David L. Bender

War Opposing Viewpoints:

World War I William Dudley, 1998 Presents essays about controversial issues during World War I including the question of American neutrality the Treaty of Versailles and the League of Nations **War** Tamara L. Roleff, 1999 A collection of articles speeches and book excerpts from the 1990s with bandw cartoons and quotations by experts policymakers and concerned citizens offering a diversity of opinions on causes and prevention of war the international community's responsibility to intervene in conflicts and the US role in maintaining peace Includes section and chapter introductions questions to consider for each reading and further discussion questions plus a regional survey of global conflicts and their status as of October 1998 Annotation copyrighted by Book News Inc Portland OR **War**, 2005 **War** Louise I. Gerdes, 2005 Annotation Titles continually revised and updated Biographical sketch of authors Paper and durable library bindings Organizations to contact Current book and periodical bibliographies The Vietnam War William Dudley, David L. Bender, 1984 Presents opposing viewpoints on various aspects of the Vietnam War including the reasons for American involvement the failure of United States policy there and the effects on veterans Nuclear War Bonnie Szumski, 1985 Such topics as how would a nuclear war begin and can humans survive it are discussed from a variety of viewpoints War and Human Nature David L. Bender, Bruno Leone, 1983 **Opposing Viewpoints in American History** William Dudley, 1996 Vol 1 from colonial times to reconstruction Vol 2 from reconstruction to present World War II William Dudley, 1997 Presents arguments on both sides of issues surrounding WWII including the draft use of the atomic bomb rationing of goods and American minorities during the war **Energy Abstracts for Policy Analysis**, 1988 War David Haugen, 2013 Features different perspectives on issues surrounding war including such topics as the justification of war resource scarcity the war on terror and surveillance tools The Civil War William Dudley, 1995 An anthology of articles written at the time of the Civil War and dealing with the political and social issues of that era Also includes two contemporary perspectives *The Cold War: Opposing Viewpoints*, *War and Human Nature* David L. Bender, Bruno Leone, 1983 Readings and discussion questions present conflicting points of view on war and its effect on humans *The War on Terrorism* Karen Balkin, 2005 This book examines arguments concerning the justification for the war on terrorism and debates how the efforts should be carried out **The Civil War** William - Dudley, 1995 *Just War Theory* Ellen Garcia, 2014-04-15 Seminar paper from the year 2013 in the subject Sociology War and Peace Military grade A The University of Liverpool language English abstract The ethical and moral justifications of the Just War Theory have been discussed continuously for several years The ethical issue has created two sides of opposing views those who view Just War as ethical and those who view it as unethical Even today the Just War theory still creates passionate debates among philosophers and religious leaders as well as throughout the public Some proponents of Just War theory argue that it brings peace and justice while those opposing just war theory note the damages and even instability are created by wars However both sides agree that war is necessary where peace can not be

achieved by peaceful means In the recent past the war in Iraq that was started by the U S and its allies has ignited a passionate debate over if this war is a just war To further investigate these opposing viewpoints this position paper will attempt to explain the issue by looking at both sides of the issue Various positions on both sides will be highlighted and then a position will arrived at basing on the findings of both sides Lastly this paper will conclude in favor of just war In any debate over war it s impossible for the church or the mass to voice one view point on the issue This is because even the Bible itself has two opposing aspects on the issue On one side the Bible teaches Christians that rulers who pursue their own individual goals against the people wish sin against the will of God and in such a situation other world rulers are supposed to at times enforce peace even through force though under Gods guidelines But on the side God wishes man to live peaceful without fighting and killing each other Thus all Christians exonerate some level of coercion however they basically they are peaceful

God and War Raymond Haberski, Jr.,2012-07-23 Americans have long considered their country to be good a nation under God with a profound role to play in the world Yet nothing tests that proposition like war Raymond Haberski argues that since 1945 the common moral assumptions expressed in an American civil religion have become increasingly defined by the nation s experience with war God and War traces how three great postwar trials the Cold War the Vietnam War and the War on Terror have revealed the promise and perils of an American civil religion Throughout the Cold War Americans combined faith in God and faith in the nation to struggle against not only communism but their own internal demons The Vietnam War tested whether America remained a nation under God inspiring somewhat ironically an awakening among a group of religious intellectual and political leaders to save the nation s soul With the tenth anniversary of 9 11 behind us and the subsequent wars in Iraq and Afghanistan winding down Americans might now explore whether civil religion can exist apart from the power of war to affirm the value of the nation to its people and the world *Opposing Viewpoints: War and Human Values* David L. Bender,1983 **Opposing Viewpoints Sources** Bruno Leone,David L. Bender,1984
