Time And Money Time And Money:

POETRHYME L.D. Dockery, 2004-07-01 From a Daughter s Perspective Once I learned that this book was being dedicated to me I insisted that I have something to say about the author my dad I would like to introduce his work simply by way of experience and by what I feel has contributed to its making I am an avid dance person and he has always referred to me as his poetry in motion a well known phrase for dance but I had never really read much of his poetry until lately He was not very open with his writings because he thought his children would not be interested He would often use phrases that seemed to have a poetic flare That to me was just dad s way He would sometimes say a line and then stop and take note of your reaction This was what he termed as a hang line I later saw these lines in his poems with the dot dot dot at the ends I later learned that dad had his own theory about poetry writing and was not easily taken to trends or reading the works of others who would be looked upon as setting the standard In his own way he was insistent with some degree or order or structure citing that it makes poetry more readable and understandable He totally rejected the idea that structure hinders the creative process but saw it as a tool to preserve it I remember how displeased he was when I used a stanza of verse that he had helped me with to do an on stage response during a pageant The response was marked down because it was too structured With dad poetry was not only dance but it was also music as well He once related to me how the mechanics of music and poetry paralleled I ve concluded that his theory of poetry writing relates to his current teaching background as a math professor and his former physics teaching background especially as I remember the way he tutored me when I was pursuing my engineering degree He perceived that poetry has volume and pitch that is controlled by use of stanza line length and other structural devices that need to be worked with just as music Rhyme gives a sense of rhythm to poetry as beat does to music This is the body and soul connection he would say I don t like the trend in avoiding rhyme With this insistence comes POETRHYME a work totally dedicated to rhyme in whatever he experienced In his way of writing poetry he was always kindred to nature a partaker of love a friend of wisdom a caretaker of gardens and vineyards that always captured his smiles and personification in a most practical and simple style Courtney Dockery More important than money.
