

Sample Questions from Our Study Kit

The questions below replicate real government multiple-choice questions. We know this from taking the test every year, and from our unparalleled experience over the years with competitions exclusive to the federal public service.

Please be aware that:

- Practice questions the government makes available are few and misleadingly easy.
- Questions found on the internet that may seem similar are often foreign and not directly applicable to specialized Canadian government tests.
- Sample questions in other Canadian guidebooks and online services are generic, improperly structured, and counterproductive to preparing effectively for actual government tests.

In short, free questions and numerous low cost samples of the wrong type—no matter how many exercises are included—simply won't help you.

Our following samples show what you will really face on test-day. The questions, instructions, time-saving tips and answers in our Study Kit will teach you how to excel in your competition.
