

Professional answering machine with calling line identification and message transfer tiptel 332 clip

The comfortable answering machine tiptel 332 clip has been developed for the demanding private user and for office applications. Its digital recording of up to 50 minutes with an excellent audio quality will convince you. If requested, the information about new incoming messages can be sent to any phone number, for example to a mobile phone (message transfer function). The alphanumeric display affords a comfortable user guidance and the indication of operating states. In case of an incoming

call, the caller's phone number is presented and stored in a list. By just pressing one key, this number can be called back, either during the message playback or at a later point of time out from the call list.

Due to the state-of-the-art Flash memory technology (batteries are no longer required), and an extremely low power consumption in the idle state (less than 2 W), the new tiptel 332 clip contributes to the protection of the environment.

- message transfer to any pre-programmed phone number (e.g. to a mobile phone)
- 50 minutes recording capacity
- alphanumeric display with 2 x 16 characters for comfortable user guidance
- speech memory in environmentally-friendly Flash technology (without batteries)
- 3 individual OGMs with up to 3 minutes recording capacity each
- calling line identification presentation
- call list for 30 entries
