

Weird Science

Level: Lower-Intermediate / Intermediate

Aims

Introduce new character adjectives
Provide fluency practice using character adjectives

Procedure

1. Ask students (ss) if they have seen the film 'Weird Science' of the television series. Ask them to explain what the film was about and elicit descriptions of the two main characters.

The film is about two High School friends (Wyatt and Gary) who use a powerful computer to transform a doll into a real woman with the characteristics they enter into the computer – and it works! Wyatt is tall, blond, imaginative but not too bright, Gary is smarter shorter and quieter than Wyatt.

2. Hand out worksheets making sure that for every A sheet there is a corresponding B sheet. Ask ss to read the grey box and explain to you in their own words what they must do.

In pairs they must take it in turns to read out the boxes at the bottom of their sheets which are examples of the adjectives in question. The listener must guess the correct adjective from the adjectives surrounding his/her crossword. When both A and B have completed the crossword they can work out their computer's message to them by extracting the numbered letters in the crossword to complete the message.

3. Pair ss off into A/B pairs and monitor for correct pronunciation and make sure they are doing the activity correctly and not just counting the letters and boxes. When they have finished make sure they have all been able to discover the message:

Student A = YOU ARE SMART
Student B = YOU ARE CLEVER.

4. **BALLOON DEBATE:** Now, tell the ss that as a reward for discovering the message their computer has given each of them the opportunity to design their own IDEAL FRIEND. Individually ss must decide on the **TOP 5** character adjectives that shall constitute their IDEAL FRIEND. Make ss do this in pencil if possible and insist they have good reasons for their choice of adjectives as they will have to defend their choice later. I would suggest 8-10 minutes for this. Hover and help any ss that require different adjectives.

5. Once all ss have completed their list put ss into pairs and ask them to do the same as in 4 above. Tell them that together they should show each other their lists and offer explanations for their choices. They must then come up with 5 adjectives that they both agree on – they can NOT compromise. They can use the adjectives from their combined lists or if they don't agree they may use totally different adjectives. Again they must be able to justify their choices and MUST agree. This should stimulate discussion with emphasis on persuasion and negotiation skills.

6. After 10-15 minutes put two pairs together and ask them to do the same then put two groups of four together and so on until you end up with all the class debating on the five best character adjectives that would describe their IDEAL FRIEND. Depending on the size of the group you may want to start with pairs instead of individuals in order to avoid adding too many stages to the debate before the plenary debate.

After this debate you could ask ss to describe themselves or each other. This always helps to break the ice in first lessons.

Weird Science Lesson Plans For Preschool

Margaret J. Safrit, Terry M. Wood

Weird Science Lesson Plans For Preschool:

Everyday Activities for Preschool Grace Jasmine,1995 Games activities fun things to color and all sorts of activities for preschool children **Resources for Teaching Elementary School Science** National Science Resources Center of the National Academy of Sciences and the Smithsonian Institution,1996-03-28 What activities might a teacher use to help children explore the life cycle of butterflies What does a science teacher need to conduct a leaf safari for students Where can children safely enjoy hands on experience with life in an estuary Selecting resources to teach elementary school science can be confusing and difficult but few decisions have greater impact on the effectiveness of science teaching Educators will find a wealth of information and expert guidance to meet this need in **Resources for Teaching Elementary School Science** A completely revised edition of the best selling resource guide **Science for Children** **Resources for Teachers** this new book is an annotated guide to hands on inquiry centered curriculum materials and sources of help in teaching science from kindergarten through sixth grade Companion volumes for middle and high school are planned The guide annotates about 350 curriculum packages describing the activities involved and what students learn Each annotation lists recommended grade levels accompanying materials and kits or suggested equipment and ordering information These 400 entries were reviewed by both educators and scientists to ensure that they are accurate and current and offer students the opportunity to Ask questions and find their own answers Experiment productively Develop patience persistence and confidence in their own ability to solve real problems The entries in the curriculum section are grouped by scientific area Life Science Earth Science Physical Science and Multidisciplinary and Applied Science and by type core materials supplementary materials and science activity books Additionally a section of references for teachers provides annotated listings of books about science and teaching directories and guides to science trade books and magazines that will help teachers enhance their students science education **Resources for Teaching Elementary School Science** also lists by region and state about 600 science centers museums and zoos where teachers can take students for interactive science experiences Annotations highlight almost 300 facilities that make significant efforts to help teachers Another section describes more than 100 organizations from which teachers can obtain more resources And a section on publishers and suppliers give names and addresses of sources for materials The guide will be invaluable to teachers principals administrators teacher trainers science curriculum specialists and advocates of hands on science teaching and it will be of interest to parent teacher organizations and parents

Resources in Education ,2001-10 *Library and Information Science* Michael F. Bemis,2014-03-03 This unique annotated bibliography is a complete up to date guide to sources of information on library science covering recent books monographs periodicals and websites and selected works of historical importance In addition to compiling an invaluable list of sources Bemis digs deeper examining the strengths and weaknesses of key works A boon to researchers and practitioners alike this bibliography Includes coverage of subjects as diverse and vital as the history of librarianship its development as a

profession the ethics of information science cataloging reference work and library architecture Encompasses encyclopedias dictionaries directories photographic surveys statistical publications and numerous electronic sources all categorized by subject Offers appendixes detailing leading professional organizations and publishers of library and information science literature This comprehensive bibliography of English language resources on librarianship the only one of its kind will prove invaluable to scholars students and anyone working in the field **Mega Preschool & Kindergarten Worksheets Bundle**

Management in the Classroom Linda Marie Gilliam, 2019-01-14 The organizing and management of your classroom at school can be very daunting and depending upon your comfort level a little scary Children often can be a real challenge in teaching if you do not speak their language We as teachers and parents need not to be afraid in acting a little silly and even goofy when dealing with children Research shows that humor promotes learning and when used appropriately it can strengthen relationships of all shapes and sizes Administrators teachers and parents who are dedicated to the best interests social development and academic success of their children can accomplish great things by using a wide variety of creatively humorous approaches including rhymes chants riddles nonsensical speech jokes banter anecdotes games and even self effacing commentary to make valuable connections and enhance learning *Springboards to Inquiry* Paige Jaeger, Mary Boyd Ratzer, 2019-07-23 This collection of ideas for lessons provides school librarians with inspiration for meeting the tsunami of new standards dictating change for today s next generation learners Today s school librarian has less and less time to prepare for instruction This book delivers lesson plans for the librarian to implement immediately as is or with a little adaptation Using the new AASL standards and an Information Literacy scope and sequence carefully crafted for K 6 students the authors package lessons that are both engaging and challenging This book inspires librarians to go beyond their usual role in literacy promotion and instruction only and moves to preparing students to be inquiry learners by embracing inquiry

based learning Lessons include the Essential Question begin with the end in mind pre and post assessment ideas technology integration ideas where applicable reading and research ideas and collaboration ideas when applicable AASL Standards and others are noted via an integrated standards checklist while new educational research demonstrates that standards can be met via engaging collaborative and interesting lessons modeled throughout the text

Science Literacy in Primary Schools and Pre-Schools Haim Eshach, 2006-08-12 Science is more than a compilation of facts and figures although one would not know that from observing classroom lessons in science in elementary schools in many parts of the world In fact there are those who argue that science is not appropriate subject content for the early grades of elementary school There are many schools in which science is simply not present in the earliest grades Even where science is taught in the earliest grades it is often a caricature of science that is presented to the children This book offers a vigorous reasoned argument against the perspective that science doesn't belong in the early grades It goes beyond that in offering a view of science that is both appropriate to the early grades and faithful to the nature of the scientific enterprise Dr Eshach is not a voice in the chorus that claims young children's developmental lack of readiness for such study He believes as do I that in order to learn science one must do science At the heart of the doing of science is the act of exploration and theory formation To do science we must explore the ways in which the world around us looks sounds smells feels and behaves

Authors Website Occasionally, authors provide excerpts or short stories for free on their websites. While this might not be the Weird Science Lesson Plans For Preschool full book , it can give you a taste of the authors writing style. Subscription Services Platforms like Kindle Unlimited or Scribd offer subscription-based access to a wide range of Weird Science Lesson Plans For Preschool eBooks, including some popular titles.

FAQs About Weird Science Lesson Plans For Preschool Books

What is a Weird Science Lesson Plans For Preschool PDF? A PDF (Portable Document Format) is a file format developed by Adobe that preserves the layout and formatting of a document, regardless of the software, hardware, or operating system used to view or print it. **How do I create a Weird Science Lesson Plans For Preschool PDF?** There are several ways to create a PDF: Use software like Adobe Acrobat, Microsoft Word, or Google Docs, which often have built-in PDF creation tools. Print to PDF: Many applications and operating systems have a "Print to PDF" option that allows you to save a document as a PDF file instead of printing it on paper. Online converters: There are various online tools that can convert different file types to PDF. **How do I edit a Weird Science Lesson Plans For Preschool PDF?** Editing a PDF can be done with software like Adobe Acrobat, which allows direct editing of text, images, and other elements within the PDF. Some free tools, like PDFescape or Smallpdf, also offer basic editing capabilities. **How do I convert a Weird Science Lesson Plans For Preschool PDF to another file format?** There are multiple ways to convert a PDF to another format: Use online converters like Smallpdf, Zamzar, or Adobe Acrobats export feature to convert PDFs to formats like Word, Excel, JPEG, etc. Software like Adobe Acrobat, Microsoft Word, or other PDF editors may have options to export or save PDFs in different formats. **How do I password-protect a Weird Science Lesson Plans For Preschool PDF?** Most PDF editing software allows you to add password protection. In Adobe Acrobat, for instance, you can go to "File" -> "Properties" -> "Security" to set a password to restrict access or editing capabilities. Are there any free alternatives to Adobe Acrobat for working with PDFs? Yes, there are many free alternatives for working with PDFs, such as: LibreOffice: Offers PDF editing features. PDFsam: Allows splitting, merging, and editing PDFs. Foxit Reader: Provides basic PDF viewing and editing capabilities. How do I compress a PDF file? You can use online tools like Smallpdf, ILovePDF, or desktop software like Adobe Acrobat to compress PDF files without significant quality loss. Compression reduces the file size, making it easier to share and download. Can I fill out forms in a PDF file? Yes, most PDF viewers/editors like Adobe Acrobat, Preview (on Mac), or various online tools allow you to fill out forms in PDF files by selecting text fields and entering information. Are there any restrictions when working with PDFs? Some PDFs might have restrictions set by their creator, such as password protection, editing restrictions, or print restrictions. Breaking these restrictions might require specific software or tools, which may or may not be legal depending on the circumstances and local laws.
