

Women And Religion In Medieval England

Kenneth Charlton

Women And Religion In Medieval England:

Women and Religion in Medieval England Diana Wood, 2003 Nuns and devout noblewomen were sometimes celebrated for their achievements in the literature of the medieval period but more often than not these women only appear on the side lines of history while the ordinary wife and mother is virtually invisible These papers written by historians and archaeologists discuss the religious devotion and spiritual life of medieval women from all walks of life From an analysis of the architecture and economic organisation of nunneries to an assessment of the medieval Church's response to the pain and perils of childbirth these papers consider the influence of the church on the lives of women and the influence that women had on the life and worship of the Church Women and Religion in England, 1500-1720 Patricia Crawford, 1996 Patricia Crawford explores how the study of gender can enhance our understanding of religious history in this study of women and their apprehensions of God in early modern England **Women in Christianity in the Medieval Age** Laura Kalas, Roberta Magnani, 2024-12-10 This volume offers a comprehensive introduction to and investigation of the multivocality of women's experience in the Middle Ages In medieval Europe women saw their role in the Christian Church and society progressively confined to conflicting models of femininity epitomised by the dichotomy of Eve Mary Classical views of gender predicated on misogynistic dichotomies which confined women to matter and the corruption of the flesh were consolidated in powerful male dominated clerical institutions and widely disseminated Towards the end of the Middle Ages however women's corporeality and somatic spirituality contributed to and influenced burgeoning modes of piety centred around the cult of the Virgin Mary and the veneration of the suffering body of Christ on the Cross This shift in devotional practices afforded women as bodily beings the space for an increased level of self expression self realisation and authority Ranging from philosophical and theological enquiry to education and art as well as medical sciences and popular beliefs the essays in this collection account for the complexities and richness of the conceptualisations and lived experiences of medieval Christian women The book will be especially relevant to students and scholars of religion and history with an interest in medieval studies and gender Whilst expounding the key strands of thinking in the field it engages with and contributes to some of the latest scholarly research Women and Gender in Early Modern Europe Merry E. Wiesner, 2000-07-03 This is a major new textbook designed for students in all disciplines seeking an introduction to the very latest research on all aspects of women's lives in Europe from 1500 to 1750 and on the development of the notions of masculinity and femininity The coverage is geographically broad ranging from Spain to Scandinavia and from Russia to Ireland and the topics investigated include the female life cycle literacy women's economic role sexuality artistic creations female piety and witchcraft and the relationship between gender and power To aid students each chapter contains extensive notes on further reading but few footnotes and the approach throughout is designed to render the subject in as accessible and stimulating manner as possible Women and Gender in Early Modern Europe is suitable for usage on numerous courses in women's history early modern European

history and comparative history **Women, Writing and Religion in England and Beyond, 650-1100** Diane Watt, 2019-12-12 Women's literary histories usually start in the later Middle Ages but recent scholarship has shown that actually women were at the heart of the emergence of the English literary tradition *Women Writing and Religion in England and Beyond 650-1100* focuses on the period before the so-called Barking Renaissance of women's writing in the 12th century. By examining the surviving evidence of women's authorship as well as the evidence of women's engagement with literary culture more widely, Diane Watt argues that early women's writing was often lost, suppressed or deliberately destroyed. In particular, she considers the different forms of male overwriting to which she ascribes the multiple connotations of destruction, preservation, control and suppression. She uses the term to describe the complex relationship between male authors and their female subjects to capture the ways in which texts can attempt to control and circumscribe female autonomy. Written by one of the leading experts in medieval women's writing, *Women Writing and Religion in England and Beyond 650-1100* examines women's literary engagement in monasteries such as Ely, Whitby, Barking and Wilton Abbey as well as letters and hagiographies from the 8th and 9th centuries. Diane Watt provides a much-needed look at women's writing in the early medieval period that is crucial to understanding women's literary history more broadly.

Women, Dance and Parish Religion in England, 1300-1640 Lynne Miller Renberg, 2022 A lively exploration of the medieval and early modern attitudes towards dance as the perception of dancers changed from saints dancing after Christ into cows dancing after the devil. WINNER 2024 Sponsler Award for Best First Book, Medieval and Renaissance Drama Society. WINNER 2022 Guittard Book Award. The devil's cows, impudent camels or damsels animated by the devil: late medieval and early modern authors used these descriptors and more to talk about dancers, particularly women. Yet dance was not always considered entirely sinful or connected primarily to women. In some early medieval texts, dancers were exhorted to dance to God arm in arm with their neighbors, and parishes were filled with danced expressions of faith. What led to the transformation of dancers from saints dancing after Christ into cows dancing after the devil? Drawing on the evidence from medieval and early modern sermons and, in particular, the narratives of the cursed carolers and the dance of Salome, this book explores these changing understandings of dance as they relate to religion, gender, sin and community within the English parish. In parishes both before and during the English Reformation, dance played an integral role in creating, maintaining, uniting or fracturing community. But as theological understandings of sacrilege, sin and proper worship changed, the meanings of dance and gender shifted as well. Redefining dance had tangible ramifications for the men and women of the parish as new definitions of what it meant to perform one's gender collided with discourses about holiness and transgression, leading to closer scrutiny and monitoring of the bodies of the faithful.

Women, Religion and Education in Early Modern England Kenneth Charlton, 2002-01-04 *Women, Religion and Education in Early Modern England* is a study of the nature and extent of the education of women in the context of both Protestant and Catholic ideological debates. Examining the role of women both as

recipients and agents of religious instruction the author assesses the nature of power endowed in women through religious education and the restraints and freedoms this brought Veiled Women Sarah Foot,2023-01-09 There is no published account of the history of religious women in England before the Norman Conquest Yet female saints and abbesses such as Hild of Whitby or Edith of Wilton are among the most celebrated women recorded in Anglo Saxon sources and their stories are of popular interest This book offers the first general and critical assessment of female religious communities in early medieval England It transforms our understanding of the different modes of religious vocation and institutional provision and thereby gives early medieval women s history a new foundation Women In Dark Age And Early Medieval Europe c.500-1200 Helen Jewell,2006-10-04 The period 1200 1550 opened in a time of population expansion but went on to suffer the demographically cataclysmic effects of the plague beginning with the Black Death of 1347 51 The period dawned with a confident papacy and the Albigensian crusade against heretics and ended with the Catholic church torn apart by the Protestant Reformation Huge challenges were affecting society in various ways but they did not always affect men and women in the same ways Helen M Jewell provides a lively survey of western European women s activities and experiences during this timeframe The core chapters investigate The function of women in the countryside and towns The role of women in the ruling and landholding classes Women within the context of religion This practical centre of the book is embedded in an analysis of the gender theories inherited from the earlier Middle Ages which continued to underpin laws which restricted women s activity an education system which offered them inferior institutional provision and a church which denied them ministry Three individuals who vastly exceeded these expectations crashing through the glass ceilings of their day are brought together in a fascinating final chapter Combining a historiographical survey of trends over the last thirty years with more recent scholarship this is as indispensable introduction for anyone with an interest in women s history from the late Medieval period through to the Reformation *Writing Religious Women* Christiana Whitehead,Denis Renevey,2000-01-01 This collection of commissioned essays explores women s vernacular theology through a wide range of medieval prose and verse texts from saints lives to visionary literature Employing a historicist methodology the essays are sited at the intersection of two discursive fields female spiritual practice and female textual practice The contributors are primarily interested in the relation of women to religious books as writers receivers and as objects of representation They focus on historical approaches to the question of women s spirituality and generically unrestricted examinations of issues of female literacy book ownership and reading practice The essays are grouped under four main themes the influence of anchoritic spirituality upon later lay piety Carthusian links with female spirituality the representation of femininity in Anglo Norman and Middle English religious poetry and veneration performance and delusion in the Book of Margery Kempe
