Warlords And Coalition Politics In Post Soviet States Cambridge Studies In Comparative Politics:

Warlords and Coalition Politics in Post-Soviet States Jesse Driscoll, 2015-07-02 The break up of the USSR was unexpected and unexpectedly peaceful Though a third of the new states fell prey to violent civil conflict anarchy on the post Soviet periphery when it occurred was quickly cauterized This book argues that this outcome had nothing to do with security guarantees by Russia or the United Nations and everything to do with local innovation by ruthless warlords who competed and colluded in a high risk coalition formation game Drawing on a structured comparison of Georgian and Tajik militia members the book combines rich comparative data with formal modeling treating the post Soviet space as an extraordinary laboratory to observe the limits of great powers efforts to shape domestic institutions in weak states

Tajikistan on the Move Marlene Laruelle, 2018-05-25 The southernmost and poorest state of the Eurasian space Tajikistan collapsed immediately upon the fall of the Soviet Union and plunged into a bloody five year civil war 1992-1997 that left more than 50 000 people dead and more than half a million displaced After the 1997 Peace Agreements Tajikistan stood out for being the only post Soviet country to recognize an Islamic party the Islamic Renaissance Party of Tajikistan IRPT as a key actor in the civil war as well as in postwar reconstruction and democratization Tajikistan's linguistic and cultural proximity to Iran notwithstanding the balance of external powers over the country remains fairly typical of Central Asia with Russia as the major security provider and China as its principal investor Another specificity of Tajikistan is its massive labor migration flows toward Russia Out of a population of eight million about one million work abroad seasonally one of the highest rates of departure in the world Migration trends have impacted Tajikistan's economy and rent mechanisms half of the country's GDP comes from migrant remittances a higher share than anywhere else in the world However it is in the societal and cultural realms that migration has had the most transformative effect Migrants cultural and societal identities are on the move with a growing role given to Islam as a normative tool for regulating the cultural shock of migration Islam and especially a globalized fundamentalist pietist movement regulates both physical and moral security in workplace and other settings and brings migrants together to make their interactions meaningful and socio politically relevant It offers a new social prestige to those who work in an environment seen as threatening to their Islamic identity The first section of this volume investigates the critical question of the nature of the Tajik political regime its stability legitimacy mechanisms and patterns of centralization In the volume's second part we move away from studying the state to delve into the societal fabric of Tajikistan shaped by local rural specificities and social vulnerabilities in the health sector and gender relationships The third section of the volume is devoted to identity narratives and changes While the Tajik regime works hard to control the national narrative and the interpretation of the civil war society is literally and figuratively on the move as migration profoundly reshapes societal structures and cultural values

[The Oxford Handbook of Political Executives](#) Rudy B. Andeweg, Robert Elgie, Ludger Helms, Juliet Kaarbo, Ferdinand Müller-Rommel, 2020-07-30 Political executives have been at the centre of public

and scholarly attention long before the inception of modern political science In the contemporary world political executives have come to dominate the political stage in many democratic and autocratic regimes The Oxford Handbook of Political Executives marks the definitive reference work in this field Edited and written by a team of world class scholars it combines substantive stocktaking with setting new agendas for the next generation of political executive research

Intercommunal Warfare and Ethnic Peacemaking Joldon Kutmanaliev, 2023-05-08 With increasing urban population density conflicts in cities erupt more frequently and violently Cities have become hotspots for armed combat highlighting the urgency of understanding the impact of local communities and urban factors on the development of violent conflict Joldon Kutmanaliev presents a novel approach to analyzing communal violence and armed conflicts in urban zones Drawing from fieldwork in cities of southern Kyrgyzstan he explains local level variations in violence across neighbourhoods during the most intense and violent episode of urban communal violence in Central Asia the clashes between Kyrgyz and Uzbeks in June 2010 Kutmanaliev explains why armed violence affects some urban neighbourhoods but not others why local communities react differently to the same existential threat how they deal with a deteriorating security environment and interethnic fears and how different types of urban planning and urban landscapes influence the spread of violence Importantly the book identifies key factors that help local communities and their leaders to negotiate non aggression pacts and control local constituencies and therefore successfully prevent violence Intercommunal Warfare and Ethnic Peacemaking explains communal war and ethnic peacemaking on the level of neighbourhood communities a perspective that is largely absent in previous studies

Elite Rivalry, Mass Killing and Genocide in Authoritarian Regimes Eelco van der Maat, 2024-06-18 This book explains how mass killing is driven by elite politics within authoritarian regimes Mass killing and genocide defy reason and explanation How can genocidal elites present defenceless victims as an existential threat Why use indiscriminate killing that drives victims to coordinated resistance Mass killing seems counterproductive irrational and therefore inherently ideological By building on new insights on authoritarian politics this book argues that mass killing is not ideological but instead is a rational response to elite rivalry within authoritarian regimes Mass killing is therefore not driven by rivalries between groups but by elite rivalry within groups In Rwanda for example the genocide was not driven by conflicts between Hutu and Tutsi but by conflicts within the Hutu regime The work demonstrates how mass killing helps elites build coalitions with groups that benefit from violence and how it divides support coalitions of rival elites Mass killing can therefore help elites win dangerous internal rivalries By qualitatively and quantitatively exploring elite rivalry and mass killing this book provides a new explanation for a host of mass killings and genocides It demonstrates that well known genocides such as the Rwandan and Cambodian genocides which are seemingly ideological are instead better explained by elite rivalry Mass killing is therefore not driven by the random madness of leaders nor by the desire to kill an outgroup but by the internal threats that authoritarian elites face This book will be of much interest to scholars and students of civil wars genocide political violence

and International Relations in general **Warlord Survival** Romain Malejacq,2020-01-15 How do warlords survive and even thrive in contexts that are explicitly set up to undermine them How do they rise after each fall Warlord Survival answers these questions Drawing on hundreds of in depth interviews in Afghanistan between 2007 and 2018 with ministers governors a former vice president warlords and their entourage opposition leaders diplomats NGO workers and local journalists and researchers Romain Malejacq provides a full investigation of how warlords adapt and explains why weak states like Afghanistan allow it to happen Malejacq follows the careers of four warlords in Herat Sheberghan and Panjshir Ismail Khan Abdul Rashid Dostum Ahmad Shah Massoud and Mohammad Qasim Fahim He shows how they have successfully negotiated complicated political environments to survive ever since the beginning of the Soviet Afghan war The picture he paints in Warlord Survival is one of astute political entrepreneurs with a proven ability to organize violence Warlords exert authority through a process in which they combine instrumentalize and convert different forms of power to prevent the emergence of a strong centralized state But as Malejacq shows the personal relationships and networks fundamental to the authority of Ismail Khan Dostum Massoud and Fahim are not necessarily contrary to bureaucratic state authority In fact these four warlords and others like them offer durable and flexible forms of power in unstable violent countries *Who Fights for Governments?* Huseyn Aliyev,2025-06-26 Exploring why when and under which circumstances individuals decide to take up arms mobilizing for pro government militias Huseyn Aliyev draws on insights from long standing ethnographic fieldwork among former and active members of Ukraine s pro government volunteer battalions and an original database of militias obituaries to offer this complex and in depth explanation of the phenomenon of pro government mobilization Revealing the patterns and dynamics of individual mobilization into pro government militias this study is critical to understanding how the Ukrainian nation succeeded in repelling Russian aggression both in 2014 15 and in 2022 but also essential to explaining how and why hundreds of pro government militias emerge in the context of armed conflicts in different parts of the world

Doing Global Fieldwork Jesse Driscoll,2021-04-13 To do quality research many social scientists must travel to far flung parts of the world and spend long stretches of time living in places they find unfamiliar and uncomfortable No matter how prepared researchers think they are everyone encounters unexpected challenges in the course of their work in the field In *Doing Global Fieldwork* the political scientist Jesse Driscoll offers a how to guide for social scientists who are considering extended mixed methods international fieldwork He details the major steps in fieldwork planning and execution from creating a plan to what happens when political conditions throw up obstacles to research to distilling and writing up research findings upon return Driscoll emphasizes the ability to improvise and adapt because in the field ideas will shift plans will change and something will inevitably go wrong He offers a practical overview of the types of psychological and physical preparation professionalization and self presentation that social scientists conducting research abroad need to prioritize Driscoll describes the challenges that arise when working in difficult settings such as war zones areas of contested

sovereignty and volatile nondemocratic states He explores the practical and ethical considerations for data collection in these unique situations including whether and how much to reveal about one s research and common psychological harms associated with fieldwork Doing Global Fieldwork is an up to date methodological guide for graduate students and social science researchers of all stripes who need blunt no nonsense advice about how to make the best of their time in the field

Cambridge Studies in Comparative Politics.** Anna Maria Grzymała-Busse,2014-05-14 Why do some governing parties limit their opportunistic behaviour and constrain the extraction of private gains from the state This analysis of post communist state reconstruction provides surprising answers to this fundamental question of party politics Across the post communist democracies governing parties have opportunistically reconstructed the state simultaneously exploiting it by extracting state resources and building new institutions that further such extraction They enfeebled or delayed formal state institutions of monitoring and oversight established new discretionary structures of state administration and extracted enormous informal profits from the privatization of the communist economy By examining how post communist political parties rebuilt the state in Bulgaria the Czech Republic Estonia Hungary Latvia Lithuania Poland Slovakia and Slovenia Grzymala Busse explains how even opportunistic political parties will limit their corrupt behaviour and abuse of state resources when faced with strong political competition
