Zero Effort For Leaders Maximizing Potential With Ease In Less:

Teacher Leadership Kokila Roy Katyal, Colin William Evers, 2014-03-14 In recent years teacher leadership has undergone one major revolution and is in the process of undergoing another The first came about as schools turned out to be far too complex for the responsibility of formulating and achieving their goals to be vested entirely in principals and head teachers As a consequence the rise of distributed leadership as an alternative model for understanding schools and their functioning is now commonplace The second major revolution affecting teacher leadership is the rise of the Internet and ICT and the way these give rise to greater and more flexible opportunities for students to become autonomous learners Autonomous student learning now occurs in significant new ways and under parameters that are far more expansive than school based learning An effective model of teacher leadership thus needs to capture these changes in order to reflect the new realities of student learning and student engagement with their schools

The Joy of Leadership Tal Ben-Shahar, Angus Ridgway, 2017-07-14 Think of the last time you were at your best and working in the zone Now compare that to all the time you've spent just going through the motions How would you quantify the difference between the two in terms of how you felt and what you produced Would you rate it as a 5% difference a 50% difference Most people would describe the gulf between those two states of being as vast as deep and wide as the Grand Canyon For quality of experience engagement productivity and just the sheer joy of living the majority of people asked to rate the difference between flourishing and floundering found it to be around a factor of 10 In their work with managers and executives at leading companies around the world authors Tal Ben Shahar and Angus Ridgway have identified a select group of individuals who consistently perform at their peak and who make work seem effortless and working with them feel easy The name they've given to those lucky few is 10X Leaders You know who they are They're the team leaders who bring out the best in everyone They're the senior managers who drive growth and innovation They're the dream bosses dream partners and dream colleagues There's a good chance you've encountered at least one 10X leader in your career you're probably thinking of one right now And you wondered how they did it Dr Ben Shahar and Mr Ridgway believe they know the answer They have identified the core characteristics behaviors and cognitive styles that all 10X leaders share Even better they've developed a way for virtually anyone to cultivate those traits and ways of thinking in themselves to become happier more effective and more successful In this powerful new book they describe their revolutionary SHARP Strength Health Absorption Relationships and Purpose program for becoming a 10X leader They tell you the true stories of people at organizations around the globe who've become more effective by learning to use these performance multipliers And they offer proven strategies for mastering those characteristics and habits for lasting change the kind of change that can bring you greater fulfilment and success not just at work but in every area of your life

The Psychology of Executive Coaching Bruce Peltier, 2011-04-27 With the first edition of this text Peltier drew on his extensive experience in both the clinical and business worlds to create a comprehensive resource that brought psychological

and coaching concepts together. It quickly became a practical and invaluable guide for both mental health practitioners looking to expand their practice into coaching and business professionals interested in improving their own coaching skills. In this updated edition, topics reflect the latest developments in the field of executive coaching. Peltier describes several important psychological theories and how to effectively translate them into coaching strategies, essential business lessons in leadership, marketing, and the corporate viewpoint, along with vocabulary for the therapist, the challenges women face as managers and executives, and effective coaching methods for working with them, and lessons from successful athletic coaches that can be integrated into consulting skills. This edition includes four new chapters: one describing psychopathology likely to be encountered by coaches, another describes and evaluates emotional intelligence, a third summarizes adult developmental theory for coaches, and a fourth sorts out the popular and scientific literature on leadership and leader development.

Fresh Passion Leadership Michael D Brown, 2017-02-21 In an era of economic uncertainty, layoffs, high unemployment, and underemployment, and hiring freezes, creating and promoting a top-flight personal brand that stands out in the crowd is more important than ever. Furthermore, no matter what level position you are seeking, companies want to hire, invest in, and promote proven branded leaders: people who exude confidence and authority through their mastery of important branded skills that deliver world-class results individually and through and with people. In this case study of Michael D Brown's two years spent showing leaders of a Fortune 500 oil and gas company how to become distinct branded leaders instead of extinct generics, Michael D Brown shows you how to employ his unique and proven Fresh PASSION methodology to build a personal brand that will maximize your potential and help you to achieve success beyond your dreams in whatever field you choose. Fresh PASSION is the pathway to outperform and outshine your peers and competitors and obtain the professional and personal rewards you deserve in a manner that will encourage people to follow your lead with passion, conviction, and determination without being asked or begged. Brown outlines both the Fresh PASSION method and how he applied it in this particular situation, with easy-to-follow detail, personal assessments, and an interactive action guide that will lead to you developing, enhancing, and positioning your personal brand for exponential personal, professional, and economic success. You will discover how longtime employees left behind their generic ways of thinking and conducting business to create an entire experience they could present to employers, bosses, clients, and co-workers that left them begging for their services and produced double-digit top and bottom line results for the company and their clients. This process positioned them as sought-after brands in the organization and led to them earning record financial compensation, consistent recognition, and promotions. With Fresh PASSION, they avoided the pitfalls of a generic career and instead obtained the benefits and leadership credentials that come from being a branded entity.
