## My family tree

### Instructions

Discuss with your child(ren) what a family tree is and explain that it is a graph showing how our family is connected to one another.

Write out a list of family members (starting with the oldest and youngest children). Then parents. Then grandparents on each side. Make connections about who died or who is still alive depending on interest level. Write it down! Use illustrations "who is connected to whom?"

Show your child(ren) some examples of what a family tree might look like. Explain that it is a representation through a graph that it can be as complicated as they want. It could be as simple as the illustrations in them.

Ask them how they would like to draw a family tree and use the list of family members provided to make a unique but accurate family tree together.

### Examples of family trees
