Leading from Within Nancy S. Huber, 1998 The premise is that we are all leaders. When we care enough to want to create a better future in which to live and work, then we are ready to lead. Exploring the context of the passion which calls us to lead brings into focus our personal framework for leadership learning. As we learn, we discover, develop and nourish the leader within. This book links together the why, the who and the what of leadership in a personalized but nonprescriptive format. Reflective questions and journaling suggestions assist the reader in a journey that is unique for each individual and in each context. Suggested resources and activities for learning leadership make this a useful tool in classroom or group settings as well as for an emerging leader. The book does not advocate any single theory or approach but guides the reader to a personal understanding of leadership and its applications.
