

THREADING THE MACHINE

NOTE: IF YOUR MACHINER IS NOT FAMILIAR WITH THE MACHINER, IT WILL NOT RUN PROPERLY.

The first thread should run over the needle to form an S shape position. Then a second thread is run over the needle in the back of the S shape position. See Fig. 1 for the following steps.

1. Run thread through the back thread guide (1) and thread over the front thread guide (2).
2. Then the thread should run over the needle between the needle plate (3) and the needle (4).

3. Now place the thread on the guide post (5) at the top of the machine bed.
4. Bring the thread back down and under the check spring (6) and up through the top thread (7).
5. Run the thread through the hole at the end of the take-up lever (8) and right to left.
6. Now the thread goes through the hole at the back (9) and thread guide (10) and the needle thread guide (11).
7. Now pass the thread through the eye of the needle from left to right. Check thread tension of thread through the eye of the needle. This is the length necessary to form string.

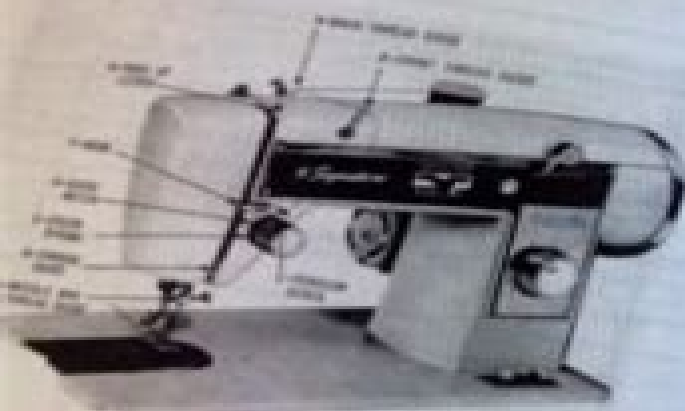

Fig. 1. How to Thread

STRAIGHT SEWING

SETTING STITCH LENGTH FOR STRAIGHT SEWING

See Fig. 12

For all straight sewing on the regular cloth weight material (12) at 12" width use the regular cloth (13) Fig. 12.

REGULATING DIRECTION OF FEED

See Fig. 13

When you desire to feed the material from the front to the rear of the machine, turn the stitch length regulator knob (14) to the position shown (15) on the dial. Length in feed of the material is made. When the dial is turned, or from the rear of the machine, the material is fed from the front. This allows reversal of the direction of feed without changing the direction of feed of the material. The machine will continue to sew in the same direction as the dial is turned. This permits fast and easy back-tacking for finishing the ends of seams as they start and repeat.

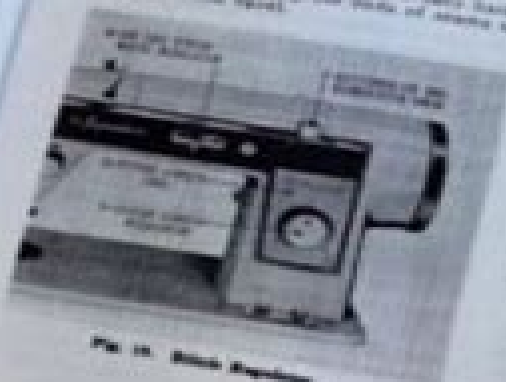

Fig. 12. Stitch Regulator

REGULATING LENGTH OF STITCH

See Fig. 14

The machine can be adjusted to make from 12 to 24 stitches per inch. To make the shortest stitch (24 per inch) turn the stitch length regulator knob (16) to the right edge of 2 on the indicator dial (17). To make the longest stitch (12 per inch) turn the regulator knob to indicate length 1 on the dial. To make the same length as in normal sewing, simply press the machine will stop in reverse until the needle is in the back of the material. When the needle is in the back, turn the regulator knob (16) to the right edge of 2 on the indicator dial (17). This is the length necessary to make the same length as in normal sewing.

DROPPING THE FEED

See Fig. 15

For all normal straight or zigzag sewing, push down on feed return button (18) until the button is fully depressed. For extremely light weight materials, push down on drop button (19) half way. For understitching, overstitching, etc., push down on drop feed button (19) until the button is fully depressed. For regular sewing, be sure to push down on feed return button (18) until the button is fully depressed.

Fig. 15. To Drop the Feed
