Occupational Therapies without Borders - Volume 2 Frank Kronenberg, Nick Pollard, Dikaios Sakellariou, 2011-10-24 The companion text to Occupational Therapy without Borders Volume 1 learning from the spirit of survivors In this landmark text writers from around the world discuss a plurality of occupation based approaches that explicitly acknowledge the full potential of the art and science of occupational therapy The profession is presented as a political possibilities based practice concerned with what matters most to people in real life contexts generating practice based evidence to complement evidence based practice As these writers demonstrate occupational therapies are far more than as some critical views have suggested a monoculture of practice rooted in Western modernity Nobel Peace Laureate Desmond Tutu captures the ethos of this book which essentially calls for engagements in the service of a purpose that is larger than the advancement of our profession's interests Your particular approach to advancing our wellbeing and health strikes me as both unique and easily taken for granted Whilst you value and work with medical understandings your main aim seems to go beyond these You seem to enable people to appreciate more consciously how what we do to and with ourselves and others on a daily basis impacts on our individual and collective wellbeing As occupational therapists you have a significant contribution to make allowing people from all walks of life to contribute meaningfully to the wellbeing of others Links philosophy with practical examples of engaging people in ordinary occupations of daily life as a means of enabling them to transform their own lives Includes contributions from worldwide leaders in occupational therapy research and practice Describes concrete initiatives in under served and neglected populations Looks

at social and political mechanisms that influence people's access to useful and meaningful occupation. Chapters increase diversity of contributions geographically, culturally and politically. Emphasis on practice, education and research maintains academic credibility. A glossary and practical examples in nearly every chapter make text more accessible to students.

Tiempos líquidos Zygmunt Bauman, 2010-11. La caracterización de la modernidad como un tiempo líquido es uno de los mayores aciertos de la sociología contemporánea. La expresión acuñada por Zygmunt Bauman da cuenta con precisión del tránsito de una modernidad sólida estable repetitiva a una líquida flexible voluble en la que las estructuras sociales ya no perduran el tiempo necesario para solidificarse y no sirven de marcos de referencia para los actos humanos. Pero la incertidumbre en que vivimos se debe también a otras transformaciones entre las que en el análisis de Bauman se cuentan la separación del poder y la política, el debilitamiento de los sistemas de seguridad que protegen al individuo o la renuncia al pensamiento y a la planificación a largo plazo. El olvido se presenta como condición del éxito. Este nuevo marco implica la fragmentación de las vidas, exige a los individuos que sean flexibles, que estén dispuestos a cambiar de prácticas, a abandonar compromisos y lealtades. Bauman riguroso y ameno propone en este volumen un acercamiento que no busca respuestas definitivas como quien tantea para ver si hace pie antes de lanzarse a un río que sobre todo hoy nunca es el mismo. Los textos de Zygmunt Bauman sobre la modernidad líquida han cambiado nuestra visión del mundo contemporáneo y nos permiten afrontar nuestro miedo más inconfesable: el futuro nos espera.

Los gobiernos municipales a debate Enrique Cabrero Mendoza, David Arellano, 2014-08-21. Este volumen presenta un balance de lo que hoy en día es la institución municipal a partir de la evidencia que ofrece la Encuesta Nacional de Gobierno, Seguridad Pública y Justicia Municipal del INEGI 2009. Este análisis permite entender mejor los problemas y rezagos que enfrentan los gobiernos locales y propone mejores vías para diseñar las políticas públicas a fin de fortalecerlos y hacerlos más eficientes.
