

"Beautifully paced ... does just as well at
slam-bang action scenes as at painting frightening pictures ...
This is space opera at a high peak of craftsmanship."

Connolly, 2010-10-14 The most pressing question facing the small and mid sized cities of America's industrial heartland is how to reinvent themselves Once thriving communities in the Northeastern and Midwestern U S have decayed sharply as the high wage manufacturing jobs that provided the foundation for their prosperity disappeared A few larger cities had the resources to adjust but most smaller places that relied on factory work have struggled to do so Unless and until they find new economic roles for themselves the small cities will continue to decline Reinventing these smaller cities is a tall order A few might still function as nodes of industrial production But landing a foreign owned auto manufacturer or a green energy plant hardly solves every problem The new jobs will not be unionized and thus will not pay nearly as much as the positions lost The competition among localities for high tech and knowledge economy firms is intense Decaying towns with poor schools and few amenities are hardly in a good position to attract the creative class workers they need Getting to the point where they can lure such companies will require extensive retooling not just economically but in terms of their built environment cultural character political economy and demographic mix Such changes often run counter to the historical currents that defined these places as factory towns After the Factory examines the fate of industrial small cities from a variety of angles It includes essays from a variety of disciplines that consider the sources and character of economic growth in small cities They delve into the history of industrial small cities explore the strategies that some have adopted and propose new tacks for these communities as they struggle to move forward in the twenty first century Together they constitute a unique look at an important and understudied dimension of urban studies and globalization **Factory and Industrial Management** John Robertson Dunlap, Arthur Van

Vlissingen, John M. Carmody, 1913 **Observations on Taiwanese Society and Reflections on Life** [Audiobook]

Hong-Chin Tsai, 2024-10-01 Content introduction Every person in the world lives in society and those who are aware and use their brains will observe the society they are in and reflect on life Social observation and reflections on life are two essential aspects of being a person and dealing with life By observing society we understand it and learn how to serve society and obtain resources from it Through reflections on life we learn how to navigate life appropriately and cherish it These two aspects are interconnected The results of social observation deepen our reflections on life and the contents of our reflections on life also include insights from social observation The content of this book consists of some observations I have made about our society in my later years of life as well as some reflections on my own life It serves as a record and a self examination The general environment in which everyone finds themselves in society is quite similar but the specific circumstances and daily lifestyles vary Therefore my observations and reflections may have similarities and differences with those of the readers I hope that the similarities can be understood and appreciated by each other and the differences can serve as inspiration and motivation

David Smith Michael Brenson, 2022-10-04 The definitive biography of David Smith the trailblazing American sculptor who pioneered Abstract Expressionism in three dimensions An essential account of America's greatest sculptor A magnum opus Marjorie Perloff The Times Literary Supplement David Smith The Art and Life of a Transformational Sculptor is the first comprehensive biography of the visionary artist who revolutionized American sculpture Michael Brenson traces Smith's journey from his Midwestern roots to his groundbreaking early years in Manhattan and his permanent studio in upstate New York where he created iconic works like the Cubis Tanktotems and Zigs Brenson explores Smith's complex personal life marked by deep friendships with fellow artists like Helen Frankenthaler and Robert Motherwell as well as marriages divorces and fallings out He delves into the enormous contradictory vitality that defined both Smith and his work capturing the essence of an artist who entranced critics and admirers wherever he exhibited A master welder painter photographer and writer Smith challenged the stability of identity and position in his art seeking out the unbounded unbalanced and unexpected By age forty he had already earned the accolade of the greatest sculptor this country has produced from influential critic Clement Greenberg With this definitive biography Brenson confirms Smith's singular place in the history of American art and introduces his transformative vision to a new generation *Animals and War* Anthony J.

Nocella II, Colin Salter, Judy K.C. Bentley, 2013-12-19 *Animals and War* Confronting the Military Animal Industrial Complex is the first book to examine how nonhuman animals are used for war by military forces Each chapter delves deeply into modes of nonhuman animal exploitation as weapons test subjects and transportation and as casualties of war leading to homelessness starvation and death With leading scholar activists writing each chapter this is an important text in the fields of peace studies and critical animal studies This is a must read for anyone interested in ending war and fostering peace and justice

The New York Times Index, 1998 *The Fun Factory* Rob King, 2008-12-10 From its founding in 1912 the short

lived Keystone Film Company home of the frantic bumbling Kops and Mack Sennett's Bathing Beauties made an indelible mark on American popular culture with its high energy comic shorts Even as Keystone brought lowbrow comic traditions to the screen the studio played a key role in reformulating those traditions for a new cross class audience In *The Fun Factory* Rob King explores the dimensions of that process arguing for a new understanding of working class cultural practices within early cinematic mass culture He shows how Keystone fashioned a style of film comedy from the roughhouse humor of cheap theater pioneering modes of representation that satirized film industry attempts at uplift Interdisciplinary in its approach *The Fun Factory* offers a unique studio history that views the changing politics of early film culture through the sociology of laughter

Managing the Human Factor Bruce E. Kaufman, 2019-06-30 Human resource departments are key components in the people management system of nearly every medium to large organization in the industrial world They provide a wide range of essential services relating to employees including recruitment compensation benefits training and labor relations A century ago however before the concept of human resource management had been invented the supervision and care of employees at even the largest companies were conducted without written policies or formal planning and often in harsh arbitrary and counterproductive ways How did companies such as United States Steel manage a workforce of 160 000 employees at dozens of plants without a specialized personnel or industrial relations department What led some of these organizations to introduce human resources practices at the end of the nineteenth century How were the earliest personnel departments structured and what were their responsibilities And how did the theory and implementation of human resources management evolve both within industry and as an academic field of research and teaching In *Managing the Human Factor* Bruce E Kaufman chronicles the origins and early development of human resource management HRM in the United States from the 1870s when the Labor Problem emerged as the nation's primary domestic policy concern to 1933 and the start of the New Deal Through new archival research an extensive review and synthesis of the historical and contemporary literatures and case studies illustrating best and worst practices during this period Kaufman identifies the fourteen ideas events and movements that led to the creation of specialized HRM departments in the late 1910s as well as their further growth and development into strategic business units in the welfare capitalism period of the 1920s The research presented in this book not only uncovers many new aspects of the early development of personnel and industrial relations but also challenges central parts of the contemporary interpretation of the concept and evolution of HRM Rich with insights on both the present and past of human resource management *Managing the Human Factor* will be widely regarded as the definitive account of the early history of employee management in American companies and a must read for all those interested in the indispensable function of managing people in organizations

Around Warrensburg John T. Hastings, 2009-11-01 William Bond became the first Warrensburg settler when he arrived in the Echo Lake area in 1787 Shortly thereafter Warrensburg became known as the Bridge because it was the location of the only bridge in the area that crossed the Schroon River In

February 1813 the town of Warrensburg was formed from part of Thurman By the mid 1800s A C Emerson and B P Burhans had moved to Warrensburg and begun to harness the waterpower of the Schroon River and utilize the nearby timber resource The Emerson sawmill and Burhans s tannery and gristmill provided employment and capital to support a growing and thriving town Other industries such as a woolen mill and pants factory sash and blind factory shirt factory and shoe peg factory soon followed With the dawn of the 20th century improved transportation in the form of railroads and the automobile began bringing more people to Warren County This trend continues today as numerous visitors summer in the Adirondacks to enjoy the clean air and water of the north country

Directory of World Cinema: Russia 2 Birgit Beumers, 2015-02-20 Soviet and Russian filmmakers have traditionally had uneasy relationships to the concept of genre This volume rewrites that history by spotlighting some genres not commonly associated with cinema in the region including Cold War spy movies and science fiction films blockbusters and horror films remakes and adventure films and chernukha films and serials Introductory essays establish key aspects of these genres and directors biographies provide the background for the key players Building on the work of its predecessor which explored cinema from the time of the tsars to the Putin era this book will be warmly received by the serious film scholar as well as all those who love Russian cinema **Directory of World Cinema Russia 2** is an essential companion to the filmic legacy of one of the world s most storied countries

Transformations of Contemporary Capitalism David Evans, 2023-10-02 In recent decades there has been many attempts to describe explore and explain the new post modern capitalism of the twenty first century In this context this book looks at one of the most exciting strands of this research in the late twentieth century the flexible specialisation research programme FSRP Drawing on the history of ideas discourse and literature on capitalism of the last four decades this book shows that although flexible specialisation anticipated some of the ways in which capitalism was being transformed in the late twentieth century they underestimated and failed to anticipate the forms of creative destruction and corporate digital control which were becoming embedded in the global capitalist accumulation dynamic itself The sudden disappearance of the Soviet Union and the end of history failed to open up the pathway for new forms of modern social democracy but gave rise instead to the new digital Behemoths Today the classical tendencies of capitalism as anticipated by Marx are all too present and despite talk of post capitalism and digital techno feudalism the landscape of monopolyfinance capital has consolidated itself The book counterposes the FSRP with the various Marxist interpretations of the capitalist transition together with the wider social and economic theories that emerged in the first decades for the twenty first century around for example the great acceleration de growth and post growth This book will be of interest to all readers concerned with heterodox political economy critical social theory intellectual history and above all the prospects for social transformation leading to social justice and an egalitarian enlightenment
