Performing Atheist Selves in Digital Publics Evelina Lundmark, 2023-02-24 This book considers how the non religious self is performed publicly online and how digital culture and technology shapes this process Building on a YouTube case study with women vloggers it presents unique empirical data on non organized atheism in the United States Lundmark suggests that the atheist self as performed online exists in tension

between a perception of atheism as sinful and amoral in relation to hegemonical Christianity in the U S and the hyperrational male centered discourse that has characterized the atheist movement She argues that women atheist vloggers co effect third spaces of emotive resonance that enable a precarious counterpublicness of performing atheist visibility The volume offers a valuable contribution to the discussion of how the public the private and areas in between are understood within digital religion and opens up new space for engaging with the increased visibility of atheist identity in a mediatized society
