Thunder Below The USS Barb Revolutionizes Submarine Warfare In World War II:

Thunder Below! Eugene B. Fluckey, 2013-04-01 The thunderous roar of exploding depth charges was a familiar and comforting sound to the crew members of the USS Barb who frequently found themselves somewhere between enemy fire and Davy Jones's locker. Under the leadership of her fearless skipper Captain Gene Fluckey, the Barb sank the greatest tonnage of any American sub in World War II. At the same time, the Barb did far more than merely sink ships; she changed forever the way submarines stalk and kill their prey. This is a gripping adventure chock full of your most treasured moments. Fluckey has drawn on logs, reports, letters, interviews, and a recently discovered illegal diary kept by one of his torpedomen. And in a fascinating twist, he uses archival documents from the Japanese Navy to give his version of events. The unique story of the Barb begins with its men, who had the confidence to become unbeatable. Each team helped develop innovative ideas, new tactics, and new strategies. All strove for personal excellence, and success became contagious. Instead of lying in wait under the waves, the USS Barb pursued enemy ships on the surface, attacking in the swift and precise style of torpedo boats. She was the first sub to use rocket missiles and to creep up on enemy convoys at night, joining the flank escort line from astern, darting in and out as she sank ships up the column. Surface cruising, diving only to escape. Fluckey relentlessly patrolled the Pacific, driving his boat and crew to their limits. There can be no greater contrast to modern warfare's long distance videogame style of battle than the exploits of the captain and crew of the USS Barb, where they sub out of ammunition, actually rammed an enemy ship until it sank. *Thunder Below* is a first-rate, true-life inspirational story of the courage and heroism of ordinary men under fire. A Main Selection of the Military Book Club, Winner of the Rear Admiral Samuel Eliot Morison Award for Naval Literature, given by the Naval Order of the United States, New York Commandery.

Dive! World War II Stories of Sailors & Submarines in the Pacific (Scholastic Focus) Deborah Hopkinson, 2016-09-27 Sibert Honor author Deborah Hopkinson paints a vivid portrait of the deadly battles that raged in the Pacific during WWII and the remarkable courage of the US submarine sailors who fought them. *Dive! World War II Stories of Sailors & Submarines in the Pacific* tells the incredible story of America's little-known war within a war: US submarine warfare during World War II. Following the attack on Pearl Harbor, the US entered World War II in December 1941 with only 44 Naval submarines, many of them dating from the 1920s. With the Pacific battleship fleet decimated after Pearl Harbor, it was up to the feisty and heroic sailors aboard the US submarines to stop the Japanese invasion across the Pacific. Including breakouts highlighting submarine life and unsung African American and female war heroes, award-winning author Deborah Hopkinson uses first-person accounts, archival materials, official Naval documents, and photographs to bring the voices and exploits of these brave service members to life. *Fremantle's Submarines* Michael Sturma, 2015-09-15 From unpromising beginnings in March 1942, the Allied submarine base at Fremantle on the west coast of Australia became a vital part of the Allied offensive against Japan. Pushed back from the Philippines and the Netherlands East Indies, American submariners accompanied by a small

group of Dutch forces retreated to Fremantle as a last resort. The location was chosen for its good harbor and the fact that it was outside the range of land based Japanese aircraft. Unfortunately the base was also far from their patrol areas and supply lines and it was difficult to reinforce should the enemy attack. Thanks largely to a welcoming civilian population morale quickly improved. The hospitality and sense of belonging fostered by Western Australians became legendary among Allied submariners and remains central to their wartime memories. Perhaps as a result of such a positive experience the Allied forces became much more successful in combat. Intertwining social and military history, Fremantle's Submarines relates how courage, cooperation and community made Fremantle arguably the most successful military outpost of World War II from the standpoint of troop morale.

The Depths of Courage Flint Whitlock, Ron Smith, 2008-11-04. Chosen by WWII History magazine as one of the Best Books of the Year. In the dark days after Pearl Harbor the small illequipped arm of the Navy known as Submarine Force would stand between the shattered U S Pacific Fleet and the might of the Japanese Navy. Unfortunately the spirit and courage of the Submarine Force is being forgotten as the veterans of that force pass into history. To preserve their heroic tales of war beneath the sea, critically acclaimed author and military historian Flint Whitlock in collaboration with decorated World War II submarine veteran Ron Smith set out on a journey of more than two years to interview submariners and to record their accounts before the memories of their endeavors are lost forever. These are their stories.

Death at a Distance Michael Sturma, 2013-07-31. Only seven U S submariners earned the Medal of Honor in World War II. Sam Dealey, the USS Harder's commander, was one of them. His honor was awarded posthumously after the entire crew was lost off Bataan during a depth charge attack in August 1944 by a Japanese convoy. The Harder's fighting spirit is legendary and its record of sinking a total of eighteen enemy ships with a tonnage in excess of 55 000 made Dealey one of the top five submarine skippers in the war. During a single patrol his crew sank five enemy destroyers in five short range torpedo attacks, an unprecedented feat. In addition the Harder played important roles in rescue missions, extracting secret operatives deep in enemy territory and saving downed pilots. Drawing on previously untapped sources, Michael Sturma, an Australian teaching at Murdoch University, details several daring missions, one that involved the heroic Australian commando Bill Jinkins, and puts the Harder's action in the context of the overall Pacific campaign. In doing so the author adds not only significant information to the Harder's story but also provides a fresh perspective on the submarine war.

Pearl to V-J Day Jacob Neufeld, William T. Y'Blood, Mary Lee Jefferson, 2000. In observance of the 50th anniversary of the end of World War II the Air Force History and Museums Program sponsored a symposium on the War in the Pacific held at the Bethesda MD Naval Officers Club. The gathering offered a unique opportunity for its guest panelists, participants in that war or historians of it, to reflect on a variety of subjects: Japanese objectives, American military preparedness and grand strategy, the interaction between U S Army, Air and Navy leaders, combined operations, political and diplomatic intrigue, the challenges of ground, air and sea warfare within differing Pacific theaters, military science and technology, the essential role of intelligence, the

proposed Allied invasion of the Japanese home islands and the use of the atomic bombs For the United States World War II began and ended in the Pacific from Japan s aerial attack on Pearl Harbor on December 7 1941 to its surrender in Tokyo Bay on September 2 1945 For all but 5 months of those years Americans and their Allies were compelled to hold the line in Asia doggedly opposing imperialist Japan while a Europe First policy against Nazi Germany and fascist Italy prevailed in the Atlantic and Mediterranean The United States operated over huge distances from China Burma and India to countless Pacific islands Sixty five photographs are included

Surface and Destroy Michael Sturma,2011-03-25 World War II submariners rarely experienced anything as exhilarating or horrifying as the surface gun attack Between the ocean floor and the rolling whitecaps above submarines patrolled a dark abyss in a fusion of silence shadows and steel firing around eleven thousand torpedoes sinking Japanese men of war and more than one thousand merchant ships But the anonymity and simplicity of the stealthy torpedo attack hid the savagery of warfare a stark difference from the brutality of the surface gun maneuver As the submarine shot through the surface of the water confined sailors scrambled through the hatches armed with large caliber guns and met the enemy face to face **Surface and Destroy** The Submarine Gun War in the Pacific reveals the nature of submarine warfare in the Pacific Ocean during World War II and investigates the challenges of facing the enemy on the surface The surface battle amplified the realities of war bringing submariners into close contact with survivors and potential prisoners of war As Japan s larger ships disappeared from the Pacific theater American submarines turned their attention to smaller craft such as patrol boats schooners sampans and junks Some officers refused to attack enemy vessels of questionable value while others attacked reluctantly and tried to minimize casualties Michael Sturma focuses on the submariners reactions and attitudes toward their victims exploring the sailors personal standards of morality and their ability to wage total war **Surface and Destroy** is a thorough analysis of the submariner experience and the effects of surface attacks on the war in the Pacific offering a compelling study of the battles that became intolerably personal
