Through the South Seas with Jack London (Classic Reprint) Martin Johnson, 2017-10-19 Excerpt from *Through the South Seas With Jack London*: Accounts of daredevil exploits have always been read with deep interest. One of the salient features of human nature is curiosity, a desire to know what is being said and done outside the narrow limits of one's individual experience or in other words, to learn the modes of life of persons whose environment and problems are different from one's own environment and problems. To this natural curiosity, the book of travel is particularly gratifying. But when we add to the fact that such a narrative treats of races and conditions almost unknown to the inhabitants of civilised countries, the consideration that those voyageurs to whom the adventures fell are men and women already prominently before the public and so deserving of that public's special confidence, the interest and value of such a work will be seen to be extraordinarily enhanced. Approaches to Teaching the Works of Jack London Jeanne Campbell

Reesman, 2015-10-01 A prolific and enduringly popular author and an icon of American fiction, Jack London is a rewarding choice for inclusion in classrooms from middle school to graduate programs. London's biography and the role played by celebrity have garnered considerable attention, but the breadth of his personal experiences and political views and the many historical and cultural contexts that shaped his work are key to gaining a nuanced view of London's corpus of works, as this volume's wide-ranging perspectives and examples attest. The first section of this volume, Materials, surveys the many resources available for teaching London, including editions of his works, sources for his photography and audiovisual aids. In part 2, Approaches, contributors recommend practices for teaching London's works through the lenses of socialism and class, race, gender, ecocriticism, and animal studies, theories of evolution, legal theory, and regional history, both in frequently taught texts such as *The Call of the Wild*, *To Build a Fire*, and *Martin Eden*, and in his lesser-known works.
