One of the winds blows too high and the seed's hat gets blown off it.

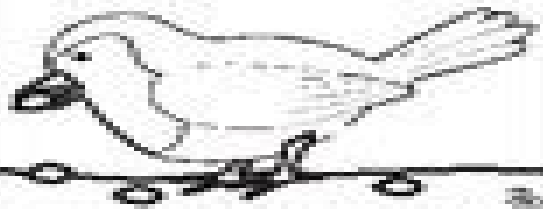

Another seed lands on a hill and its mountain. The ice never melts, and the seed cannot grow.

One seed falls into the ocean and drowns.

For why the wind blows and the seeds fall down on the ground. A bird comes by and eats one seed.

Now it is Winter. A hungry mouse eats a seed for his lunch. The tiny seed lies there still.

Now it is Spring. There are not seeds any more. There are plants. The tiny seed has grown into a plant.

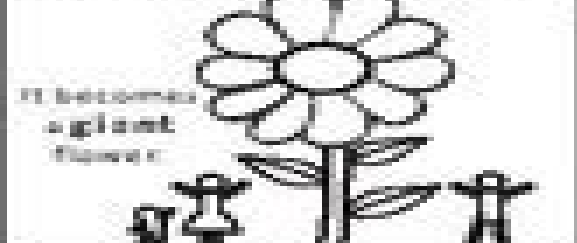

One child runs along and - Oh! He breaks it!

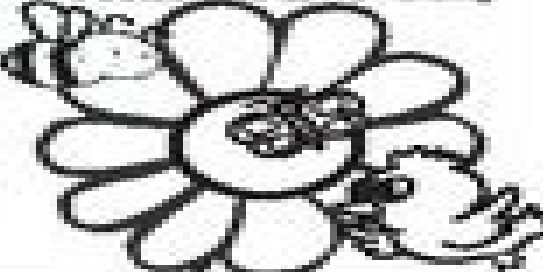

A boy has picked the flower to give to a friend.

It is summer. The tiny plant from the tiny seed is all grown. It grows taller and taller.

All summer long the birds and bees and butterflies come visiting.

Now it is Autumn again. Some petals drop from the giant flower. The flower's seed pod opens. Many tiny seeds quickly sail far away on the wind.
