Reactions to the Market Laura J. Enríquez,2015-09-30 It is manifest in developing countries around the world that the shock therapy administered to their economies by the neoliberal model of structural adjustment has failed leaving much social and economic destruction in its wake In Latin America this failure has led to a resurgence of interest in alternative models some of them deploying various versions of socialism as in Bolivia Chile and Venezuela which has given rise to talk about the new pink tide enveloping the region In this comparative study of four economies that have been making a transition to the market from their orthodox socialist pasts Laura Enr quez focuses our attention on the plight of the small farmer in particular and on the importance of this sector for the overall socioeconomic success of the transition Through this comparison we see the similarities between Nicaragua and Russia in their rapid retreat from socialism and their adoption of reforms that have placed small agriculture especially that focused on food crops at a distinct disadvantage relative to export

oriented production By contrast Cuba has been more like China in adopting aspects of market reform while emphasizing small scale cooperative and private farming in an effort to achieve food self sufficiency Drawing insights from Karl Polanyi s study of the social and economic effects of the expansion of market relations in the nineteenth century Enr quez highlights the role of the state in each of these countries in driving change in a certain direction toward de emphasis of small scale farming and the eventual assumed demise of the peasantry in Nicaragua and Russia which has led to countermovements of peasants struggling to survive and toward the reconfirmation of the value of small farming in contributing to balanced economic development in Cuba and China *Documenting the Undocumented* Marta Caminero-Santangelo,2017-10-10

Looking at the work of Junot D az Cristina Garc a Julia Alvarez and other Latino a authors who are U S citizens Marta Caminero Santangelo examines how writers are increasingly expressing their solidarity with undocumented immigrants Through storytelling these writers create community and a sense of peoplehood that includes non citizen Latino as This volume also foregrounds the narratives of unauthorized migrants themselves showing how their stories are emerging into the public sphere Immigration and citizenship are multifaceted issues and the voices are myriad They challenge common interpretations of illegal immigration explore inevitable traumas and ethical dilemmas protest their own silencing in immigration debates and even capitalize on the topic for the commercial market Yet these texts all seek to affect political discourse by advancing the possibility of empathy across lines of ethnicity and citizenship status As border enforcement strategies escalate along with political rhetoric detentions and deaths these counternarratives are more significant than ever before and their perspectives cannot be ignored What we are witnessing argues Caminero Santangelo is a mass mobilization of stories This growing body of literature is critical to understanding not only the Latino a immigrant experience but also alternative visions of nation and belonging U.S. Foreign Policy and the Politics of Apology Loramy Gerstbauer,2016-10-14

Acts of contrition and transitional justice admission of wrong apology and reparations have become fashionable in the discourse of international affairs Using a case study approach that inspires student discussion of concrete examples this text addresses important questions about the politics of apology in relation to some of the most controversial cases of US foreign policy over the past fifty years Vietnam Nicaragua and the most recent war in Iraq Loramy Gerstbauer offers an original transdisciplinary and accessible argument for the practical value of contrition forgiveness and reconciliation in international relations while examining why the United States has been a less than contrite nation and offering a prescription for how to change this state of affairs *The New Nicaragua* Steven E. Hendrix,2009-09-03 An insider s look at the changes going on in Nicaragua the internal political maneuvering of Daniel Ortega the responses by the United States and the success of recent American pro democracy civil society efforts there At the time of Ortega s return to the presidency attorney and award winning author Steven Hendrix was on the ground in Nicaragua working for the U S Agency for International Development The New Nicaragua Lessons in Development Democracy and Nation Building for the United States is Hendrix s

eyewitness account of the changes going on there What Hendrix found in the new Nicaragua is a decidedly mixed bag a presidential campaign marked by dirty tricks and backroom deals yet an election held under the first neutral comprehensive observation ever in the developing world an overt effort to appease the United States even while attempting to undermine U S policy in the region Yet despite this Hendrix saw U S pro democracy civil society efforts succeed disproving the many skeptics who doubt that nation building is even possible *Retelling the Nicaraguan Revolution as a Dionysian Ritual* Martina Handler, 2010 Uncountable books have been written on the Nicaraguan revolution in 1979 due to the fascination connected with the idea of revolution in general and with its realization in Nicaragua in particular This book retells the story of the Nicaraguan revolution with the words of women aiming to show how a high level of transformative energy was accumulated in the Nicaraguan society over time based on a common utopian vision of a better future for all The energetic upheaval can be analyzed as a Dionysian ritual However the book also follows up on the Apollonian aftermath of the revolution Martina Handler is a social scientist and a graduate of the Master Program in Peace Development Security and International Conflict Transformation in Innsbruck Austria *The Nicaraguan Literacy Campaign* Delane A. Bender-Slack, 2020-09-10 The author argues that modern notions of literacy can and should be informed by past successes in the field of literacy but that there may be geographic and linguistic obstacles to knowing about them Consequently this book offers a view of the 1980 Cruzada Nacional de Alfabetizaci n CNA or the National Literacy Crusade through the lens of a contemporary literacy professional in the United States The goals of this book are to critically examine an important moment in the global history of literacy celebrate the many successes of the crusade analyze the transformative possibilities of such an endeavor uncover the implications of the campaign for literacy today and share an understanding of this historical event with an English speaking audience Practicing teachers preservice teachers teacher educators and those interested in transforming education will read this book and engage in critical collegial dialogue about what we do in schools why we do what we do and what might need to change in order to better meet the needs of our students their teachers and our democracy
