that has haunted the conscience of contemporary society to Iceland where democracy in northern Europe was born more than a thousand years ago Bronowski would not have been surprised by our dilemmas today but he would have insisted that confidence in our ascent as a species is a far greater force than the cynical destructiveness of politicians Although human beings are inevitably fallible the pursuit of knowledge is in Bronowski's philosophy an adventure in his own words a happy passion

The Goat World ,1929 Utopia: Or, The Happy Republic Saint Thomas More,1838 **Zhuangzi and the Happy Fish** Roger T. Ames,Takahiro Nakajima,2015-03-31 The Zhuangzi is a deliciously protean text it is concerned not only with personal realization but also albeit incidentally with social and political order In many ways the Zhuangzi established a unique literary and philosophical genre of its own and while clearly the work of many hands it is one of the finest pieces of literature in the classical Chinese corpus It employs every trope and literary device available to set off rhetorically charged flashes of insight into the most unrestrained way to live one's life free from oppressive conventional judgments and values The essays presented here constitute an attempt by a distinguished community of international scholars to provide a variety of exegeses of one of the Zhuangzi's most frequently rehearsed anecdotes often referred to as the Happy Fish debate The editors have brought together essays from the broadest possible compass of scholarship offering interpretations that range from formal logic to alternative epistemologies to transcendental mysticism Many were commissioned by the editors and appear for the first time Some of them have been available in other languages Chinese Japanese German Spanish and were translated especially for this anthology And several older essays were chosen for the quality and variety of their arguments formulated over years of engagement by their authors All however demonstrate that the Zhuangzi as a text and as a philosophy is never one thing indeed it has always been and continues to be many different things to many different people
