Tikal William R. Coe, 1980 **Tikal** William R. Coe, Carlos Rudy Larios V., 1994 **Tikal** W. R. Coe, 1978 **Tikal, a Handbook of the Ancient Maya Ruins** William R. Coe, 1967 Twenty five hundred or more years ago a group of peoples settled on and about a barely seen hill in the lowland jungles of northern Guatemala Their descendants were soon to create by almost unfathomable means one of the most astonishing civilizations the world has ever seen We now know that hill and the surrounding area as Tikal Tikal a traditional name whose meaning is unknown to us became the prime city of the Maya people populating the Peninsula of Yucatán Today in what is geographically the southern part of this peninsula the pre eminence of Tikal is still asserted by the ruined roof combs of huge white temples rising above an undulating rain forest that ends only at the distant Caribbean sea Introduction **Tikal** William R. Coe, 1973 **Engaging Ancient Maya Sculpture at Piedras Negras, Guatemala** Megan E. O'Neil, 2014-02-25 Now shrouded in Guatemalan jungle the ancient Maya city of Piedras Negras flourished between the sixth and ninth centuries when its rulers erected monumental limestone sculptures carved with hieroglyphic texts and images of themselves and family members advisers and captives In *Engaging Ancient Maya Sculpture at Piedras Negras Guatemala* Megan E O Neil offers new ways to understand these stelae altars and panels by exploring how ancient Maya people interacted with them These monuments considered sacred were one of the community's important forms of cultural and religious expression Stelae may have held the essence of rulers they commemorated and the objects remained loci for reverence of those rulers after they died Using a variety of evidence O Neil examines how the forms compositions and contexts of the sculptures invited people to engage with them and the figures they embodied looks at these monuments not as inert bearers of images but as palpable presences that existed in real space at specific historical moments Her analysis brings to the fore the material and affective force of these powerful objects that were seen touched and manipulated in the past O Neil investigates the monuments not only at the moment of their creation but also in later years and shows how they changed over time She argues that the relationships among sculptures of different generations were performed in processions through which ancient Maya people integrated historical dialogues and ancestral commemoration into the landscape With the help of more than 160 illustrations O Neil reveals these sculptures continuing life histories which in the past century have included their fragmentation and transformation into commodities sold on the international art market Shedding light on modern day transposition and display of these ancient monuments O Neil's study contributes to ongoing discussions of cultural patrimony *Miscellaneous Investigations in Central Tikal--Great Temples III, IV, V, and VI* H. Stanley Loten, 2017-07-31 The Maya center of Tikal in Guatemala is famous for its well preserved architecture This book presents detailed descriptions of four of the six Great Temples that dominate Tikal's city center Whereas Great Temples I and II were published in 1990 in *Tikal Report 14* the four structures presented here are Great Temples III IV V and VI All but Great Temple V represent Late Classic construction and can be associated with known rulers

It is tempting to think of these structures as funerary monuments but this is only a supposition Their relationship with rulers may have been much more complex This report is the primary record of these important buildings in Tikal s urban landscape It provides clear precise and usable architectural analyses for Mayanists archaeologists art historians architectural historians urbanists and those interested in construction techniques and in the uses of Maya buildings University Museum Monograph 146
