

Startup

After the IP phone is connected to the network and supplied with power, it automatically begins a process of initializing on the network and downloading its configuration information. Consult your system administrator if the phone fails to register with the IP phone system.

Initializing
Please wait

Configuring your Phone

Configuration of the phone is centrally managed from the Zultys M01 IP phone system. For most deployments the phone will receive an IP address from the DHCP server on the local network. For the phone to automatically download its configuration information the DHCP server must have Option 48 enabled and configured with the address of the Zultys M01 IP phone system. For further information about configuration of the phone please refer to the ZIP 33i Administration Manual.
