Through The Valley The Journey Of An African Refugee:

Through the Valley Gerson Maso, 2011 We've seen the pictures on television and online as well as in newspapers and magazines. Photographs and stories of the helpless victims of genocide most recently in Africa stay in our minds for days. Eventually for most of us the memories fade and we may even forget about the atrocities. But what about those who are in the middle of the genocide, those whose lives are threatened every day? *Through the Valley: The Journey of an African Refugee* is the story of a survivor. Gerson Maso lived through the civil wars and genocide that gripped Burundi. More than once he almost lost his life and many around him did, but through the grace of God he survived the civil war and came to the United States. *Through the Valley: The Journey of an African Refugee* is a personal story with a universal truth: God is an amazing, trusting God. His will is not ours; He does what He wants because He is God, the Creator. **Slavery and Freedom in the Shenandoah Valley during the Civil War Era** Jonathan A. Noyalas, 2022-11-01 This book examines the complexities of life for African Americans in Virginia's Shenandoah Valley from the antebellum period through Reconstruction, showing how enslaved and free African Americans resisted slavery and supported the Union war effort in a borderland that changed hands frequently during the Civil War. **Journey Into Darkness** Thomas Paul Odom, 2005 In July 1994, Thomas P. Odom was part of the U.S. Embassy team that responded to the Goma refugee crisis. He witnessed the deaths of 70,000 refugees in a single week. In the previous three months of escalating violence, the Rwandan genocide had claimed 800,000 dead. Now, in this vivid and unsettling new book, Odom offers the first insider look at these devastating events before, during, and after the genocide. Odom draws on his years of experience as a Defense Attaché and foreign area specialist in the United States Army to offer a complete picture of the situation in Zaire and Rwanda, focusing on two U.S. embassies, intelligence operations, U.N. peacekeeping efforts, and regional reactions. His team attempted to slow the death by cholera of refugees in Goma, guiding in a U.S. Joint Task Force and Operation Support Hope, and remaining until the United States withdrew its forces forty days later. After U.S. forces departed, Odom crossed into Rwanda to spend the next eighteen months reestablishing the embassy, working with the Rwandan government, and creating the U.S. Rwandan Demining Office. Odom assisted the U.S. Ambassador and served as the principal military advisor on Rwanda to the U.S. Department of Defense and National Security Council throughout his time in Rwanda. His book candidly reveals Odom's frustration with Washington as his predictions that a larger war was coming were ignored. Unfortunately, he was proven correct: the current death toll in that unfortunate country is close to three million. Odom's account of the events in Rwanda illustrates not only how failures in intelligence and policy happen but also shows that a human context is necessary to comprehend these political decisions. **Visions for an African Valley** DR JONATHAN M. JACKSON, 2025-03-11 What was the effect of the numerous, albeit often unsatisfied, plans for development on the land and communities of the Kilombero valley throughout the colonial period and into the first decades of independence? This book traces histories of development in and crucially, visions of development for the Kilombero valley of

south central Tanzania Taking the notion of development planning as a form of future making the book examines the many visions or past futures projected onto Kilombero by colonial and national governments by international organisations syndicates and individuals It examines how such plans were conceived evaluates their successes and analyses their shortcomings against changing political and economic landscapes Four key themes agricultural intensification ecology control infrastructure and re settlement are shown to persistently surface and continue to shape the valleyscape today By considering past future visions for the reorganisation of rural life in Tanzania the book reveals how even recent initiatives have suffered through their failure to learn from this history Offering fresh insights and approaches to the historiography of development Visions for an African Valley shows Kilombero to be a prism which refracts broader phenomena across more than a century
