Nybell, Jeffrey J. Shook, Janet L. Finn, 2009-01-30 Social workers today not only face competing claims concerning the rights and needs of children and youth but they also confront contradictions between policy and practice Social workers are expected to fight for the best interests of the child even though financial support for children's welfare and education grows scarce They are asked to save children at risk while at the same time they are urged to protect communities from risky children and they are encouraged to leave no child behind while also implementing zero tolerance policies to keep educational environments free from troubled youth A cutting edge text that deals directly with the confusion and complexity of modern child welfare *Childhood Youth and Social Work in Transformation* features contributions from a truly interdisciplinary group of practitioners scholars and activists Examining the theoretical political and practical aspects of working with youth today this volume breaks free from existing modes of thought and strategies of practice and prompts readers to critically reflect on accepted approaches and new possibilities of action Contributors analyze how economic political and cultural changes over the last several decades have reshaped the experiences and representations of children and youth in the United States They examine conceptions of troubled children and youth in contemporary policies and programs and assess why certain discourses about troubling youth are so compelling to professionals policymakers and the public In conclusion these skilled professionals explore the reinvention of social work policy and practice including the need

Brody, 2013 Provides a comprehensive introduction to the rules and principles of criminal procedure law This text uses a case study approach with a focus on the U S Supreme Court to help readers develop the analytical skills necessary to understand the origins context and evolution of the law With an emphasis on federal constitutional law all cases and accompanying discussions have been updated throughout P 4 of cover **Leading Statutes Summarised for the Use of Students** Ernest Chester Thomas, 1878 **Getting to Where We Meant to Be** Patricia H. Hinchey, Pamela J. Konkol, 2024-04-24 At a moment when brawls are breaking out at school board meetings and state officials are increasingly issuing curricular mandates it s possible that this text s central question is more important than ever How is it that given good intentions and hard work among education professionals things in schools can go so very wrong As in the first edition Hinchey and Konkol suggest that unspoken and misleading assumptions can produce choices decisions and policies with disastrous consequences for kids They tease out such assumptions on the key issues of school goals curriculum education for citizenship discipline and school reform inviting readers to question the taken for granted in order to better align intentions and outcomes Such contemporary issues as book banning and parents movements are presented not as isolated controversies but instead in their historical cultural and political contexts Designed for both undergraduate and graduate classrooms the text applies to a wide range of studies related to public education including its theory policy history and politics Without proselytizing the text asks readers to think for themselves and articulate their own commitments guided by end of chapter questions some intended for all readers and some specifically for experienced professionals Suggested additional readings websites and videos invite further exploration of the topics under discussion and offer still more food for thought The Law Student's Helper William Cyrus Sprague, Griffith Ogden Ellis, Frederick R. Austin, 1894 *The Law Students' Journal* John Indermaur, Charles Thwaites, 1886

The Law Student's Helper , 1893 Affirmative Action and Black Student Success David J. Luke, 2023-08-31 David J Luke s *Affirmative Action and Black Student Success* is a concrete and comprehensive exploration into diversity programs on college campuses and their impact on Black student success and outcomes Viewed over the span of 12 years three large public universities in the United States and Canada provide dynamic settings for this book s comparative focus on diversity initiatives The author identifies key regional and national differences between these settings as well as differences in the way diversity is framed and understood to illustrate how diversity programs and policies are shaped and the extent and ways in which these programs and policies then shape student experiences and outcomes The values and meanings organizations ascribe to diversity inclusion and equity are frequently in transition and the book s compelling analysis conveys the

importance of race in these contexts when racism is presumed to be in decline as is the case in colorblindness and demonstrations of multiculturalist ideals racial inequalities are concealed and remain unnoticed The author makes a range of practical recommendations and argues that clear and explicit goals about race and representation are integral in the expansion and preservation of inclusive institutional environments Unflinching in its critique and pragmatic with its recommendations this book offers invaluable analysis for university leaders diversity officers and student affairs professionals as much as it provides new insights for scholars and educators of racism higher education diversity and organizational culture
