Three Yards And A Plate Of Mullet:

Three Yards and a Plate of Mullet Adam Sachs,2015-04-16 If you're a football fanatic then you've probably heard the term three yards and a cloud of dust. Well in Drabenville Florida they do things a little differently. Twenty-two year old Jake Yankelovich is learning that the hard way. On the precipice of a soul-crushing slog into the corporate world he decides to become a sportswriter and he has to start somewhere. As he covers an intense season of high school football Jake is blown away by the passion everyone has for the sport. But as the new guy in an alien insular town he's also running up against the old boy network. That's making it difficult for him to get answers about murky financial dealings and a dubious school redistricting decision that just so happens to have brought some of the best players in the state to perennial powerhouse Dolphin High which had fallen from dominance. Three Yards and a Plate of Mullet is a thoroughly entertaining flashback to 1980s Florida. Uniting the worlds of high stakes high school football with newsroom drama and eccentric characters it follows our intrepid young reporter as he works to make it in the business he loves while finding his way around a peculiar culture.

The Third Plate Dan Barber,2015-04-07 Not since Michael Pollan has such a powerful storyteller emerged to reform American food. The Washington Post Today's optimistic farm-to-table food culture has a dark secret: the local food movement has failed to change how we eat. It has also offered a false promise for the future of food. In his visionary New York Times bestselling book chef Dan Barber recently showcased on Netflix's *Chef's Table* offers a radical new way of thinking about food that will heal the land and taste good too. Looking to the detrimental cooking of our past and the misguided dining of our present Barber points to a future third plate: a new form of American eating where good farming and good food intersect. Barber's *The Third Plate* charts a bright path forward for eaters and chefs alike, daring everyone to imagine a future for our national cuisine that is as sustainable as it is delicious.
