myself and their sisters in the public eye My political and sociological ideas were ascribed to the vagaries of youth and good natured elderly men patronized me and told me that I would grow up some day and become an unusually intelligent member of the community Also they told me that my views were biased by my empty pockets and that some day when I had gathered to me a few dollars my views would be wholly different in short that my views would be their views And then came the day when my socialism grew respectable still a vagary of youth it was held but romantically respectable Romance to the bourgeois mind was respectable because it was not dangerous As a red shirt with bombs in all his pockets I was dangerous As a youth with nothing more menacing than a few philosophical ideas Germanic in their origin I was an interesting and pleasing personality *War of the Classes (1905)* . shaped his work are key to gaining a nuanced view of London's corpus of works as this volume's wide ranging perspectives and examples attest. The first section of this volume, Materials, surveys the many resources available for teaching London including editions of his works, sources for his photography and audiovisual aids. In part 2, Approaches, contributors recommend practices for teaching London's works through the lenses of socialism and class, race, gender, ecocriticism, and animal studies, theories of evolution, legal theory, and regional history, both in frequently taught texts such as *The Call of the Wild*, *To Build a Fire*, and *Martin Eden* and in his lesser known works *War of the Classes* (Esprimo Classics). Jack London, 2021-09-27

Jack London (1876-1916) was an American author and a pioneer in the then burgeoning world of commercial magazine fiction. He was one of the first Americans to make a lucrative career exclusively from writing. London was self-educated. He taught himself in the public library, mainly just by reading books. In 1898 he began struggling seriously to break into print, a struggle memorably described in his novel *Martin Eden* (1909). Jack London was fortunate in the timing of his writing career. He started just as new printing technologies enabled lower cost production of magazines. This resulted in a boom in popular magazines aimed at a wide public and a strong market for short fiction. In 1900 he made \$2,500 in writing the equivalent of about 75,000 today. His career was well under way. Among his famous works are *Children of the Frost* (1902), *The Call of the Wild* (1903), *The Sea Wolf* (1904), *The Game* (1905), *White Fang* (1906), *The Road* (1907), *Before Adam* (1907), *Adventure* (1911), and *The Scarlet Plague* (1912). *The Letters of Jack London* (Jack London, 1988) is the standard edition of the remarkable American short story writer's letters. Published in 1988. *The Selected Works of Jack London, Vol. 25 (of 25)* (Jack London, 2020-12-08) is a classic non-fiction work which describes the struggle for survival by the working class during Jack London's day and age. *A Daughter of the Snows* (1902) is Jack London's first novel. A triangle romance provides the basis for a questioning of the meaning of masculinity as well as an examination of agribusiness in California. **The People of the Abyss, War of the Classes & White Fang** (Jack London, 2020-09-29)

The People of the Abyss (1903) is a book by Jack London about life in the East End of London in 1902. A classic non-fiction work which describes the struggle for survival by the working class during Jack London's day and age. *White Fang* is a novel by American author Jack London and the name of the book's eponymous character, a wild wolfdog. *Jack London: Novels and Social Writings (LOA #7)* (Jack London, 1982-11-01)

By turns an impoverished laborer, a renegade adventurer, a war correspondent in Mexico, a declared socialist, and a writer of enormous popularity, the world over, Jack London was the author of brilliant works that reflect his ideas about twentieth-century capitalist societies while dramatizing them through incidents of adventure, romance, and brutal violence. His prose always brisk and vigorous, rises in *The People of the Abyss* to italicized horror over the human degradations he saw in the slums of East London. It also accommodates the dazzling oratory of the hero of *The Iron Heel*, an American revolutionary named Ernest Everhard, whose speeches have the accents of some of London's own political essays like the piece reprinted in this volume, entitled *Revolution*. London's prophetic political vision was recalled by Leon Trotsky who observed that when The

Iron Heel first appeared in 1907 not one of the revolutionary Marxists had yet fully imagined the ominous perspective of the alliance between finance capitalism and labor aristocracy Whether he is recollecting in *The Road* the exhilarating camaraderie of hobo gangs or dramatizing in *Martin Eden* a life like his own even to the foreshadowing of his own death at age forty or confessing his struggles with alcoholism in the memoir *John Barleycorn* London displays a genius for giving marginal life the aura of romance Violence and brutality flash into life everywhere in his work both as a condition of modern urban existence and as the inevitable reaction to it Though he is outraged in *The People of the Abyss* by the condition of the poor in capitalist societies London is even more appalled by their submission and in the novel he wrote immediately afterward *The Call of the Wild* in the companion volume *Novels and Stories* he constructed an animal fable about the necessary reversion to savagery *The Iron Heel* with its panoramic scenes of urban warfare in Chicago envisions the United States taken over by fascists who perpetuate their regime for three hundred years It constitutes London's warning to his fellow socialists that mere persuasion is insufficient to combat a system that ultimately relies on force
