Changing Politics of Canadian Social Policy James J. Rice, Michael J. Prince, 2013-01-01 Changing Politics of Canadian Social Policy is a one of a kind resource in the fields of political science and social work **1968 in Canada** Michael K. Hawes, Andrew C. Holman, Christopher Kirkey, 2021-04-13 The year 1968 in Canada was an extraordinary one unlike any other in its frenetic pace of activities and their consequences for the development of a new national consciousness among Canadians It was a year when decisions and actions both in Canada and outside its borders were thick and contentious and whose effects were momentous and far reaching It saw the rise of Trudeaumania and the birth of the Parti Qu b cois the articulation of the new nationalism in English Canada and an alternative vision for Indigenous rights and governance a series of public hearings in the Royal Commission on the Status of Women the establishment of the Canadian Radio and Television Commission nation wide Medicare and CanLit and a striving for both a new relationship with the United States and a more independent foreign policy everywhere else And more Virtually no segment of Canadian life was untouched by both the turmoil and the promise of generational change Published in English with chapters in French *Changing Politics of Canadian Social Policy* Michael J. Prince, James J. Rice, 2000-03-18 No one is content with the state of health and social programs in Canada today The Right thinks that there is too much government involvement and the Left thinks there is not

enough In *Changing Politics of Canadian Social Policy* James Rice and Michael Prince track the history of the welfare state from its establishment in the 1940s through its development in the mid 1970s to the period of deficit crisis and restraint that followed in the late 1970s and 1980s Taking a historical perspective the authors grapple with the politics of social policy in the 1990s Globalization and the concomitant corporate mobility affect government's ability to regulate the distribution of wealth while the increasing diversity of the population puts increasingly complex demands on an already overstressed system Yet in the face of these constraints the system still endures and is far from irrelevant Some social programs have been dismantled but the government has organized and maintained others Greater democratization of welfare programs and social policy agencies could make the system thrive again *Changing Politics* provides the much needed groundwork for students and policy makers while also proposing real solutions for the future

Time, Globalization and Human Experience Paul Huebener, Susie O'Brien, Tony Porter, Liam Stockdale, Yanqiu Rachel Zhou, 2016-11-03 This edited volume focuses on the intersection of time and globalization as manifested across a variety of economic political cultural and environmental contexts Since David Harvey's influential characterization of globalization as time space compression ample research has looked at the spatial aspect of the phenomenon yet few have focused on globalization's temporal aspects Meanwhile other publications have analysed problems of speed acceleration and the commodification of time but while it often serves as the implicit or explicit backdrop for these studies of time globalization is not investigated as a problem or a question in its own right In response this volume develops these conversations to consider how time shapes globalization and how globalization affects our experience of time The interplay between varying aspects of the human experiences of time and globalization requires the type of interdisciplinary approach that this volume takes The contributors advance an understanding of global time's as an arena of contestation with social political ecological and cultural implications for human and other lives In considering the diverse valences of time and globalization they illuminate problems as well as possibilities Topics covered include emerging infectious diseases temporal sovereignty worker exploitation and resistance chronobiology energy politics activism and hope and literary and cinematic representations of counter temporalities offering a rich and varied account of global times This volume will be of great interest to students and researchers from a range of disciplines including anthropology cultural studies globalization international relations literary studies political science social theory and sociology

Rebuilding Canadian Party Politics R. Kenneth Carty, William Cross, Lisa Young, 2007-11 This book is about the collapse of Canadian party politics in the early 1990s about the end of a party system that had governed Canada's national politics for several decades and about the ongoing struggle to build its successor Changing Canada Wallace Clement, Leah F. Vosko, 2003 Changing Canada examines political transformations welfare state restructuring international boundaries and contexts the new urban experience and creative resistance The authors question dominant ways of thinking and promote alternative ways of understanding and explaining Canadian society and politics that encourage progressive social change They examine how the evolution of capitalism is producing new types of transformations and new forms of resistance and show that aspects of the state and the wider society are being contested They also discuss the often paradoxical or contradictory effects of various social forces such as the liberating but also constraining features of new communications technologies new employment norms and new household forms **Power Shift? Political Leadership and Social Media** David Taras, Richard Davis, 2019-12-09 Power Shift Political Leadership and Social Media examines how political leaders have adapted to the challenges of social media including Facebook Instagram Twitter and memes among other means of persuasion Established political leaders now use social media to grab headlines respond to opponents fundraise contact voters directly and organize their election campaigns Leaders of protest movements have used social media to organize and galvanize grassroots support and to popularize new narratives narratives that challenge and sometimes overturn conventional thinking Yet each social media platform provides different affordances and different attributes and each is used differently by political leaders In this book leading international experts provide an unprecedented look at the role of social media in leadership today Through a series of case studies dealing with topics ranging from Emmanuel Macron and Donald Trump's use of Twitter to Justin Trudeau's use of selfies and Instagram to how feminist leaders mobilize against stereotypes and injustices the authors argue that many leaders have found additional avenues to communicate with the public and use power This raises the question of whether this is causing a power shift in the relationship between leaders and followers Together the chapters in this book suggest new rules of engagement that leaders ignore at their peril The lack of systematic theoretically informed and empirically supported analyses makes Power Shift Political Leadership and Social Media an indispensable read for students and scholars wishing to gain new understanding on what social media means for leadership
