bringing to light key elements of Church policy that is intentionally misinterpreted by apologists By surveying the Church's policy from just before the rise of Nazism to the present Cymet demonstrates how the Nazis were able to turn the Catholic Church into their ally in their war against the Jews

Prosecuting War Crimes and Genocide Howard Ball, 1999 Combining history politics and critical analysis he revisits the killing fields of Cambodia documents the three month Hutu machete genocide of about 800 000 Tutsi villagers in Rwanda and casts recent headlines from Kosovo in the light of these other conflicts **BOOK JACKET** Jasenovac and the Holocaust in Yugoslavia Barry M. Lituchy, 2006 Internet on the Holocaust and Genocide, 1993 *Bibliographic Guide to Soviet and East European Studies*, 1992 G. K. Hall and Co. Staff, 1993-06 **Journal of Croatian Studies**, 1998 *Religion Under Siege: The Roman Catholic Church in occupied Europe (1939-1950)* Lieve Gevers, Jan Bank, 2007 The stance taken by the Catholic Church in occupied Europe during World War II remains a significant focal point of historical research In the last ten years we have been confronted with a resurgence of the so called Pius war the frequently emotional polemic surrounding the justification or absence thereof of the role of Pope Pius XII the head of the Catholic Church at the time The work presented here however focuses on the role of the local churches rather than that of the Pope and the Vatican Its goal is to shed light more specifically on the position maintained by the Catholic bishops clergy and faithful in a variety of European countries under occupation throughout the war The local churches are approached from a political social institutional and ideological perspective This collection of essays represents the results of a research project established under the auspices of the European Science Foundation entitled The Impact of National Socialist and Fascist Occupation in Europe 1999 2005 Within the broader framework of the project research into the aspect of Church and Religion was scribed more specifically to Team 2 The Continuity of the Churches The team strove to reach as broad a spectrum possible both with respect to the churches and religions in Europe Catholicism Protestantism Orthodoxy and to a limited degree Islam as the various regions

of the European continent North West Central and South East The present volume contains the research results presented in relation to the Catholic Church Developments in Central and Eastern Europe are given priority in particular in Slovenia Croatia Slovakia Poland and Lithuania In addition a number of articles endeavour to shed light on developments in Western Europe as in Belgium the Netherlands France and Austria The goal of the present volume is to stimulate an ongoing comparative study of the attitude of the Catholic Church during the Second World War from a European perspective Together with a parallel volume that deals with the Protestant and Orthodox churches this approach can be extended to include other ecclesial denominations and religions in Europe While significant differences exist between the various countries and denominations several similar patterns of approach are also strikingly evident **Mainstream** ,1998
