Powerful Learning Linda Darling-Hammond, Brigid Barron, P. David Pearson, Alan H. Schoenfeld, Elizabeth K. Stage, Timothy D. Zimmerman, Gina N. Cervetti, Jennifer L. Tilson, 2015-07-15 In *Powerful Learning* Linda Darling Hammond and an impressive list of co authors offer a clear comprehensive and engaging exploration of the most effective classroom practices They review in practical terms teaching strategies that generate meaningful K 2 student understanding and occur both within the classroom walls and beyond The book includes rich stories as well as online videos of innovative classrooms and schools that show how students who are taught well are able to think critically employ flexible problem solving and apply learned skills and knowledge to new situations *Constructing Science in Elementary Classrooms* Norman G. Lederman, Judith S. Lederman, Randy L. Bell, 2004 Solidly based on the National Science Education Standards and Benchmarks for Science Literacy this new elementary science methods text immerses students into the context of classroom instruction through the authors unique approach using The Teaching Cycle The text is divided into three major sections or clusters of chapters Goals of Science Instruction Setting the Stage and The Teaching Cycle The first two sections provide the theoretical and practical foundations for instruction while the third section provides content Section I presents an overall view of science as a way of knowing and eventually develops an argument for why science should be included in the curriculum at all Section II emphasizes the importance of connecting lessons and avoiding the tendency to present individual science lessons in isolation The major content chapters comprising Section III The Teaching Cycle Life Environmental Science Physical Science Earth and Space Science each incorporate the traditional topics of methods courses e g demonstrations laboratories classroom management assessment developmental psychology etc concepts and themes common to national reforms

Close Reading of Informational Sources Sunday Cummins, 2019-05-14 Given the number of well developed informational sources available to educators and students and the focus of departments of education on learning from these sources there is so much potential for students to grow as critical consumers of information Being able to read informational sources closely or watch and listen to sources carefully across all content areas creates a path for being able to understand the world better More than ever before close reading has become an essential approach with students and the informational sources they are attempting to understand In addition to addressing instruction with traditional printed texts I address how to teach for understanding of content in videos and infographics I have also developed a three phase plan for learning and a matching template for lesson planning
