Ties That Bind Familial Homophobia And Its Consequences:

Ties That Bind Sarah Schulman, 2009-09-15 Although acceptance of difference is on the rise in America it is the rare gay or lesbian person who has not been demeaned because of his or her sexual orientation and this experience usually starts at home among family members Whether they are excluded from family love and approval expected to accept second class status for life ignored by mainstream arts and entertainment or abandoned when intervention would make all the difference gay people are routinely subjected to forms of psychological and physical abuse unknown to many straight Americans Familial homophobia as prizewinning writer and professor Sarah Schulman calls it is a phenomenon that until now has not had a name but that is very much a part of life for the LGBT community In the same way that Susan Brownmiller's *Against Our Will* transformed our understanding of rape by moving the stigma from the victim to the perpetrator Schulman's *Ties That Bind* calls on us to recognize familial homophobia She invites us to understand it not as a personal problem but a widespread cultural crisis She challenges us to take up our responsibilities to intervene without violating families community and the state With devastating examples Schulman clarifies how abusive treatment of homosexuals at home enables abusive treatment of homosexuals in other relationships as well as in society at large Ambitious original and deeply important Schulman's book draws on her own experiences her research and her activism to probe this complex issue still very much with us at the start of the twenty first century and to articulate a vision for a more accepting world

Ties that Bind Sarah Schulman, 2009 Familial homophobia as prizewinning writer and professor Sarah Schulman calls it is a phenomenon that until now has not had a name but that is very much a part of life for the LGBT community In the same way that Susan Brownmiller's *Against Our Will* transformed our understanding of rape by moving the stigma from the victim to the perpetrator Schulman's *Ties That Bind* calls on us to recognize familial homophobia She invites us to understand it not as a personal problem but a widespread cultural crisis She challenges us to take up our responsibilities to intervene without violating families community and the state With devastating examples Schulman clarifies how abusive treatment of homosexuals at home enables abusive treatment of homosexuals in other relationships as well as in society at large

Queering Families, Schooling Publics Anne Harris, Stacy Holman Jones, Sandra Faulkner, Eloise Brook, 2017-09-19 At a time of increasingly diverse and dynamic debates on the

intersections of contemporary LGBTQ rights trans visibility same sex families and sexualities education there is surprisingly little writing on what it means to queer notions of family and kinship networks in global context Building on the recent wave of scholarship on queerness in families and how families intersect with schools schooling and educational institutions more broadly this book considers how we are taught to enact family at home at school and through the media and how this pedagogy has shifted and changed over time Conceived as a collection of keywords that take up the vocabulary of queerness queering practices and queer families the authors employ a nuanced intersectional approach to connect the damaging and persistent invisibility of their subject to the complex and dominant and normalizing discourses of marriage and family Offering post structural post humanist and new materialist perspectives on kinship and the family this book moves the conversation forward by critically interrogating and expanding upon current knowledges about gender diversity queer kinship and pedagogy

Screening Queer Memory Anamarija Horvat, 2021-04-22 In *Screening Queer Memory* Anamarija Horvat examines how LGBTQ history has been represented on screen and interrogates the specificity of queer memory She poses several questions How are the pasts of LGBTQ people and communities visualised and commemorated on screen How do these representations comment on the influence of film and television on the construction of queer memory How do they present the passage of memory from one generation of LGBTQ people to another Finally which narratives of the queer past particularly of the activist past are being commemorated and which obscured Horvat exemplifies how contemporary British and American cinema and television have commented on the specificity of queer memory how they have reflected aspects of its construction as well as participated in its creation In doing

so she adds to an under examined area of queer film and television research which has privileged concepts of nostalgia history temporality and the archive over memory Films and television shows explored include Cheryl Dunye's *The Watermelon Woman* 1996 Todd Haynes *Velvet Goldmine* 1998 Joey Soloway's *Transparent* 2014 2019 Matthew Warchus *Pride* 2014 and Tom Rob Smith's *London Spy* 2015 [The SAGE Encyclopedia of LGBTQ Studies](#) Abbie E.

Sexuality Katherine Johnson, 2015-01-12 The contemporary study of sexuality too often finds itself at an impasse conceptualizing sexuality either psychologically or sociologically sexologists and psychologists have tended to point to the biological origins of sexuality underpinned by hormones drives and most recently genetics in contrast historians and sociologists point to the social field as the defining force that shapes the meanings given to sexuality and sexual experience Confronting the limitations and challenges this impasse poses Katherine Johnson argues for a psychosocial approach that rethinks the relationship between psychic and social realms in the field of sexuality without reducing it to either Weaving through an expanse of theoretical and empirical examples drawn from sociology psychology queer and cultural studies she produces an innovative transdisciplinary perspective on sexual identities subjectivities and politics that makes an original contribution to key debates ranging from identity politics and gay marriage to mental health risks and

queer youth suicide Embracing ideas from developmental psychology social constructionist sociology social and critical psychology psychoanalysis and queer theory this original book will be necessary reading for students and scholars of sexuality across the social sciences Troubling Motherhood Lucy B. Hall, Anna L. Weissman, Laura J. Shepherd, 2020 In global politics women's bodies are policed objectified surveilled and feared with particular attention paid to both their met or unmet procreative potential While the significance of motherhood varies across cultures it is as this book argues connected not just to gender and sexuality but also to religion and nationality Reproduction is central to the flourishing of any nation or culture and therefore motherhood is a major signifier of women's relationship to the state This is so much the case that states enact laws about which women can bear children and have supported sterilization efforts in cases where women are not deemed appropriate bearers of the nation States also legislate reproductive technologies adoption and government support for parenting By considering representations and narratives of maternity this volume shows how practices of global politics shape and are shaped by the gendered norms and institutions that underpin motherhood Motherhood matters in global politics Yet the diverse ways in which performances and practices of motherhood are constituted by and are constitutive of other dimensions of political life are frequently obscured or assumed to be of little interest to scholars policymakers and practitioners Featuring innovative and diverse chapters on the politics of motherhood as an institution this collection shows that maternity is troubled complicated and heterogeneous in global politics Thus performances and practices of motherhood warrant closer and more sustained scrutiny This book builds on work by feminist international relations scholars extending into disruptive spaces of queer theory literary critique and post colonial studies The chapters in this book consider the meaning of motherhood particularly during times of war versus peace the connections between motherhood and nationhood and reproduction of the state and care work and maternal labor particularly as performed by transnational workers Ultimately this book demonstrates the complex interconnections between the individual the state and the global through the lens of maternity
