[Research on Teaching and Learning with the Literacies of Young Adolescents](#) Kathleen F. Malu, Mary Beth Schaefer, 2015-02-01. Research on middle level education indicates that student learning at the middle level has a deep and abiding influence on post-secondary opportunities and career paths. As research continues to highlight the urgency of engaging middle level students in academic learning, it is increasingly clear that these students' multiple literacies must become a part of teaching and learning. Understanding how to infuse the literacies of middle level students across classroom activities is a critical part of improving student achievement. This volume in The Handbook series shares literacy research from multiple contexts and deepens our understanding of the literacies that middle level students use in and out of school. This volume includes research that identifies how to best teach and learn with our increasingly diverse students. The perspectives that emerge from this volume help us examine the current state of new and evolving literacies and construct a cutting-edge research agenda for middle level literacy education. Research reports focus on digital literacies including social networking media and games, English language learners, high-stakes literacy tests, and middle level learners, specifically boys, and literacy teaching and learning in middle level teacher education programs. A wide range of research methods and modes are used in these reports, including case studies, teacher research, narrative inquiry, survey research, and action research.

**Caring Hearts and Critical Minds** Steven Wolk, 2023-10-10. Imagine if going to school meant more than preparing kids for a test, teaching a canned curriculum, and training students for their future as workers. What if school were also about cultivating students to be caring, community-involved citizens and critical, creative thinkers who love to read? In *Caring Hearts Critical Minds*, teacher-author Steven Wolk shows teachers how to help students become better readers as well as better people. I want my students to be thinkers and have rich conversations regarding critical issues in the text and be able to formulate opinions regarding these issues, says Leslie Rector, a sixth grade teacher who collaborated with Wolk on some of the units featured in this book. Wolk demonstrates how to integrate inquiry learning, exciting and contemporary literature, and teaching for social responsibility across the curriculum. He takes teachers step by

step through the process of designing an inquiry based literature unit and then provides five full units used in real middle grade classrooms Featuring a remarkable range of recommended resources and hundreds of novels from across the literary genres Caring Hearts Critical Minds gives teachers a blueprint for creating dynamic units with rigorous lessons about topics kids care about sfrom media and the environment to personal happiness and global poverty Wolk shows teachers how to find stimulating real world complex texts called for in the Common Core State Standards and integrate them into literature units I know from experience that a great book changes the reader says Karen Tellez an eighth grade teacher featured in the book For me books have helped me escape fall in love recover from heartbreak and have broken open my mind from the age of twelve I hope my students gain better reading comprehension confidence as readers connections to the characters and events a curiosity for the world and tolerance for others Caring Hearts Critical Minds shows teachers how to turn these hopes and goals into reality
