Television Series as Literature Reto Winckler, Víctor Huertas-Martín, 2022-01-19 This book explores how television series can be understood as a form of literature bridging the gap between literary and television studies It goes beyond existing adaptation studies and narratological approaches to television series in both its scope and depth The respective chapters address literary works themes tropes techniques values genres and movements in relation to a broad variety of television series while drawing on the theoretical work of a host of scholars from Simone de Beauvoir and Yuri Lotman to Ted Nannicelli and Jason Mittel and on critical approaches ranging from narratology and semiotics to empirical sociology and phenomenology The book fosters new ways of understanding television series and literature and lays the groundwork for future scholarship in a number of fields By questioning the alleged divide between television series and works of literature it contributes not only to a better understanding of television series and literary texts themselves but also to the development of interdisciplinary scholarship in the humanities

Cinematic Digital Television Chris Comerford, 2022-12-20 Chris Comerford explores cinematic digital television as an artistic classification and an academic object of study and illuminates the slippage in definitions of previously understood media forms The growth of television as an artistic informative medium has given rise to shifts in the aesthetic style of the programmes we watch and this book outlines these shifts along with the contemporary debates and critical theory surrounding them Comerford looks at the forms and aesthetics of television the production standards influencing streaming television and the agency of audiences and

provides case studies of key TV shows illustrating these shifts including *Twin Peaks The Return*, *WandaVision*, *Hacks* and *Russian Doll*. Navigating the levels of production and reception in cinematic digital television, the book uses film-inspired TV as a lightning rod for understanding our narrative screen media landscape and the classifications we use to negotiate it. As an essential reading for both scholars and students of media and television studies, this book provides a much-needed

consideration of the changing landscape of television. **Assault on the Small Screen** Molly Ann Magestro, 2015-07-22

Over the last few decades, television programs have attempted to depict some of the more troubling elements of society with a more conscientious approach. Issues that networks were once reluctant to broadcast, such as sexual abuse, sexual assault, and rape, have become frequent plot points for many popular shows. Narratives that portray important social issues could potentially affect the ways individual viewers understand such incidents in the real world, so it is important to pay close and critical attention to the stories about rape that are broadcast to mass audiences. In *Assault on the Small Screen: Representations of Sexual Violence on Prime Time Television Dramas*, Molly Ann Magestro examines the ways in which police and legal dramas on network and cable channels portray rape narratives. In this discussion, the author focuses on eight successful shows: *NCIS*, *Criminal Minds*, *CSI*, *The Closer*, *Rizzoli Isles*, *Dexter*, *Law and Order: Special Victims Unit*, and *The Good Wife*. Each chapter offers a close reading and analysis of how one or more of the shows represent rape narratives and rape victims in ways that more or less address feminist understandings of rape and rape culture. The arguments in each chapter explore the specific narrative content of individual series rather than a single critical approach. Each of the eight shows considered within the book is the focus of its own argument, as the representations of rape narratives on television are as complex as issues surrounding rape can be in the real world. In a time when rape narratives are frequently making headlines, taking the time to examine and understand the messages broadcast by a medium as ubiquitous as television serves an important role in developing an understanding of rape culture. A significant step toward this understanding, *Assault on the Small Screen* will be of interest to scholars of film and television, media studies, gender studies, criminology, and sociology.

What Men Want to Say to Women (But Can't) Denise McAllister, 2020-02-11 No matter one's political persuasion, most of us agree there's something deeply wrong in America today. Conflict has reached a fever pitch as our nation has become alarmingly polarized in the political arena. Many look to politicians and public policies for solutions, but journalist Andrew Breitbart rightly said that politics couldn't be fixed if culture is ignored, because politics is downstream from culture. McAllister would take this observation a step further: politics might be downstream from culture, but culture is downstream from relationships. If we don't focus on the personal building blocks of society, we will fail to fix problems in culture and the politics that flow from it. If relationships are sick or broken, especially those between men and women, then everything else is affected. If there's little love, respect, and trust, there you won't find it anywhere else. Men are tired of being dumped on. They have a lot to say to women about sex equality in the workplace, raising boys, and the lie of toxic masculinity, but modern

feminism and a politically correct culture have silenced them This war on men has disrupted relationships and caused men to question their place in American society Misogyny male privilege and the Patriarchy are buzzwords that shut men down Some are so frustrated they've given up entirely Who needs women if all they're going to do is use you and treat you like garbage Anger separation and simply giving up aren't solutions to a festering problem Instead we need to heal relationships by learning to respect the designed purposes of masculinity and femininity For this to happen women will need to hear some hard truths about themselves and those they love In *What Men Want to Say to Women But Can't* cultural commentator and New York Times bestselling author Denise McAllister speaks to women on men's behalf exposing the lies of modern feminism and offering insights on how to rebuild broken relationships in the workplace at home and in the bedroom Here's a sneak peek at a few things men would like to say to women but can't When I look at your cleavage it doesn't mean I want to rape you Stop complaining about equal pay when you don't do equal work Children need their father stop shutting men out of the picture because you think you do everything better I will teach my son to compete now go toss that participation trophy in the trash A triumph of compassion insight and good sense Denise McAllister doesn't just want to fix how men and women talk to each other She wants to heal a fraying holy sacrament Read this book to save your marriage or to find one Milo
