Arthur James Wells

War And Redemption Treatment And Recovery In Combat Related Traumatic Stress Disorder:

War and Redemption Larry Dewey, 2017-03-02 Much has rightly been written about the physiological and psychological symptoms known as posttraumatic stress disorder PTSD suffered by combat veterans and their treatment Much less has been written about the moral spiritual and existential pain that soldiers experience as a consequence of carrying through the stated purpose of war for the common soldier kill the enemy until the war is won Based on his 20 years experience of treating combat veterans Dr Larry Dewey explores the war trauma and life adaptation of combatants over two decades of intensive treatment He addresses moral spiritual and existential issues while also attending to the important physiological and psychological symptoms Using case material thoughts experiences and literally the words of 65 veterans of various wars he portrays in depth and with meaningful detail the process of successful treatment and the eventual positive adaptation for these veterans The volume explores the deep pain and burden of killing and the role of propaganda and love in starting and maintaining war Through the veterans stories the author portrays the personal war of the ordinary combatant and the burden of guilt grief and pain they often carry afterwards The second part tackles the actual healing process and part three explores the concepts of sin confession mercy forgiveness redemption and love and how veterans have used them in aiding their own recovery from war s grief and moral pain *War and Redemption* provides an invaluable tool in the understanding and treatment of PTSD for therapists veterans and their families It will also be a fascinating and valuable resource for all those interested in PTSD more generally

A Vietnam Trilogy, Vol. 3: War Trauma Raymond M. Scurfield, 2006 A nationally renowned PTSD authority reveals the psychiatric impact of war on soldiers and veterans dented or minimized by government and the military Through efforts to treat veterans of past conflicts he illustrates the inevitability of lifelong psychiatric scars from today s conflicts as well

Head Strong Michael D. Matthews, 2020 In *Head Strong* How Psychology is Revolutionizing War Michael D Matthews explores the many ways that psychology will make the difference for wars yet to come from revolutionary advances in soldier selection and training to new ways of preparing soldiers to remain resilient in the face of horror and to engineering the super soldier of the future Many of the predictions made in the first edition have come true and exciting new developments in military psychology have emerged This Revised and Expanded Edition updates the existing chapters with important new developments and adds new chapters on character and human performance optimization both topics of significant interest in today s military

Disconnect Cristina Lope Yl Rosello, 2011-05-20 *Disconnect* The Filipino Comfort Women portrays the inner worlds of elderly women survivors of the Pacific War as they grapple with their psychological and historical disconnection following the fifty year postwar silence of sexual enslavement and captivity Victimized at puberty ego formation was nipped in the bud When the war ended they did not have any sense of who they were They went through the motions of living stuck in the time bubble where fragments of what had happened to them kept creeping up in their minds and hearts To stop the unstoppable whirl of events in their psyche these survivors

explored suffering as the punctum saliens of their existence. A number was surprised to discover that the inability to form a sense of self inadvertently spared them of the egoic malaise inherent in humanity. It is in the exploration of suffering that the book profoundly reaches out to the reader. After all, one need not be a war victim or a woman to have had experienced suffering in their lives.

Comics, the Holocaust and Hiroshima Jane L. Chapman, Adam Sherif, 2016-01-12 Comics the Holocaust and Hiroshima breaks new ground for history by exploring the relationship between comics as a cultural record, historiography, memory, and trauma studies. Comics have a dual role as sources for gauging awareness of the Holocaust and through close analysis as testimonies and narratives of childhood emotions and experiences.

Post-Traumatic Jesus David W. Peters, 2023-02-21 After twenty years of war in Iraq and Afghanistan, a global pandemic, protests against racial violence, and frequent shootings, more Americans than ever are living with the effects of trauma. The good news is that Jesus was born and died in a traumatized world, and his story speaks forever to wounded people worldwide. Army veteran and Episcopal priest David Peters explores Jesus' life story through the post-traumatic lens with which the Gospel writers first wrote it, as people who had seen their leader executed by the same oppressive government that had already shrouded their whole lives in anxiety and fear. Meeting the post-traumatic Jesus, the only Jesus the world has ever known, can be a balm to the wounds of modern Christians and spiritual seekers.

Military Chaplains in Afghanistan, Iraq, and Beyond Eric Patterson, 2014-08-07 The role of military chaplains has changed over the past decade as Western militaries have deployed to highly religious environments such as East Africa, Afghanistan, and Iraq. U.S. military chaplains, who are by definition non-combatants, have been called upon by their war-fighting commanders to take on new roles beyond providing religious services to the troops. Chaplains are now also required to engage the local citizenry and provide their commanders with assessments of the religious and cultural landscape outside the base and reach out to local civilian clerics in hostile territory in pursuit of peace and understanding. In this edited volume, practitioners and scholars chronicle the changes that have happened in the field in the twenty-first century. Using concrete examples, this volume takes a critical look at the rapidly changing role of the military chaplain and raises issues critical to U.S. foreign and national security policy and diplomacy.

Finland in World War II Tiina Kinnunen, Ville Kivimäki, 2011-11-25 Drawing on innovative scholarship on Finland in World War II, this volume offers a comprehensive narrative of politics and combat, well-argued analyses of the ideological, social, and cultural aspects of a society at war, and novel interpretations of the memory of war.

The Northern Ireland Troubles in Britain Graham Dawson, Jo Dover, Stephen Hopkins, 2016-11-28 This ground-breaking book provides the first comprehensive investigation of the history and memory of the Northern Ireland Troubles in Britain. It examines the impacts of the conflict upon individual lives, political and social relationships, communities, and culture in Britain, and explores how the people of Britain, including its Irish communities, have responded to and engaged with the conflict in the context of contested political narratives produced by the State and its opponents. Setting an agenda for further research and public debate, the

book demonstrates that unfinished business from the conflicted past persists unaddressed in Britain and advocates the importance of acknowledging legacies understanding histories and engaging with memories in the context of peace building and reconciliation

Encyclopedia of Trauma Charles R. Figley, 2012-06-19 Trauma is defined as a sudden potentially deadly experience often leaving lasting troubling memories Traumatology the study of trauma its effects and methods to modify effects is exploding in terms of published works and expanding in terms of scope Originally a narrow specialty within emergency medicine the field now extends to trauma psychology military psychiatry and behavioral health post traumatic stress and stress disorders trauma social work disaster mental health and most recently the subfield of history and trauma with sociohistorical examination of long term effects and meanings of major traumas experienced by whole communities and nations both natural Pompeii Hurricane Katrina and man made the Holocaust 9 11 One reason for this expansion involves important scientific breakthroughs in detecting the neurobiology of trauma that is connecting biology with human behavior which in turn is applicable to all fields involving human thought and response including but not limited to psychiatry medicine and the health sciences the social and behavioral sciences the humanities and law Researchers within these fields and more can contribute to a universal understanding of immediate and long term consequences both good and bad of trauma both for individuals and for broader communities and institutions Trauma encyclopedias published to date all center around psychological trauma and its emotional effects on the individual as a disabling or mental disorder requiring mental health services This element is vital and has benefited from scientific and professional breakthroughs in theory research and applications Our encyclopedia certainly will cover this central element but our expanded conceptualization will include the other disciplines and will move beyond the individual

Alien Landscapes? Jonathan Glover, 2014-09-02 Do people with mental disorders share enough psychology with other people to make human interpretation possible Jonathan Glover tackles the hard cases violent criminals people with delusions autism schizophrenia to answer affirmatively He offers values linked with agency and identity to guide how the boundaries of psychiatry should be drawn

Living and Surviving in Harm's Way Sharon Morgillo Freeman, Bret A Moore, Arthur Freeman, 2009-06-03 In *Living and Surviving in Harm's Way* experts investigate the psychological impact of how warriors live and survive in combat duty They address the combat preparation of servicemen and women their support systems and their interpersonal and intrapersonal experiences The text maintains a focus on cognitive behavioral interventions for treating various combat related disorders and addresses psychological health and adjustment after leaving the battlefield The text is logically organized for easy reading and reference and covers often overlooked topics such as preparation and training of service personnel women in combat and the indirect effects of combat stress on family This book is written by clinicians who have in some ways experienced what they write about and resonates with mental health professionals servicemen and women and their families Any clinician hoping to treat a serviceman or woman effectively cannot afford to overlook this book

Beyond Trauma: Hope and Healing for Warriors Dean

Bonura,2016-03-03 It is estimated that well over 250 000 military veterans from Iraq and Afghanistan are suffering today from PTSD and even more from post traumatic stress or PTS Clinical interventions alone do not adequately address all the issues associated with PTSD There is also a profound spiritual dimension to trauma and it is frequently manifested in post trauma symptoms such as guilt grief and shame and in various forms of loss including loss of meaning loss of faith and loss of peace Pastors chaplains and Christian counselors have a legitimate healing role alongside clinicians in addressing the spiritual aspects of trauma through spiritual interventions that are based on Scripture and leverage new ways of viewing trauma and assumptions about its meaning Beyond Trauma Hope Healing for Warriors equips pastors chaplains and other pastoral caregivers with the knowledge and resources to not only understand the spiritual effects of trauma but to make appropriate interventions that will lead veterans in their churches and communities to healing and growth

Issues in Science and Theology: Do Emotions Shape the World? Dirk Evers,Michael Fuller,Anne Runehov,Knut-Willy

Sæther,2016-04-14 This volume examines emotions and emotional well being from a rich variety of theological philosophical and scientific and therapeutic perspectives To experience emotion is a part of being human but what are emotions How can theology philosophy and the natural sciences unpack the nature and content of emotions This volume is based on contributions to the 15th European Conference on Science and Theology held in Assisi Italy It brings together contributions from scholars of various academic backgrounds from around the world whose individual insights are made all the richer by their juxtaposition with those from experts in other fields leading to a unique exchange of ideas

Special Needs Offenders in Correctional Institutions Lior Gideon,2012-09-14 Effective treatment and preparation for successful reintegration can be better achieved if the needs and risks of incarcerated offenders are taken into consideration by correctional practitioners and scholars Special Needs Offenders in Correctional Institutions offers a unique opportunity to examine the different populations behind bars e g chronically and mentally ill homosexual illegal immigrants veterans radicalized inmates etc as well as their needs and the corresponding impediments for rehabilitation and reintegration Author Lior Gideon takes a rehabilitative and reiterative approach to discuss and differentiate between the needs of these various categories of inmates and provides in depth discussions not available in other correctional texts about the specific needs risks and policy recommendations when working with present day special needs offenders Each chapter is followed by suggested readings and relevant websites that will enable readers to further enhance understanding of the issues and potential solutions discussed in the chapter Further each chapter has discussion questions specifically designed to promote class discussions The text concludes with a theoretical framework for future policy implications and practices

Post-Traumatic God David W. Peters,2016-09-01 After traumatic events many turn away from the Church this book presents a path home providing a way back to a God who can be trusted loved and worshipped Today the church is sometimes viewed even from within as a place apart which may create a barrier of understanding for those who have

experienced trauma Post Traumatic God grew out of Peters own experience as a chaplain in Iraq and later as an Episcopal priest and from his subsequent work with an organization he founded Episcopal Veterans for Peace which helped him identify the need for this quite different book to bridge that gap In it Peters explores three related themes history the early church itself was a post traumatic community theology especially building on Tillich s World War I experiences and the theology he subsequently developed and ecclesiology how church can offer community to trauma survivors Post Traumatic God equips the Church to heal the unseen wounds of the soul

How We Are Changed by War D.C. Gill,2010-04-30 How We Are Changed by War examines the changes to Americans during wartime through the medium of their diaries and correspondence beginning with the colonial period of the early seventeenth century and ending with diaries and letters from Iraq War veterans The book clearly discusses and describes the universal themes of war such as reintegration to society and the horrors of war through private writings regardless of the narrator s historical era This allows the writers to speak to each other across time to reveal a profound commonality of cultural experience How We Are Changed by War is a fascinating look at the writings of individuals who served their military in different eras and a great example of how history is shaped by both memory and experience Jacket

Aspects of Leadership Carroll J. Connelley,Paolo Tripodi,2012 The essays in this book are intended to inform leaders and the general public about the challenges of ethical decision making the application of the law of war and the important role of spirituality Aspects of Leadership will educate readers and generate important questions that leaders should ask themselves encouraging them to reflect upon their pivotal roles in these three areas Back cover

The Journey of Adulthood Barbara R. Bjorklund,Helen L. Bee,2008 This best selling book discusses the aspects of "successful aging" covering growth and development from young adulthood to old age and the impact that culture gender and individual differences have on these processes Its conversational and positive tone keeps readers interested in the subject matter as it encourages them to apply the concepts of the book to their own lives It presents research findings theories and models from the fields of developmental psychology social psychology health psychology sociology and others to discuss topics of prevention compensation gains and losses For psychologists sociologists and gerontologists interested in a valuable resource for information about the aging process
