Weber's Ultimate Grilling Jamie Purviance, 2019 The most highly instructive and visually engaging grilling book on the market from the experts at Weber with more than 100 all-new recipes and over 800 photos. *A Guy's Guide to Grilling* Victoria B., 2012-02-29 ABOUT THE BOOK It's a popular American suburban myth that men are born knowing how to grill. In popular culture, such as novels and television, men are always shown standing around the barbecue grill while women are usually in the kitchen whipping up the side dishes. If a man's worth is measured by his skill at cooking a steak over a flame, many men have a secret inadequacy that they'll share with few people. The truth is, no one is born knowing how to grill. If a guy wants to be an expert at backyard cooking, he's got to learn just like with any other skill. Grilling is much more than slapping a steak over a fire and letting it brown. In order to be a grill expert, you must learn about a variety of culinary subjects, from equipment to cooking techniques. You can begin by specializing in one type of dish, as many men do with their steak expertise, but every topic you master adds to your skill quotient. EXCERPT FROM THE BOOK Charcoal grills give grill masters much more leeway when it comes to flavor and effect. Food automatically gets a smoky flavor when cooked over

coals indeed you can even use a charcoal grill as a smoker Almost anyone can afford at least a small charcoal grill Small hibachi grills and beginning backyard grills can be had for around 20 although elaborate setups can run into the hundreds of dollars Far from being a gas grill's poor cousin charcoal is a legitimate alternative with fans who will never convert Other Important Grilling Tools Once you have your grill in the yard it's time to collect the rest of the tools you'll need for successfully becoming a grill master While you can find most of the equipment you need for grilling in your kitchen drawers there are a few tools you will have to purchase specifically for backyard cooking Buy a copy to keep reading

for being the first civilization where their ancestors first thought up the technique of grilling and barbecue cooking It is certain that this technique spread all over the world simultaneously when men began to look for more and easier ways in which they could cook the meat they had hunted throughout the day All they had to do is make a fire in their camp and roast the pieces of meat on pieces of charcoal Then one day a man must have really gotten impatient with just waiting for a couple of pieces to cook to either perfection or to charred consistency and skewered some more pieces on a bamboo skewer or thin piece of metal and lo and behold barbecue cookery came into existence These succulent juicy pieces of meat could be eaten straight from the barbecue picked right off their skewers The skewers would then be washed and used over and over again So grilling and barbecuing became an important part of the daily cuisine all over the world especially when you wanted vegetables or meat pieces roasted over an open fire Naturally this gave rise to meat recipes including kebabs barbecued on skewers barbecued sausages instead of frying them roasting and grilling juicy portions of steak instead of making them into steak and kidney pies and so on This technique was discovered by some enterprising cook millenniums ago and throughout the centuries millions of other cooks took full advantage of his knowledge and made sure that they used it as often as possible when they had fresh meat around Grilling was not just restricted to fresh meat right in from the hunt or from the butchers In many parts of the East this meat was marinated in aromatics and herbs and kept for a little while until it was juicy and tender That is because Eastern cuisine has the tendency of smothering each and every surface in sauces herbs spices yogurt and other natural goodies to make it more flavorful aromatic spicy and delicious So is it a wonder that grilled meats in the East were always marinated for 24 to 48 hours before they were roasted to perfection on the fire and eaten hot off bamboo skewers If you find yourself in an Oriental or Eastern market you are going to be overwhelmed by the smell of meat and vegetables being grilled at every corner That is because buying these aromatic pieces of meat and then eating them right in the dusty marketplace is one of the most enjoyable experiences of living in an ancient land still holding onto ancient traditions
